Maturing Our Magic: Sitting with the Ancients

In the eyes of the Ancients ... These old eyes delight in the journey of the Fool, and yet they grow weary with the antics of the foolish.

Oh, dear one, come join us as the first half of this year completes and the second half begins. Come join us and sit with the Ancients. Seek their counsel, seek their gifts, and revel in their grace.

— Lazaris

When we first began, we sought aliveness, wholeness, and togetherness as well as individuality; we wanted to become more. We searched for love; we were looking for our soul and spirit. When we first began, we used magic to get stuff for ourselves.

We have grown and we have changed. And we have received so much. And yes, we have become more ... so much more ... than we dreamed and so much more than we imagined we would be. Oh, how we have received the bounty and how we have matured as magicians.

With that maturity, we now use our magic to give. As the Year of Mattering reaches its halfway mark, once again it is time to mature our magic as we have matured ourselves. Our magic can become an even more powerful conduit for giving: triggering aliveness and wholeness, sparking individuality, igniting love, and flowing the miracles of belonging with an awakened soul and an enlivened spirit.

There was no workshop planned for June ... until now. Come join Lazaris online for this two-hour event. We will join together with Lazaris, coming

from all parts of the world. First, we will sit with each other; then we will *Call the Ancients* and *Sit with the Ancients*. This alone can trigger amazing changes in us and in our world. There are no words to adequately describe the wonder of this ancient ritual.

Beyond sitting with the Ancients, we will gather the precise energies that we need individually to mature our personal magic. With these energies we will work the "lost magic of the smithies" ... we will forge these energies anew. We will forge and reform our magic, stronger and more powerful than before.

Our magic can become a reservoir and a wellspring for aliveness, togetherness, and love. We and our world can become more. What a bountiful gift we can give.

Come join Lazaris. Come actively and consciously participate with Lazaris, with each other, and with the Ancients. Welcome to a magical event on the Internet.

Welcome to the first Online Workshop of the year, *Maturing Our Magic* ... Wednesday, June 28, 2006.

A Thought for May from Lazaris ...

"Within the recesses of your Soul, beyond the several faces, beyond the personified whole, there is a hush; there is a quiet more still than silence. It is there, beyond seeing and hearing, that all your dreams and visions are born. It is there that all your emptiness can be filled. It is there that wonder waits to open your heart and mind to the profound truths of your goodness and beauty and to the majestic glory of your love and caring.

"When you are filled and spilling over with happiness and joy, when you are filled and overflowing with enthusiasm and passion, surrender to the hush; surrender to the quiet. With will and imagination, your Soul can take you there.

"When you are snared and entangled in the patterns of your fear feeling so lost, so alone, so threatened, and in jeopardy, lift to the hush; lift to the quiet. With resolve and remembering the love, your Soul can take you there.

"Receive the truths of your goodness and beauty; receive the glory of your love and caring. Let wonder work its wonder."

Finding the Mattering in Your Life

[Click to order online](#)

Lazaris begins this evening's exploration by pointing out why mattering matters: from feeding our soul to awakening our spirit to creating new "adult dreams," finding the mattering in our lives has immense value and power. Yet we resist. Beyond our resistance we can discover numerous avenues – avenues other than tragedy: exquisite moments and

defining moments of love; engaging our minds (beyond our conscious brains); and seeking the light and beauty of our framework (memories, myths, dreams, and visions). We can stir the essence of mattering and capture that mattering in our lives: We can also consciously work with the fundamentals of mattering from humility to love and thinking/feeling; from possibility to courage and joy. Additionally, we can work with the seven notes and five tones of knowing. The evening concludes as Lazaris lays out a foundation of techniques and then guides us in a meditation. That meditation, *Finding the Mattering*, is included.

And there are miracles in the living ... in the living beyond fear. — Lazaris*

He outlines how to work with fear, diminish it, and move beyond it. Then he offers a beautiful and powerful technique for transforming our fears and for transcending their imprisoning grip upon us and our lives.

From Lazaris ...

Courage. Just beyond the obscuring veils and the entangling encumbrances, your courage gleams brilliantly. Courage is elegantly stepping back and away from a life that does not reflect your power and strength. It is joyously starting to create realities that reflect your truths. The opposite of courage is not cowardice: The opposite of courage is hushed or silent conformity.

Lazaris' Recommendations for May

Engaging the Mysterious Magic of Claiming and Demanding

In many ways, all magic is mysterious. Lazaris outlines how Claiming/Demanding Magic is uniquely so. We cannot just mouth the words; we need to learn the skill of claiming, and we need to develop the art of demanding. This magic is a "self-secret," revealing itself to those who can see with other than their eyes. Lazaris explores the *Paradox of Right Action*, for it is here that the power of this mysterious magic lies. Within this paradox we confront the negative ego seductions of entitlement, vindication, and greed as we encounter the positive Self's opportunities of empowerment, righting of wrongs, and altruism. Beyond traversing this maze, Lazaris guides us to the various components that provide the foundation for claiming/demanding that can be truly magical and profoundly powerful in our workings of magic. This discussion includes the step-by-step explanation of the *Ritual: Skill of Claiming* and of the *Ritual: Art of Demanding*. Following an intriguing meditation, Lazaris concludes this workshop with specific techniques to ground and apply this mysterious magic so that we can make it a part of our magic.

Explore the Wonder: A New Kind of Intimacy, a New Kind of Love

Wonder is a place to begin anew, a place to deepen love and intimacy, a place to seek that which is always surpassing itself. "Explore the Wonder" includes a discussion of the power of wonder to awaken magic and beauty, aliveness, enthusiasm, and passion. Lazaris helps us to identify our resistances to wonder — which may include fears of the unknown and of solitude, as well as our fear of the depth of human dignity with its innate capacity to sense tragedy. The "Valley of Wonder" Meditation is followed by Lazaris' instructions for "grounding" wonder and for working with the *Luminous Intent* that underlies even our mistakes. A ground-breaking recording.

Living in the Moment: Glorious Adventures and the Miracles That Can Unfold

During 2005 Lazaris explored four distinctively powerful avenues, four uniquely powerful ways, to develop rapport with illumination and thus to develop an alliance with the mystery and magic of illumination. Of those means, *Living in the Moment* is the most illusive and elusive; it is also potentially the most powerful. Gently, Lazaris guides us through a mystical terrain from conscious illumination, to establishing domain, infusing that domain with mystery, and then to expansion. Being a "giant" we create union and then enter the arcane mysticism of surrender — surrender without submission. It is an art. And then in a moment that is beyond description and full comprehension ... Presence. We take the steps in a process that has no steps. It is amazing. And yet there are the practical expressions: spontaneity, beauty, hope, and working with our duality are combined with conscious/unconscious presence, illumination, and enlightenment. And when we are all done, we, as Lazaris points out, "we chop wood." This astounding evening ends with a powerful meditation in which Lazaris guides us through the steps of the stepless process. Yes. Living in the moment is a paradox. And in that truth lies amazing power and magic. The recording includes a marvelous meditation.

The Full Video of the Lazaris OnLine Seminar, November 30, 2005

Lazaris conducted the third cyberspace workshop of 2005. This time it is called a *Magician's Homecoming*, and it was a beautiful and magical follow-up to the amazing Culminating Weekends of 2005, the Year of Illumination. During the span of two hours and across the span of cyberspace, Lazaris created a space, a sacred space, for magicians — for us — to gather. It was a space, as Lazaris said, made sacred by our presence. This OnLine Workshop provided a time for magicians from all parts of the world to come together — to "come home" to ourselves and to each other. Lazaris touched each of us during these two hours as he reviewed some of the highlights from the two Culminating Weekends — the ones completed in Los Angeles and in Orlando. He drew upon the energies from the weekends on each coast. It was a time of confluence ... a confluence of energy, a confluence of resonance, and a confluence of sacred moments. We gathered for a homecoming. The power and the magic was miraculous; it was truly beyond our expectations and our imaginations. This recorded workshop closes with "a burst of love and a bit of magic" for each of us to carry into our world and into the world around us. Within the embrace of these two hours each of us can draw upon the love, light, and magic of Coming Home. Welcome to the Magician's Homecoming ... welcome to the full recording of this live event from Wednesday, November 30, 2005. This DVD features selected video clips of discussions from the Culminating Weekends of 2005. Meditation from the online event is included.
