Connecting with Lazaris

Connecting with Lazaris tapes are gentle but powerful processes, many with blendings or meditations, for building dreams, allowing in more love, healing the inner child and adolescent, and deepening our relationships with Lazaris and our Higher Self. They provide a time to really connect with Lazaris while empowering our capacity for imagination and deepening our personal power.

*Each title is 30 minutes ... \$9.95 ... Those without guided meditations have a *.*

*Accepting the Gifts of the Metaphysician**

The Gifts of the Metaphysician are the Gifts of Knowing, Imagination, Celebration, and Reflection. On this tape Lazaris outlines a series of four meditations to bring into you these Gifts. It includes a beautiful discussion about what a metaphysician truly is and what living our spirituality is all about. It also includes a “surprise” initiation from the Higher Self, with Lazaris there as a Spark of Light, in which the Higher Self bestows the sword, cup, wand and mirror (disk) that symbolize *the Gifts of the Metaphysician*. A fascinating sidebar on this tape is Lazaris’ discussion of judgmentalism and how we often fall into it by refusing the positive aspects of opinion, evaluation, discernment.

*Allowing the Fun**

Learning to have fun is one of two life focuses everyone has in every lifetime. Focused on success so much of the time, we often forget this second focus — and doing so can actually prevent us from moving forward. We find ourselves resistant to fun because our definitions are often those of our child and adolescent. But we also resist it because we keep falling back on a problem-ridden reality that gives us a sense of personal depth, albeit a false one. Lazaris shows us how to get our stalled growth moving again, and then outlines four meditations — which can be attached to other meditations: a light technique meditation to absorb our limitations, a meditation with the inner child and adolescent, a *Web of Fun Meditation* to release their concerns, and a *Gift of Fun Meditation* in which your Higher Self gives you a gift of fun each day for seven days.

*Awakening Your Brain**

Some imbalances of brain chemistry and mechanics are karmic choices made before birth, but the overwhelming majority are caused by traumas in early life that disrupt normal brain function. That causes some of our programming and processing to fail or never to manifest abundantly. The four meditations Lazaris suggests on this tape — which include *music, color, and touch techniques* — are aimed at repairing the damage that trauma, shame, and self-chosen karma have caused so that our “circuitry” performs as it should. It is a four-part process that affects manifestation, the processing of all emotions, our physical systems, and longevity itself. An immensely powerful tape.

Building & Achieving Destiny

Destiny is an absolutely unruly concept that comprises our complicated image, intricate identity, the many aspects of Self, and the Faces of the Soul. For Map Makers it is an integral element of the empowerment that will be necessary to effect the Dream. The power of destiny is almost incomprehensible: If you align with your destiny, everything in its path will manifest. The meditations Lazaris describes help us resolve the paradox of destiny and to receive gifts of destiny given by the Elements and to engage Unseen Friends to erode away the blockages that disable the force of destiny. Finally, Destiny appears and speaks, and together you gather what is needed to build and achieve destiny. Lazaris includes a *Destiny Blending Meditation* in which Lazaris’ and our energies synergize to build destiny.

*Building Your Personal Dream, I**

Part of the magnificence of this time is that reality is built far more on the “stuff of dreams” than on precedent. And the importance of having a dream is paramount: for the absence of precedence as a causation in the reality leaves a vacuum that must be filled by a dream. And it needs to be a personal dream that is not whimsy, not fantasy, not lofty beyond our capacity to achieve it, not done for outside validation, and not done as camouflage for our blockages or negative ego — but a dream that is the real thing: powerful, real, attainable, worthy of a spiritual journey. This process is a fascinating, detailed exploration of pondering our priorities and spirituality. Then we gather the materials of the dream and learn, perhaps for the first time, what we really want. Your Higher Self shows you the synergy of what you have gathered. And then you are ready for Part II.

*Building Your Personal Dream, II**

Requisite: *Building Your Personal Dream, I*

In Part I the foundation of the dream is subconsciously established. Now the task is to clarify the dream, planting it in the Unconscious Mind. You enter the Underworld — that sliver of consciousness between the Subconscious and Unconscious Minds — and there find a doorway to your Dream. There you live your dream in the Unconscious Mind in an episodic way, piece by piece. Included are *writing, music, and sleep techniques* to help bring the dream into the

current reality. Though Lazaris will not write back, you are invited to write your dream to Lazaris so he can participate with you in creating and manifesting it.

A Cherished Secret of Success: Resonance

The Law of Resonance says that when two sources of energy are vibrating at different frequencies, in time they will vibrate at the same frequency — for one will jump to the frequency of the other, or they will meet somewhere in the middle. The *Essence of Success* has its own resonance, its own frequency. If we can move to that frequency we can restart success that is stalled, dissolve limitations, and create and sustain whole new levels of success. Lazaris discusses success as access to physical, emotional, and spiritual resources, and does a marvelous meditation that lifts us into the Essence of Success.

*Choosing Your Own Lessons**

We make a lot of assumptions about the lessons we learn. We assume that they are meted out by God/Goddess/All That Is or some karma — rather than that they're chosen. We assume they mean we've done something wrong, and that being a better person requires more struggling and suffering. Lazaris begins by exploring how some of the lessons learned may look like our negativity when they're really distorted versions of our inventiveness, creativity, self-reliance, passions, courage, commitment, and compassion. A four-phase journey helps us dispel our taboos against learning positive, beautiful lessons and starts us on an exploration of what's right with us. That, in turn, leads us to the realization that sometimes lessons repeat themselves not because we didn't reveal the bad stuff, but because we never unveiled the beauty within them.

*Embracing, Inhaling Power**

In this tape Lazaris creates a four-fold process you do with music to explore the Positions of Power: flexibility and forgiveness, the true detachment of feeling emotions and processing them, vitality, humility and respect, honesty and value and self-esteem, self-actualization, and self-knowing, and love, intimacy, and caring. Power is always consciously developed, and using a music technique, Lazaris brings to consciousness the elements of true power, including the value of self which is a divine gift from the Goddess. We inhale our power, claim our inheritance, and begin to function from a *platform of power* that allows us to live a life filled with fun and the sparkle of true happiness.

*Empowering Your Imagination**

Suggested Requisite: *Enhancing Visualization*

There are only three tools with which we create our reality — desire, expectation, and imagination — and imagination is the most powerful of the three. To empower our imagination Lazaris gives us a four-fold process that is built of magazine pictures, a shoe box, seven treasure chests, and

a piece of music. A tableau of images and a series of meditative actions develop both your visualization and your imagination — and solve a problem of your choosing in the process. The results can be amazing: If you empower the tool that is already the most powerful, you have a really profound change in manifestation and success coming.

*Enhancing Visualization: Allowing Your Meditations To Come Alive**

A candle, a wedge of fruit ... When we use meditative and visualization techniques — with preset images designed ahead of time — we generally have the level of visualization we'll need to effect the manifestation we want. But when we enter free-form meditations of exploration, encounter the Unconscious or go to our Higher Self for answers, we need an enhanced level of visualization that engages a multi-dimensional sensing. Lazaris gives a four-phase process using a candle and a wedge of fruit and music to bring our visualization to a new level that can be relied upon in explorations with our Unseen Friends and in the episodic development of our personal dream.

*Feeling More of Lazaris' Love: Blending**

For anyone wanting a greater closeness with Lazaris, this is the tape for you. Lazaris talks about his love for us — his unique love for us personally, just as we are now, foibles and all. And he talks about the first Blending that he did with Peny. Lazaris uses a beautiful Blending with us over four weeks — first in our sleep and then consciously. Using music and an exercise for spontaneous writing (not the same as automatic writing) we explore receiving the gift of life from God/Goddess/All That Is. Lazaris culminates with a self-guided meditation where we find Lazaris and Blend with him.

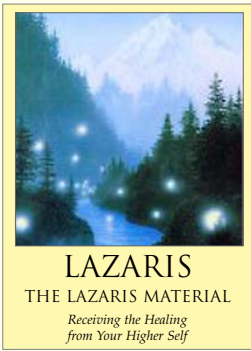

*Getting More Magic Out of Your Meditations**

When we are in meditation, we are sure, beyond the shadow of any doubt, that we can create magic — that we can create unlimited joy and success. Then we exit to a world with only bits of magic in it, for we have left most of the magic inside the meditation. The purpose of this tape is to make sure that when we exit the meditation, we bring much more magic out of it than we normally do. Lazaris works in four phases with a *Magical Fire Technique*, a *Bubbles of Light Technique* that employs intricate color work, and finally a Blending in which Lazaris makes subtle adjustments to help us allow more magic to get OUT of our meditations — and into our reality.

*Healing the Adolescent Within**

Requisite: *Healing the Child Within*

Once we have healed the Child, we are ready to heal the Adolescent — which can seem a daunting task. They are

Letting Yourself Be Loved: Allowing Lazaris' Love*

"We will never forsake you. We will never abandon you. We love you forever. We love you forever and a day. As long as there is light, we shall love you. As long as there is light ... " — Lazaris

Lazaris' resonance and love are always there for us, and in this cassette he takes us through a four-week process (take longer if you like) that includes a *Campfire Ritual* to release blockages, a *Beam of Light Blending* in which Lazaris wraps our heart in his love, and a music technique that helps us to feel. First we open to Lazaris' love, and then we are able to open to more love from all our Unseen Friends and from the people who are special friends as well. Lazaris tells a beautiful story of a friend's trip to China, a friend who in the midst of depression finds Lazaris music wafting out of the stand of an herbalist on the Great Wall of China. "For as long as there is light ... "

Loving Better, Loving More Deeply*

This is Lazaris' enchanting four-week process (take longer if you like) for loving better and more deeply. First we explore why we are afraid to love, using a micromeditation that involves a visualization of a corridor that goes to infinity. Then we uncover our core fear about loving; it will be humiliation, rejection, abandonment, or betrayal, and it will have left scars that interfere with our depth of feeling. In meditation, Lazaris wraps us in his light and takes us to the *Vat of Healing* where the scars of our core fear are taken away. Lazaris uses writing techniques, a fire ritual to release fears, and a meditation in which the love of God/Goddess/All That Is rains down on us. From an alchemy of disparate techniques arises a magical synergy that leaves us experiencing a greatly deepened capacity to love.

Loving Someone More*

Loving Someone More. It is one of the Mysteries of Empowerment — loving someone more than you love yourself, loving someone who is more than you are — not better than you, but in some aspect more than you are. First you must love yourself enough to be able to love someone more. Lazaris talks about the empowerment of this kind of love, and the normal fears we have that get in our way. But there are deeper fears — Soul fears — that also play a part. Lazaris helps us explore our fears and abandon our resistances and negativity, and then we embark on a four-phase journey that takes us through the sliver of crimson light into the Underworld and employs several self-guided meditations to increase our ability to love ourselves. A tape filled with power and the gift of gratitude, it also releases our power and willingness to love someone more.

The Magic of Solitude*

Solitude is a magical state. Far more than mere silence, it is a state necessary to hear the Voice of the Soul, which

more intricate, more rigid, in many ways more afraid. For adolescence is a time in life of unparalleled intensity — and of the devastating Wounding of the Soul. Lazaris has designed a four-week process (take longer if you like) that begins with creating a safe space for your adolescent. Then you and your Adolescent and your Higher Self look at the place to gain clues as to what safety really means to your Adolescent ... this time leaving behind a *Healing Box*. Over the next several weeks, the healing continues, and finally your Adolescent enters Lazaris' Ball of Light to be healed by your Higher Self and Lazaris. A beautiful process.

Lazaris also recommends: *Ending Shame III: Those Adolescent Years*

Healing the Child Within*

Here is a beautiful four-week process (take longer if you like) to truly heal the Inner Child. First you meet your Child in the place where the Child goes to hide when it's lonely, angry, or in pain. You meet your Child here daily to hear it speak, then to assure your Child that you will never leave — even when it's healed. And then the helpers begin to appear: the child's friends, your Counselors and your Higher Self, and Lazaris. And all begin to love and heal the Child. During the whole period there is a musical Blending with Lazaris that is used. The process culminates when the Child enters the Ball of Light which is Lazaris so that Lazaris can complete the Child's healing. A very, very beautiful experience for the Inner Child — and for us.

Lazaris also recommends: *Ending Shame I and II, Allowing Miraculous Success, Unlocking the Powers of the Magical Child*

Hearing the Music ... Allowing the Magic*

It is the Law of Resonance that assures us that in the end we will all return to God/Goddess/All That Is. It is one of the overlapping laws between the Higher and Lower Realms, and all growing consciousnesses adhere to it. On this tape, Lazaris works with the immense power of resonance in a magical way: Using music, he works in the area between ritual and technique on one end and the seduction of "perfection" to begin a cycle of lifting resonance from chaos to order, and then from there to a new order. He uses the dissonance and consonance of the music to create a shifting to ever-higher levels of resonance, reviving our programming and magic on the way.

speaks slowly and in metaphor. It is a state necessary for the High Magic of Receiving, and from within it come the Beautiful Truths that can transform our lives. Inside its quiet we do our Shadow Work and communicate with the Higher Realms. Lazaris' four-part process starts with an entrance/exit ritual with The Elements, and continues with an exploration to find and heal the chakra that provides the most resistance to solitude. Then the space is created for real solitude, and the magic of insight, healing, and communion begins.

*Mind Meld: Higher Self**

We walk with our Higher Self, talking in meditation — but what would happen if we could meld with them so completely that they could transfer to us their dreams, their optimism, their strength, their power, their depth? What we could do in that state and with that energy is absolutely limitless: a complete, total break with the past, total peace, an embracing of the capacity to receive, to forgive, to love, to be intimate, to be empowered — to be fully the Real Self. Lazaris employs a music technique, a seven-fold preparation to align us physically, emotionally, mentally, intuitively, electrically, magnetically, and etherically. And then we eavesdrop as Lazaris and our Higher Self, with great love and poignancy, talk (not gossip!) about us and our growth. Then there are four gifts we exchange with our Higher Self. Finally, we meld with our Higher Self, linking chakras. They transfer everything to us. An incredible experience.

*The Power & Beauty of Self-Acceptance**

We know that our Higher Self, our Counselors, God/Goddess/All That Is, and Lazaris love us totally and are completely committed to us forever. But very often we are unable to let the love in — and our resistance is in direct proportion to how much we lack self-acceptance. Remorse at our own negative impact — and the self-forgiveness and release that accompany that remorse — should have been a natural part of our development. We should have had a Foundation of Remorse grounded in the truth that we can make mistakes and be forgiven, that we have the substance to build real character. This four-phase process, with its immense compassion and powerful tools, gives us back the power of true remorse, releasing us from the martyrhood, defensiveness, and self-pity which rob us of the love we want and the love we feel.

*Receiving Clearer, More Helpful Answers in Meditation**

Part of the bringing more magic from the meditative state into the physical illusion is empowering the meditative state itself so that the answers we receive there are ones we can trust — answers not contaminated with the negative residues lodged in our brain and in our heart — answers vibrant with a clarity that is a gift from our Higher Self. Lazaris' beautiful overview of the attainment of new clarity

is followed by four meditations that flush the brain and empty the heart of negativity, that engage the beauty of the ocean to wash away blockages, and oneness with your Higher Self to increase clarity and to use that new clarity in visualizations for greater success.

*Receiving the Healing from Your Higher Self**

If you've found yourself wanting to listen to this tape, you can be sure that your Higher Self has a gift of healing for you right now. Allowing the Higher Self to give us gifts of healing is a way to move toward greater and greater self-love — which is in itself the solution for so much. If we loved ourselves completely, we would love others, and we *would* create a positive future. This four-phase process is an engaging and fascinating one. Lazaris helps us look at a host of potential obstacles on the way to more self-love: control, the elements of the Dark Shield, fear of trusting, happiness, love, intimacy. Then he presents us with a ball made of layers of brown moss, shell, mud, twine, and even a sticky tar — a ball we unwind to be free of our blockages. Our Higher Self then heals us in a *Chrysalis of Love*.

Renewing Chakras

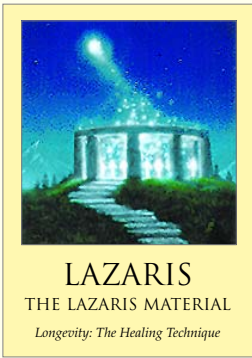

In Weekends and Intensives, Lazaris does a meditation to tune, tone, and recharge our chakras. It has a powerful effect on our health, our energy, and our spiritual renewal. This tape is designed to function the same way between those times when we can be with Lazaris in person. Lazaris talks about auric and etheric fields, and about the 12 chakras and their function as vortexes or doorways of energy. The Meditation/Blending combines color and light visualization to powerfully renew and shift the resonance of all 12 chakras.

Sharpening Tools:

*Discovering/Awakening Desires**

Though imagination is the greatest of the tools of reality creation, your desire is the real workhorse: For without desire, imagination decays into fantasy and then into disillusionment and there is really nothing on which expectation can operate. To sharpen the tools of reality creation, it is necessary to discover and awaken all kinds of desires. This tape contains a delightful writing process for discovering desires — whether they are something you do alone, something that may have financial value, even whether they're risky! When this is done, there are meditations involving leaves that you eat, elixirs you drink, and micro-meditations that awaken all kinds of desires. It is a scintillating, invigorating process that fills the cup of desires to the brim.

Breaking & Replacing Our Dark Shield of Negativity

The Dark Shield: We began constructing it before we could even talk. We built it of shame, undeservability, guilt, addiction, a sabotaging of power, and a denial of love. We built it to protect us from pain, and it did what it was supposed to do. But it did something else: It solidified into a prison which locked out love and now it locks us out of the happiness and success we currently seek. Success starts with dissolving the shield, but that also leaves us unprotected. If we replace the Dark Shield with a *Shield of Light*, we can allow the negative aspects to be healed while maintaining the protection we need. The meditation takes us on a journey to break the Dark Shield — and to immediately replace it with a Shield of Light composed of a capacity for an honest remorse that allows for forgiveness and growth, and a love to heal the denial. A magnificent experience of healing, a whole new level of personal freedom.

Building the Dream Your Higher Self Has for You

As you become more successful at creating and manifesting dreams and visions, there is a by-product to the success: It opens the door to the dreams your Higher Self has for you. With this tape Lazaris first explores the seven types of dreams, and the importance of dreaming to our brain development and to our immune system, and to revitalizing our tools and raw materials. But dreaming also is important because through dreams our Higher Self makes itself known — and reveals its own supremely positive dream for us. With a beautiful meditation and a powerful seven-step process, the Higher Self's dream for us begins to reveal itself in gestalts, intuitions, and night dreams in an ever-unfolding relationship of love and celebration.

Chakra Link: You and Your Higher Self

In any relationship of love, there is always fear of loss. And its cure is an intimacy that can allow love to wax and wane, ebb and flow — without the fear that its fluctuations mean that it is no longer there. This tape is about developing an intimacy with your Higher Self that alleviates the fear of loss and allows us a closeness through which we can see ourselves through our Higher Self's own eyes. Lazaris pre-

pares us with a poignant discussion of love, intimacy, paradox, and the fear of love's loss, and then guides us on a meditation in which we link chakras with our Higher Self. Then in an instant we switch places, looking out through our Higher Self's eyes to see ourselves as they see us. A beautifully healing and deeply loving experience.

The Crisis Tape

They may be of our making — out of martyr or ego — or they may have other sources. Either way they can represent spiritual challenges. In earlier times, people recognized a spiritual crisis as an opportunity for transcendent growth and powerful healing. But now crises are points of shame and embarrassment — and the esoteric process of crisis and liberation is unknown to most of us. In this invaluable tape Lazaris first heals; the Crisis meditation/ blending is one of the most beautiful, liberating, and healing meditations ever. Once we are in a less fearful place, Lazaris explains the building of the crisis, its bursting into reality, and its dreaded "vacuous space" — that still, unmoving space within a crisis that seems to last forever. Lazaris helps us break up the vacuous space and move forward, gives us a ritual to end the crisis and bring it to resolution, and some invaluable suggestions for heading off crises in the future. A heartening, encouraging message for the most trying of times. For as Lazaris says, we did not come this far to have it all fall apart now.

Discovering Our Personal Strengths & Unique Powers

Our personal strengths and unique powers are critical to being able to lay down the Dark Shield, break the Dark Law, and escape our Personal Tragic Myth. For all three depend on our being able to construct a Shield of Light. Since our strengths and powers are integral elements of the Shield of Light, we need to know them and have them be functioning powers in our day-to-day lives. Lazaris first helps us understand the *Dark Shield*, the *Dark Law*, and the *Wounding of the Soul* that spawn the *Personal Tragic Myth*. We then create a formula of our strengths and powers, and solidify them with several techniques, including *Disk and Cone Techniques* and a *Symbolic Garment Technique* that allows us to don specific strengths or powers at will.

Discover the Dreamer from Lemuria

This tape is a journey to Lemuria — the fabled land that lies beyond the Bridge of Belief, and which is as real today as it was 90,000 years ago. Lazaris begins by describing the shimmering Continent in the Mist — its woodlands, its jagged mountains, its overwhelming fjords ... its mystical central plain where Crystal Cities towered above the forest floor. Lazaris talks about the beauty of Lemurian spiritual life — and about the Dreamers whose task it was to dream into reality the dreams of others. In the meditation, Lazaris takes you to meet the Dreamer from Lemuria — as alive now as ever, as powerful and beautiful now as ever — and the Dreamer dreams a dream for you to help you create what you want. An extraordinary tape that evokes an incredible sense of personal knowing about Lemuria, the Land That Imagination Forgot.

Embracing Your Higher Self: Receiving the Love

Lazaris has often said that the lifetime in which your Higher Self becomes real for you is the lifetime in which you go Home. This beautiful tape is about letting your Higher Self be more real for you than it's ever been before. Lazaris helps us confront our egocentricity, our fears of power, and of responsibility, and of being hurt, and the consensus reality's misconceived and limited definition of the Higher Self as being just a technique for us to use. Then he gives us a beautiful meditation to help sharpen our senses so that our Higher Self is more vibrantly real in our own meditations — and to help us receive the love our Higher Self is always sending us. Four powerful techniques — including the *Love Box Technique* — help us clear our negative agendas, set up a resonance and a safe space for interacting with our Higher Self, and create more frequent, deeper, and more loving contact with our Higher Self.

The Evening Tape

A powerful, resonance-building tape which contains four separate meditations — which you'll use in a specific formula over a week's time. Lazaris, the Goddess, and your Higher Self all work to effect emotional growth, resonance, brain development, success, and any form of healing you want — and to help fill the subconscious and unconscious mind with thoughts which help to create more success and beneficial realities. They are relaxing, soothing evening meditations which are also incredibly magical — and incredibly beautiful in the love emanating from Lazaris and our Unseen Friends.

Also recommended is its complement: *The Morning Tape*

Finding Your Bottom Line

There are four areas that stop success — beliefs and image, blockages, contracts and scripts, and chemistry and mechanics. But what weaves these four into an inescapable web is our bottom line. It will be one of seven qualities: need to control, fear of loneliness, fear of intimacy, shame, martyrhood, narcissism, or pride. The first step is to find out

which is ours personally and the second is to release it. Lazaris helps us slip around our negative ego to discover the truth — and then immediately gives us a meditation to encounter our bottom line honestly and fearlessly, and to let it go. The result can be those mega-successes we've thought were completely out of reach.

Finding Your Own Peace

Lazaris gently explores the magical healing quality of peace in this remarkable tape. He begins by showing us how to create a time and a meditative place for peace. And he shows us how to create an inner space of tranquility — a space that enchants and engages the Soul and the magic and miracles that wait patiently in the recesses of silence and peace — a space where we can be bathed in the ever-present embrace of the Goddess. He also explains how the healing quality of silence allows us to heal more of the pain in the world as well as in ourselves. Then in a beautiful meditation Lazaris holds our heart in his light, absorbing the anger, depression, pain, shame, and despair.

Freedom from Karma

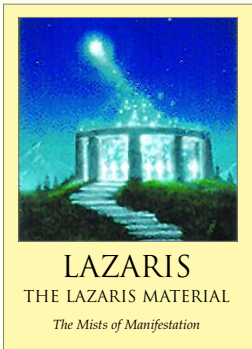

There are no Karma Lords who inflict our karma on us. We choose our own for good reasons — or for reasons that are not so good. Karma is like a backdrop behind all our lifetimes — holding treasures that allow us a glimpse of ourselves as greater than the lifetimes we live, but which can also stagnate our growth, impede change, and cause us to hang onto judgments, admonishment, discipline, and root emotions long after they are appropriate or even effective. Freedom from karma may involve giving the *Gift of Death to a past life* and *receiving the Gift of Life* in return, and it may involve journeys down the *River of Time* to events in this lifetime or another. Lazaris and your Higher Self are there to help in a magnificent meditation to contact past lives — and Lazaris outlines a three-phase process for evaluating the aspects of karma, for healing past lives, and for breaking through into a freedom unknown in any other lifetime.

Freedom from the Past

Mystics tell us to “die” to the past. Therapists insist we must let go of the past. But we hang on — for reasons good and bad. We know we hold onto the past to hold onto some payoffs, but what is not always so clear is that we may be stuck in the past because there are treasures, talents, gifts, and powers waiting to be claimed — there is self-acceptance and self-forgiveness yet to be done. Once the treasures of the past are retrieved, the release of the past can be accomplished with *The Power of Sympathetic Magic*, *the Power of Positive Projection*, *the Power of Resonance*, and *the Power of High Magic*. With a profound meditation to release the past.

Turn up your light. For even if you don't know where you are going, it will be brighter once you get there.

Accelerated Journey Series

Longevity: The Healing Technique

A magnificent technique from the weekend *Secrets of Longevity, Clues to Immortality, Part II*, this meditation can be used for healing of every sort. The chakra-oriented meditation uses color and direct visualization to concentrate healing energy in the places and ways desired. It can also help alleviate the conditions that result from what Lazaris calls “*Subconscious Reflexes*” — emotions such as self-pity and self-hatred spilling out of the Subconscious — and *time bombs from the Unconscious* that seem to go off without warning. Lazaris talks about how to use the energy for specific physical maladies, for mental disturbances in the form of errant, self-destructive or hurtful thoughts, or emotionally debilitating guilt, resentment, or shame. It is an invaluable asset for healing on every level.

The Magic of Our Spiritual Ancestry

Spiritual Ancestry begins within the stars themselves (Sirius or the Pleiades), wends its way through the mystique of Lemuria and the majesty of Atlantis, and then is deposited in the personal heritage we have chosen. These four components create a fusion of tremendous importance. On this tape Lazaris shows us how to explore our Spiritual Heritage — how to discover a lifetime where we came very close to Going Home and yet turned away. In that lifetime is a great clue, for the reasons we turned away then are the reasons we turn away now. But also, locked within the mystery of Spiritual Ancestry are great treasures of strength and talent and pieces of dreams and destinies to be reawakened — perhaps even a magical tradition once loved and to be explored again. With a breathtaking meditation.

The Mists of Manifestation

Three of the most powerful manifesting techniques ever are described on this tape: the 33-Second Technique, the Sphere of Light Technique, and the Mists of Manifestation Technique. Lazaris begins with a discussion of the crucial energy of expectation and its effect on manifestation, and of the power and importance of the Generating and Sustaining Energies in creating reality. Then he presents the processes for the 33-Second Technique and the Sphere of Light Technique, and culminates with a description and guided meditation of *The Mists of Manifestation*.

A More Powerful Causal Plane

The Causal Plane: the state of resonance at which causes and effects are linked together before manifestation. It is almost axiomatic that if you can program from the Causal Plane, your manifestation is halfway home already. On this tape, Lazaris creates for us an intriguing understanding of the structure of the Physical Realm (the Physical, Astral, Causal, and Mental Planes) and what the Causal Plane holds for us. Then he describes the Causal Plane process for manifestation: how to work with the infinity symbol and its eight steps to manifestation. The meditation itself is a succinct visualization for reaching the Causal Plane.

The Goddess: Beginning To Receive Her

The gifts of the Goddess begin with Her very presence. Our blindness comes from a feeling of worthlessness and undeservability that permeates our attempts to grow closer to the Goddess. And our attempts are greatly complicated by a chauvinism that is devastating to both women and men and leaves us feeling as if we are no more than human capital. Lazaris draws a picture of what an attitude free of chauvinism would look like: imagination and creativity standing next to logic and reason, and spirituality and chaos are valued as much as system and order. From this new balance, elevated above the either/or mentality of chauvinism, we can begin to receive the Goddess. With a beautiful meditation that heals our unworthiness and chauvinism and begins to open us up to the Presence of the Goddess.

High Magic: The Ritual of Receiving

An intricate and enchanting dance to receive the energy of receiving itself — to magically create the resonance of receiving. The seven-step *Resonance of Receiving Meditation* begins with unearthing and releasing our fears around receiving, making a magical paper and creating a magical sigil, engaging an animal spirit, and finding something of which to make an offering. Then we make a bundle, engage our four upper chakras, and culminate with a meditation to open us to receiving. It is a fascinating, engrossing ritual done over several days, and the meditation leaves us with a whole new concept of what receiving is and can be.

Initiations of Magic

It is a small, quiet, gentle step from knowing metaphysics to truly being a Magician. It begins with a seven-day process in which each day you accept and then receive one of the responsibilities of being a Magician: the acceptance of the ability to live without the Dark Shield, the passion and compassion to have empathy without pity, the flexibility to transform any reality, the capacity to seek freedom and self-determination, the ability to create light and hope and vision, the understanding that spirituality is the highest priority of life. Then, on the seventh day, Lazaris guides you on a meditation in which your Unseen Friends create an Initiation of Magic for you.

The Morning Tape

Like *The Evening Tape* (its complement), this tape contains four separate meditations used in a specific formula over a week's time. Some mornings there will be a chakra/color meditation to lift resonance, and on other mornings Lazaris guides 33-Second Techniques for programming or specific meditations for healing. The blending/meditation on Day Seven is an extraordinarily beautiful experience that deepens our experience of our Higher Self, The Goddess, and Lazaris — and that gives us a glimpse of the vastness of our own path. A terrific tape that is indispensable for resonance-building.

Its companion: *The Evening Tape*

Opening the Magic Door

This deceptively simple meditation from the seminar *Inner Knowing / Outer Success: The New Magic* uses color, aroma, and the powerful presences of maiden, man, woman, and androgyne to open us to a magical new level of visualization and imagination. It can stand alone or be used as a preface to Causal Plane meditations, any belief or imaging technique, Underworld Meditations, and manifestation techniques. Lazaris also talks about its use with creating the Magical Place for the Magical Child and how to use it before you sleep to enhance dreams. It heightens emotional experience in meditation, enhances the clarity of answers and insights you have with your Higher Self, and can stunningly augment successes in the physical world. An easily memorized, invaluable meditative tool and a truly hauntingly beautiful experience.

Preparing for Achievement

This tape, made during *The Year of Achievement*, is a way to augment your capacity for achievement and accelerate its manifestation. Lazaris discusses the *Seven Energies of Achievement* which begin with optimism, strength, power, and depth. He traces the importance of releasing the past and of making sure that the motivation for achievement does not lie in some desire for vindication of past mistakes and that causes do not lie in the past. As the process continues, you release blame, martyrhood, self-pity, and control, and allow in the resonance of the Real Self, the Self whose destiny it is to make a difference, the Self that is a Map Maker. Lazaris includes two meditations — the *Cone of Power Meditation* and a “conditioning meditation” to engage the power and energy of achievement.

Releasing Your Dreams & Visions into the World

Lazaris uses the Four Elements — Air, Water, Earth, and Fire — and combines them with the Four Forces — Gravity, Electromagnetism, Strong Force, and Weak Force — as a means to release our dreams and visions into the world. Beginning with mapping dreams in the Subconscious, and then solidifying them in the Unconscious, they are then

brought to the Conscious arena in a masterful way. Lazaris, with his artistry, provides a Blending to be done four times — one in which you discover your own personal element from hints given by body type, personality type, or astrological sign. Once prepared, we're ready for the meditation in which we attach a dream or vision to each of the Elements, which then release it into the world.

Stop Negativity in Its Tracks

There are several different types of crises: physical ones dealing with survival and security, emotional ones dealing with belonging and esteem, mental crises dealing with creativity and productivity — and spiritual crises that deal with personal expansion, with image and identity, or with eruptions from the Unconscious Mind. Whichever, crises always seem to make us feel changes are happening too fast, and that our inner state is so demanding we cannot cope. Lazaris' exploration of the nature of crisis is, in itself, a tremendous help at times like this, and the meditation — a *Banishing Ritual* from the *Alchemy of Adversity* weekend seminar — helps us literally stop the negativity in its tracks, bringing us back into dominion over the crisis itself.

Unlocking Your Unconscious

Jung said that all neuroses, psychoses, and personality disorders result from the unexplored Unconscious, but also the secrets of our Soul's Path and of finding our Way Home lie within its realms. Within the Unconscious, there is a sliver of resonance in which the Unconscious becomes Conscious before it manifests. That sliver of resonance is the Underworld. Lazaris dispels the false myths about the Unconscious and the Underworld which come from psychology and psychiatry and illuminates the power of the Unconscious in self-transformation and manifestation. Then he culminates with a stunning meditation where Lazaris and your Higher Self help you enter the Underworld, find the Ribbon of Road, and embark upon the Soul's journey to become the Exceptional One you are destined to be.

Utilizing the Power of Solstice & Equinox Energy

Times of magic honored in Sumeria, Egypt, Atlantis, and Lemuria, the equinox and solstice periods (28 days a year) mark the beginnings and endings of cycles of growth and manifestation. In this tape Lazaris shows us how to use this mystical energy consciously to augment ongoing programmings, to initiate new desires and expectations, and to declare at an end the darker aspects of self — the righteousness, martyrhood, self-pity, domination or manipulation we want to release. This holds as well for patterns of behavior, whether they be physical, emotional, mental, or spiritual. A time of release, a time of initiation, a time for celebration. Lazaris outlines a seven-day, seven-step process that includes a *Candle and Water Technique* and a glorious meditation. A tape to use 28 days a year, every year.

The Red Label Series

The Red Label Series is a very special series of meditation tapes from Lazaris. Each title contains two tapes which work together, and for each Lazaris gives a days-on/days-off formula for listening which follows the pattern with which the subconscious works most effectively in creating change. Although they are not subliminal tapes, many may be used at night while you're asleep. *Each title is \$29.95 and has two 30-minute meditations.*

Handling Depression / Handling Loneliness

Depression is a very tough issue to handle for many people, because both its causes and its healing are so often misunderstood. Lazaris' description of the pain of depression and the hopelessness that often surrounds it is filled with compassion. He also explains what depression really is: layers of gauze-like anger that's never been expressed and has gained enough weight over time literally to hold us down. And, in doing so, it disconnects us from our Unseen Friends and those around us, leading to what can be a terrible loneliness. Lazaris' meditations on this tape have been described by many as the most liberating material available on depression, and they really work.

Happiness / Peace

These beautiful meditations help us repattern our Subconscious Mind to create realities that are filled with more and more happiness and peace — and they help us to allow in the happiness and peace that surround us now. These two tapes also are ones that can be interspersed between other Red Label Series tapes. For example: Self-Confidence/Self-Awareness ~ Happiness ~ High Energy/Enthusiasm ~ Peace ~ Personal Power/Power & Dominion, etc. Enjoy! These are elixirs of Happiness and Peace.

High Energy / Enthusiasm

High Energy is a transforming element of life. Physically we feel better all the time, and everything is easier to do. It adds brightness to our programming and aliveness to our process, our work, and our relationships. Enthusiasm spreads light around everything, sparks our desires and curiosity, and brightens imagination. These two tapes bring these energies to the edge of joy, reworking our subconscious habits to allow for vastly more of these two invaluable and delightful aspects.

Improved Health / Balance & Harmony

Sometimes despite our best efforts we have health problems, we get out of balance, and we lose the sense of harmony that gives us so much security. Lazaris suggests beginning with the Balance & Harmony tape to make sure the Subconscious Mind gets the message about where you're intending to go. And then use Improved Health —

which can be used when you're asleep and which can bring about a whole new level of health. These can be used with any other of the Lazaris tapes on healing and health.

Integrity / Honesty

These tapes are designed for much more than correcting character flaws about honesty and integrity — though they will do that for sure. They are about deeper levels of honesty with self and those who can be trusted with our vulnerability. And they are about the courage for the spontaneity that is required for true integrity. Whatever the source of our resistances to them, more integrity and deeper levels of honesty create a profoundly beautiful character in us that makes for a far more solid and secure pathway for our Spiritual Journey Home.

Monetary Success / Personal Success

These tapes are a straightforward repatterning of our Subconscious Mind on the subjects of allowing more money into our realities and for allowing greater levels of personal success. The guided meditations employ both affirmations and marvelous visual imagery to awaken new levels. Lazaris warns about the problem of guilt in relationship to creating greater financial success, and recommends using the tape called *Ending Guilt* as well if you feel that it is an operative factor in creating financial distress.

Personal Power / Power & Dominion

We are always growing, and each time we do, we need to be increasing our personal power. But we also need to be sure we are operating in the World of Dominion that allows for a true, vital spirituality — rather than the World of Domination that robs us of our Spiritual Journey Home. This set of tapes accomplishes both at the same time, increasing both power and dominion in balance with one another. This is an empowering set of tapes that is exhilarating in its experience of sheer positive power.

Productivity / Impeccability

If you have a power object that you like, you may want to use it with these meditations. If you don't, you can create one in meditation during the process. These are wonderful

tapes for raising productivity, and for gaining the ability to be very impeccable in any area of life — which increases productivity even more. There is no area of success that isn't touched by a strong Subconscious Mind's support of productivity and impeccability, and the results will be apparent everywhere. Use whenever productivity seems low, or when you want to change levels of what you can do.

Reduced Sleep / Improved Sleep

These are liberating tapes for people who sleep longer than they want to and still don't feel rested. One tape improves the quality of sleep, and the other, over time, literally reduces the amount of sleep you need. The physical and emotional benefits are many, not the least of which are more energy and more time spent being conscious. These work well in conjunction with any other tapes that involve night dreams — and in conjunction with *The Evening Tape*. Once you've listened to them consciously, you can play these tapes as you drift off to sleep at night.

Reducing Fear & Worry / Reducing Stress

Sometimes we can get bound up in cycles where we are afraid and worried all the time and when the level of stress seems unbearable. The two tapes work as a pair to reduce the fear, worry, and stress that are there — and they continue to work to reprogram our Subconscious Mind in a way that has us creating fewer and fewer of the situations that create these exhausting emotions. Lazaris helps us design a mental symbol that we can use daily to reduce stress whenever it occurs. Wonderful used during sleep.

Self-Confidence / Self-Awareness

Lazaris has us begin this set by using the Self-Confidence meditation. Then, when we get to the Self-Awareness meditation, we are mentally prepared in such a way that the Self-Awareness "program" is set in our Subconscious Mind — reinforcing the Self-Confidence programming we did in the beginning. The result is greatly reduced anxiety that comes from real Self-Confidence, and a relaxed, self-accepting kind of Self-Awareness.

Self-Love / Love

Lazaris has often said that no matter what it is that we are doing, the bottom line is that we are always seeking love. Two sides of the same coin, loving self and loving others is the ultimate goal of our lives. These two tapes help us repattern our powerful Subconscious Mind and orient it towards allowing ever-more-powerful levels of Self-Love — and an ever-greater capacity for loving others. Increased love always ripples through every other area of our lives, affecting our feelings for ourselves, our relationships with others, our love and tenderness for God/Goddess/All That Is.

Lazaris Discussions

The tapes in this series range from the magic of discovering the Goddess to tapes to heal blocked emotions and jump beyond the threshold of our current reality into the brilliance of the unknown. It also includes Lazaris' beautiful and compassionate tapes for those with AIDS and for Vietnam Veterans.

These audiotapes have varying lengths/costs.

Those without meditations have a star next to the title. See individual titles for costs.

AIDS: A Compassionate Exploration

Lazaris begins this marvelous tape by completely dispelling the ignorance and bigotry that have surrounded the disease — the misconceptions that AIDS is a gay disease or that it is God's punishment for sexual orientation or behavior. Rather, he looks at the four messages of AIDS — that range from an attachment to the past and a sense of defenselessness that leads to defensiveness, to the desire to know who loves us.

And he looks at the meanings: learning to release anger and hurt, learning more about love, and learning to create a beneficial *Image of Success*. In the meditation, the Old Man, the Elements, and Lazaris wash away the limitations and infuse the immune system with new strength. It is a tape and a meditation that is a wonderful ally for those suffering from the disease — but it is also a tape for everyone as the understanding of AIDS is a concern for all of us. ... \$9.95

AIDS: Lazaris Talks with Louise L. Hay's Group

This tape is a recording of a meeting at The Hay House in Santa Monica where Lazaris worked with AIDS patients and their friends and caregivers who are part of Louise L. Hay's group. It is an incredibly inspiring experience in which Lazaris connects with tremendous compassion and the group responds with its unique and powerful courage and joy. Lazaris talks about the pain of humiliation and rejection those there have experienced, and about the depression and guilt that have resulted.

But one of the main focuses is the issue of deservability and how to work with it — by changing beliefs with the Room of Beliefs Meditation, by lifting depression with the Depression Meditation, and by becoming truly detached from the past. Lazaris includes a meditation for *Lifting the Burden of Deservability* that is a powerfully liberating experience. This wonderful tape is for anyone who has AIDS — and a gift of understanding, spirit, and inspiration for everyone else. ... \$19.95

Beyond the Threshold / Editing the Film

Beyond the Threshold: This tape is recommended by Lazaris for maximizing the download of the Information Light from the Opening of the Sirius Vortex on April 23,

1994. It is a tremendously wonderful experience of moving completely outside all the boundaries we normally experience to see what waits for us there. A remarkable experience that also prepares the brain for greater access to the new program.

Editing the Film: This is a tape for restructuring the past by editing out of it negative events that no longer serve any purpose. There are treasures of understanding and transcendence to be taken from the past, but once the knowledge is gained, the event itself — along with the scars it left behind — can be eliminated. A wonderful meditation (which is also fun) of acting as film editor to clip out what you're done with. ... \$19.95

Cleaning Chakras / Pituitary-Pineal Meditation

Cleaning Chakras Meditation: A meditation to cleanse and revitalize the seven chakras and bring them into complete balance and full health — and to "ground to the cosmos" each of the chakras with a beam of light that intersects all seven. A powerful meditation to use frequently for the better functioning of the body and more powerful programming since the chakras are the "projectors" of our holographic reality.

Pituitary-Pineal Meditation: This is one which Lazaris recommends for helping us access the Information Light program that was "downloaded" during the Opening of the Sirius Vortex on April 23, 1994. It works with the upper two chakras — the ones most connected to our spirituality and higher metaphysical skills — to awaken and strengthen them for our spiritual work. Extraordinarily powerful, it is a meditation to use over and over again. ... \$19.95

Handling Menstruation

For so long, women have suffered an immeasurable amount of both physical and emotional pain, and virtually nothing has been done to correct an intolerable problem. In response, Lazaris created this two-part set. Part I is used in meditation during the weeks between periods to align energy. It is used twice a week, but many women listen to it more often because the meditation is so beautiful. Part 2 is used once a period has begun, and not only alleviates pain

but also carries a special joy in its connection with the Goddess energy. Both parts contain Trigger Mechanisms that allow us to access the power of the meditations 24 hours a day. ... \$29.95

Healing & Releasing Hurt / The Keys of Happiness

Healing & Releasing Hurt: Hurt is the only emotion that takes time to heal, and it is also unique to the human level. On this tape Lazaris looks at the denial of hurt that is demanded by chauvinism, the society, and sometimes even metaphysics — and the payoffs we may have for holding onto it. He gives a seven-step process for working with it and culminates with a beautiful *River Meditation for Healing Hurt*.

The Keys of Happiness: Happiness is not so much a feeling as it is a state of mind, an attitude, and a chosen view of the world. It has seven beautiful components — responsibility, honesty, trust, intimacy, choice, forgiveness and self-love, and an ability to change and function with a new image (10 minutes at a time). The *Meadow Meditation for the Keys of Happiness* brings us its components and powers and gives us an experience of happiness we truly may never have had before. ... \$29.95

*Lazaris Talks with Vietnam Veterans**

Several years ago a Vietnam Veteran in Silverdale, Washington, let a bookstore owner there know that there was a group of Veterans working with Lazaris tapes to try to overcome the post traumatic stress syndrome and nightmares that plagued them. Lazaris' response was to go to Silverdale and meet with the Veterans personally, and this is the tape of that meeting. Lazaris works with the reasons why the stress of the War has not subsided for many, works with specific nightmare examples from the group's personal experience, and explains how to create a dream to replace the nightmare. This tape was synopsised by Body, Mind & Spirit Magazine and has been used by Veterans groups and VA Hospitals all over the country. It offers a wealth of tools — and a sweeping overview of Veterans' experiences and a compassion for them that is unmatched. *This tape can work well for anyone with post traumatic stress syndrome or recurring nightmares of traumatic events.* ... \$9.95

On Releasing Anger / On Releasing Self-Pity

On Releasing Anger: A powerful processing tape that begins with an explanation of how we try to process anger negatively — through illness, guilt, depression, self-blame, and self-punishment. Lazaris explores the reasons why we suppressed anger in the first place — by trying to fit into masculine and feminine molds and by gravitating towards false notions of power and aliveness as domination. He also explores the misunderstandings of detachment that have come from religion and metaphysics. He includes tools for

working with the child and adolescent and for spending pent-up angers. These include "Hate Letters" (which are not mailed), a seven-step process for handling any anger, and a Releasing Anger Meditation.

On Releasing Self-Pity: All problems are a manifestation of self-pity, whether they are generated from victimhood, martyrhood, struggle, ego pampering, or silent competition. A function of societal mores, sexual role packages, or fear of responsibility, self-pity is probably the single most destructive emotional habit we can have. Lazaris gives techniques for working with the child and adolescent, a "Time Lapse" approach for feeling and dropping self-pity, a "Victim / Winner List" for clarity, and a powerful meditation for releasing self-pity. ... \$29.95

On Releasing Guilt / On Receiving Love

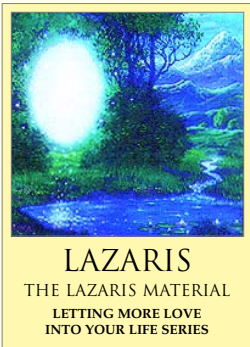

On Releasing Guilt: Guilt is an artificial emotion — an emotion as synthetic as polyester or junk food. And because it isn't real, it has no positive aspect. Essentially, it is anger that is suppressed because we feel we have no right to feel it, yet it degenerates into an attempt to punish ourselves or others — or into an attempt at self-control which would be better handled by natural conscience. If it is present, it crosses every barrier and contaminates every aspect of life. Lazaris uses a seven-step process for understanding guilt that unfolds into a meditation to release it.

On Receiving Love: Of all the voices competing for attention in our heads, the one that wants the love is often the one least heard. Our entanglements with the obligation, guilt, and strings so often attached to the love we've known block our way, as does a sense of undeservability around both love and receiving. Blockages and payoffs themselves often rob us of the love we want. Lazaris deals with all these issues in an ambiance that always supports our deserving love, and gives us techniques, a seven-step process, and a shimmering meditation to receive love. ... \$29.95

The Synergy of Trust

Trust is a deliberate and delicate balance between hope, belief, and reliance. Lazaris explores the fascinating alchemy of these three mysterious ingredients. Out of it all, we can know how to trust ourselves . . . amazing. We can heal the lack of self-trust that comes from low hope and negative beliefs. He also talks about how to know if we are dealing with a real trust issue — or just dealing with risk. This tape is filled beautifully with hope, belief, and reliance. With an empowering Synergy of Trust Meditation. ... \$14.95

Letting More Love into Your Life

These are magnificent meditations and techniques from Lazaris One-Day seminars, Weekends, and Intensives. They have different lengths and prices which are listed at the end of their descriptions. They are among the most powerful meditations and tools ever put on tape.

Two Magical Manifestation Techniques

The Double-Tetrahedron Technique / Meditation

The *Triangle of Divinity* and the *Triangle of Humanity* merge. In balance, they form a six-pointed star. In extension, they form a teleportation machine: the double-tetrahedron. Lazaris begins this tape with a fascinating discussion of multi-dimensional beings who use the double-tetrahedron to warp space and time and of the Lemurians who teleported from the forest floor to the towering Crystal Cities. This tape teaches a spiritual form of teleportation in which we enter the double-tetrahedron in meditation, carrying with us baggage we have processed and now want to discard — martyrhood, ego, self-pity, our bottom line. As the geometric spins and rotates it disintegrates, and we can release all the negativity we want. Then we rematerialize free of our encumbrances and find our way back to the arms of our Higher Self. This meditation is from the *Sirius Connection* and *Ultraconsciousness* seminars. (60 minutes) ... \$14.95

The Tonal Creation & Manifestation Technique

The most powerful manifestation tool Lazaris has given us so far, the Tonal Creation & Manifestation Technique (TCM) is as much about receiving as it is about creating. When we ask the Goddess for help in creating and manifesting, the Goddess always says yes. The problem is in our receiving — in the noise created by blockages and entanglements that interferes not with having gifts but with the reception of them. In this meditation we create three tones which then are lifted to a frequency higher than our range of hearing. There this “*Cosmic Chord*” creates a fourth tone that we cannot even imagine. On this tone the programming is sent — sent in a way that allows for far greater receiving on our part. The results can be astounding. We can truly amaze ourselves with what we can create. (60 minutes) ... \$14.95

Three Techniques for Working with the Future

The Radiance of Resonance Meditation

The power of raising resonance is so important that variations of this meditation have appeared in many Lazaris intensives and weekends. Lazaris begins with *Luminous Intent* — the intent to be loved and loving that lies behind our best actions — and behind the most disappointing of our behaviors. Then he speaks of the *Law of Resonance*. The meditation which follows leads through a stunning valley to a lovely place where three disks, laid out in a triangle, create a new, higher resonance that lifts us to new levels. We glow with the resonance of love itself, banishing martyrhood and negativity. With a magnificent meditation which grows stronger each time we do it. (60 minutes) ... \$9.95

Weeding Negative Futures & Seeding Positive Futures

The future has always created the present against the backdrop of the past. And between the future and the present, there is a pipeline filled with futures on their way to being manifest in our reality. Some are good; some we would like to avoid. The meditations on this tape take you into the *Pipeline of Futures* where you can safely encounter — and weed out — the futures that you don’t want to experience. Then there is the powerful opportunity to “seed” the pipeline with beautiful futures of dreams, with wonderful relationships, with powerful love and growth — with fantasia. (60 minutes) ... \$9.95

Creating Optimal Futures

This is an immensely powerful technique from Lazaris’ seminars on *The Sirius Connection*. Since the future creates the present, every future has impact now. Consciously creating a powerful, positive, joyous future of success can have immense impact on our current reality. Lazaris outlines an intricate, enchanting process in which you create a magnificent future that has very specific qualities — a future which may not manifest for years, but which changes the reality now. By doing so, the *Radiance of Resonance* perceptively moves over into a significantly more positive range. Lazaris culminates with a magical blending to encounter the qualities of an Optimal Future. (60 minutes) ... \$9.95

Meditations for Creating More Love in Your Life

These meditations come from the weekend seminar *Seven Rituals To Create More Love in Your Life*.
Each title is 90 minutes and is \$19.95.

The Circle of Forgiveness Meditation

The Circle of Forgiveness Meditation is now part of the seminar excerpts *Forgiveness: The Miracle of Magic*. Please see excerpts section for this recording.

The Circle of Love Meditation

Letting more love into your life can mean new people, a deeper relationship with those you already love, or that everything already there takes on a new glow and emanates a higher resonance. This meditation is a filling, a fueling, a changing and shifting of resonance — an expansion. This ritual deals with the foundation of love, and works very specifically to deepen the love and relationship between you and your Higher Self and your counselors. You draw a circle upon the ground, and you and your Unseen Friends take your places around the circle and begin to talk of the seven *Qualities of Love*. It is a deceptively simple meditation that has an extraordinary depth and results in new levels of the awe and wonder of love. It is particularly helpful when you are frustrated or disappointed in yourself (times when the very foundation of your love is rocked).

The Depth of Chakra Meditation

Lazaris begins with a review of the 12 chakras — the seven which are inside the body, and the five which are outside it — and their relationship to safety, pleasure, emotions, love, creativity, insight, spirituality, the auric field, Soul, Higher Self, and the etheric realm. With this foundation set, the meditation is designed to help us identify what blocks our ability and willingness to let more love into our lives and into our world. In a mystical meditation, we search for the chakra that we need to work with, and then move through that chakra's 12 levels, engaging our Soul, Spirit and Higher Self to heal the resistances we find there.

The Igniting the Essence Meditation

Lazaris begins with a serpentine trip through the first seven chakras to the 9th chakra — the Etheric Chakra. There we find a magical doorway that leads past form, function, and energy to the *Essence of Love*. Along the way, forms abound: physical forms, pictures from childhood. Then the functions of love appear, and then our beliefs become clear. It can be an amazing journey. Within the *Essence of Love* ... fires burn and transform ... and we receive a gift ... a magical gift to be opened only when we know it is appropriate. Lazaris suggests *The Mysterious Power of Chakras* and *The Power of our Chakras: Removing Blockages to Our Success* for deepening our work with chakras.

The Pillar of Light Meditation

An intricate, 45-minute guided meditation that is so powerful it is done no more frequently than once every two weeks. Lazaris creates a Pillar of Light from five spheres of brilliant white light, each containing a magical symbol — double-tetrahedron, pentagram, spiral, crescent, and circle — and generating a sound tone. With one of these spheres we can open gateways to the Imaginal Realm; we can open gateways to the mystical beyond. There our programming becomes unbelievably powerful, and our results can be transcendent. From it all, we can let more love into our lives and we can allow the universe, our Higher Self, Soul, and God/Goddess/All That Is to “take care of the details.”

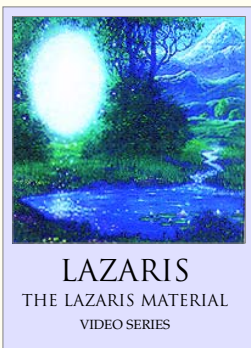

The Reconnecting with Emotional Depth Meditation

Because of the trauma, shame, and pain we have experienced, too often our line to the real depth of our emotions is disconnected — the capacity to link thought and feeling has been lost. This can result in several kinds of phenomena: recurring emotion that is not connected to a memory, but just keeps recurring; the capacity to understand love, but not to feel it; and responding inappropriately to others' love and not being able to let it in. This meditation, done with a pentagram and beams of light, absolutely can reconnect thinking and feeling — and the result is the ability to feel “connected” and “whole” and to experience a real sense of peace. A powerful liberation and healing.

The Tree of Love Meditation

This is a truly magical meditation for healing what stands in the way of love. We wander aimlessly in a forest and then suddenly find a magnificent tree guarded by a Silent Sentinel. Within this Tree of Love, we encounter a woman with the head of a lion and a golden disk behind her, a man/woman with the head of a bird, a person who is part reptile, and one who is part man-part beast. One of them holds a paper containing a magical hieroglyph, and this one becomes our doorway into the vast realm within the Tree. It is a beautiful, mystical meditation that is particularly good to do if you're confused or in self-doubt.

Achieving Intimacy & Loving Relationships

Though intimacy and love can be found in romantic relationships, their beauty is also woven into the loving relationships we have with our friends, our Higher Self, and God/Goddess/All That Is. Lazaris gives us a thorough overview of love and intimacy and outlines the blockages that stand in our way — fears of humiliation, commitment, and intense emotions — and the problems of our projected past: the beliefs and attitudes of our parents, our sense of indebtedness, and the general misconceptions of intimacy as loving everyone — or only one, the Soul Mate. A seven-step process, a *Mirror Technique*, and a wonderful meditation for ever-more-beautiful intimacy and relationships.

Developing a Relationship with Your Higher Self

In the seven-part Evolution of Consciousness, the pivotal point comes when we begin our relationship with our Higher Self. Lazaris offers a panoramic view of consciousness, mapping the Higher Self schematically and emotionally. He touches on the ways of becoming more conscious — by developing personal excellence, by dying to the past and living the future, by sacrificing struggle, and learning to value ourselves. Lazaris also illuminates the functioning of the subconscious, unconscious, and conscious minds, personally and in human evolution. The meditation is a beautiful journey to touch the Higher Self in its most real abstract form.

Developing Self-Confidence

What God/Goddess/All That Is promised us was dominion — a friendly world of future-oriented co-creation. They promised us the ability to consciously create our reality, to be happy, to always be all that we are. This Spiritual Promise was supplanted by a “Grand Promise” of science and technology which promised domination, an unlimited exploitation of nature, and a license to do anything we liked without responsibility — rather than to be everything we could be. The failure of this “Grand Promise” led to a massive breach of confidence that affects us to this day. This tape is about shifting from a World of Domination back into the World of Dominion and the fulfillment of the Spiritual Promise in our individual lives. With several powerful techniques and a meditation to heal our confidence.

The Audio Version of this tape is called Developing Self-Confidence II to distinguish from the seminar tape Developing Self-Confidence.

The Future: How To Create It

There is an Old World: one full of health problems, one where the elements attack and the earth “purges itself” with tectonics and volcanos, one where the economy is depressed and frightening. But the New World is one of Longevity, Dominion, Wealth, Aliveness, and Magic — a New Age. The bridge between the two is vision: our dreams, our self-chosen destiny, our ideals. This is a fascinating and very deep discussion of the true nature of reality and how we can create a future of dreams. Exercises to do daily, an illumination of the issues to be dealt with, and a stunning meditation start to create this bridge to the New World.

Listening to the Whispers

Lazaris has often said, “If you listen to the whispers, you won’t have to hear the shouts.” This tape is about becoming inwardly aware of the “whispers” being given us — by our health, by our success ratios and abundance levels, by our relationship to things, by our night dreams and day dreams, by our relationships, and by the global reality. All are harbingers with a message. If we listen to the whispers, a negative reality can transform before it can manifest. Lazaris gives us journal techniques, a *First Thing Technique*, and guidelines for developing the love and confidence to create a smoother, more positive reality. *The Valley of the Echoes Meditation* helps us hear the whispers.

Overcoming Fear of Success

As much as we fear failure, we fear success more, and this tape is about healing that fear — whether it be a fear of happiness, a fear that it will be “lonely at the top,” or a fear that visibility will leave us vulnerable to hurt and humiliation, betrayal, and usury. Our contracts never to be more successful than our parents and siblings stand as guardians keeping success out. And finally, our sense of undeservability — generated perhaps from arrogance, perhaps from deep, buried secrets — haunts us and makes us retreat. Lazaris outlines a seven-step process using journal work and meditation to heal the secrets and gain the self-love that

Crystal Videos

Awakening & Working with Crystals

"During the 20th Century, the technicians of science learned to harness crystal energy. Technology exponentially flourished. At the dawning of the 21st Century, it is time for the magicians of mysticism to renew and to learn anew to harness crystal energy and the forces of its consciousness." – Lazaris

While Lazaris reviews the metaphysical and esoteric properties of quartz crystals, he demonstrates how we can awaken their consciousness and thus can more fully awaken our own consciousness. He shows us how we can initiate a wondrous Alliance of Consciousness – of human and crystal consciousness – to sharpen and hone our magical skills and to allow our magical workings to become more productive, more powerful, and more successful. Includes techniques for Finding Crystals of Our Keeping and a beautiful demonstration of the Ritual of Welcoming. An insightful and inspiring video that we will want to watch over and over again. VHS, also available in PAL.

Expanding Your Magic with Crystals

Through Lazaris' incredible demonstrations, we can learn specific methods for cleaning, clearing, and aligning crystals of our keeping. We can learn of their nature, their tradition and provenance, and of their destiny. We can learn loving methods for amplifying the energy of crystals to be in line with our tradition, purpose, and our destiny as well. In all this, we can find the inspiration to design our own aligning and amplifying techniques. Lazaris will show us how to create Crystal Grids & Matrices to generate a synergy of Resonance Healing that can profoundly affect our crystals and that can change and grow us in our current reality and at the level of our soul. It's a stunning expression and demonstration of how our magic, our happiness, and our success can expand. An enriching video, filled with wonder and beauty. VHS, also available in PAL.

Crystals: The Mystery & Magic of "Ancient One" Crystals & Crystal Skulls

"There are generators, healers, teachers, and record keepers among your many crystal friends. And then there are the Ancient Ones ... ah, the Ancient Ones ... what wonders they hold and what wonders can emerge ... And then there is the mystery of the Crystal Skulls; great magic lies within their domain." – Lazaris

Lazaris' intimate and loving rapport with crystals goes beyond any words that could be said. The closeness and tenderness, the respect and commitment, each comes alive as Lazaris works his magic with Ancient One and Crystal Skull crystals. During this enchanting video, Lazaris will gently introduce us to an Ancient One: Grandmother, an Ancient One: Record Keeper, and others. Also, he will work with two distinctly powerful crystals, alive with crystal skull consciousness. Amid the loving demonstrations, we can learn of the tradition, provenance, and destiny of these august crystals. We can learn the unique magic of Working with the Ancient Ones, including how to Sit with the Ancients and how to Seek and Receive the Counsel of the Ancients. We can learn practical ways to work with those unique crystals that are rich with skull consciousness. A powerful video, filled with practical techniques as well as magical inspiration. It's a spirited video that can change our relationship with all crystals and their consciousness. VHS, also available in PAL.

gives us the permission to succeed. With a meditation for overcoming the fear.

Personal Excellence

There is a wonderful joy in real personal excellence. Far from being an egotistical "better than" position, excellence is really "doing better" than before (rather than being "better than" someone else). It is functioning with value and positive impact — and with intimacy and an elegance of wisdom and understanding. Lazaris looks at our erroneous definitions of excellence and our emotional "fear of heights." Then he teaches us the alchemy of creating excellence — beginning with indulging ourselves in massive amounts of desire, raising our expectations and imagination, functioning with greater clarity. With a brilliant meditation and techniques, we arrive at a wisdom beyond time and space — and at a whole new level of personal excellence.

THE LAZARIS MATERIAL
EXCERPTS

Excerpts from Lazaris Intensives and Weekends

These excerpts – taken from Lazaris Weekends and Intensives – range in length from the succinct two-hour studies of metamorphosis and transcendence magic to the Merlin-Arthur Legacy series which are 9 hours and 7 hours, 45 minutes respectively. They are all unique in that the subject matter covered has never been available before as recordings. They are in-depth studies of powerful subjects, and some contain meditations recorded by Lazaris especially for these series.

The following two titles are excerpted from the Lazaris Long Weekend Workshop: *Activating the Magics: Transcendence & Metamorphosis*, which was held in Orlando, Florida.

Activating the Magics: Metamorphosis

This intimate and insightful discussion by Lazaris is a gem. He begins by describing what metamorphosis is, using the analogy of evolution of caterpillar to butterfly. Then he shows us how we can enter and move through our personal “larva, pupa, and imago” stages, emerging not just a “better person,” but emerging a “different kind of person.” We come to understand the potentials for working metamorphosis magic in our reality and in our world to create not just a “better past” but a “new kind of future.” Thought-provoking and inspiring, this is a discussion we will listen to over and over again. Each time, we can hear something more and garner greater insight, more powerful magic, and greater success in our lives. This tape (and “*Activating the Magics: Transcendence as Part of Daily Life*”) is a wonderful review for those who participated with Lazaris during that long weekend, and a wonderful guide for those who could not be there. There is no meditation in this excerpt. 2 hours ... \$19.95

Activating the Magics: Transcendence as Part of Daily Life

It was Sunday morning when Lazaris began exploring how we can bring an esoteric magic into practical application. He reviews the gateways that can lead to transcendent states; he calls them the Transcendent Gateways. Some of the gateways: Depth of Soul, the Unknown, Boundary Dwellers, Goddess Grove. All of them can work; one of them can work most elegantly. Within and through these gateways, we can discover self-transcendent states, and there we can work magic that can be miraculous. From this foundation, Lazaris then suggests that we can amplify the working of our magic and improve our success if we create transcendent receptors in our personal reality. It is a powerful discussion, rich with insight, possibility, and potential; opportunity abounds. This tape (and “*Activating the Magics: Metamorphosis*”) is a wonderful review for those who participated with Lazaris during that long weekend, and a wonderful guide for those who could not be there. At Rainbow’s End: Creating Reality as Never Before

Excerpts from the May, 2003, Intensive ...

It began with an intriguing idea that grew to become an incredibly profound truth: we create our own reality. Out of that mysterious concept, we have built a foundation and structure of amazing achievement and accomplishment. We have woven a rich tapestry of love and magic.

By returning to that primal seed, we can expand our success with new dimensions of happiness and wonder. We can embellish our magic with greater meaning and value as well as with more joyous and bountiful miracles. We can augment our lives with grander love and greater healing.

This workshop was designed for those who are newer to working with Lazaris and who missed the earlier workshop where conscious reality creation magic was the primary focus.

In this back-to-the-basics exploration so much of our current work becomes empowered. Our magic as well as our creations/manifestations can become stunning and astounding. It is also designed for those among us who are well-seasoned in our work. We explored such magic long ago, but with all that we have learned and in all the ways we have grown and changed, our observing and measuring devices ... the ones we used then when we first explored this magic ... are different now. With new observation, the idea that became a truth can be understood, known, and lived in new, expanded ways. Our magic and all that attends it can also become stunning and astounding.

The excerpts from this intensive include working with the *Stuff of Reality Creation*, the *Dark & Light Matrix*, the *Fundamentals of Processing & Programming*, and the *Mystery & Mysticism of Magic*. However, this recording of excerpts does not include any of the Magic Times with Lazaris and does not include meditations.

Celebrating Creation: The Great Wheel Turns (Excerpts)

Excerpts from the October, 2002 Weekend

We can enter the Great Wheel and artfully walk its rounds. This particular weekend was a gem among week-

ends with Lazaris. This recording includes selected excerpts from that event. Included are excerpts from discussions of: *Eternal Turning of the Great Wheel*, the *Mystery & Magic of the Great Wheel*, and the *Grace of the Great Wheel*. Lazaris describes each turn and allows us to discover the significance of each.

The excerpts also include an exploration of how to be responsible for our successes. We know the value of such responsibility, but this is the first time Lazaris has laid out the steps so clearly and concisely.

Also, there are excerpts from the Sunday morning discussion of how to bring celebrating creation into our daily lives and how to work with the turns of the Great Wheel. This is a delightful recording with wonderful insights that are rich with possibility and potential and that can open us to unlimited opportunities. No meditation.

Earth Changes: Cresting the Wave, Dawning the Light

During the November Culminating Weekends (1997), Lazaris explored the genuine negative possibilities and the genuine positive potentials of coming Earth Changes. In an exhilarating discussion, he spoke of the power of active and conscious participation to assure the Dream of the New World now destined to be. Then he explored in exquisite detail how we can consciously and actively participate. The final meditation of this seminar was an incredibly powerful one, and many of us wanted to have it so we could do it over and over again. Recorded here, Lazaris again speaks of the value and power of active and conscious participation: we are part of the mix; we are part of the equation of success and the New World. We count; we matter. Following the newly recorded discussion is an excerpt from the San Francisco weekend where Lazaris discusses five of the seven ways to actively participate: Building our Buildings, Disarming and Dismantling the Negativity, Hearing the Music, Cresting the Wave/Dawning the Light, and working with our Great Awakening Crystal. It is a delightful, profound discussion. Then Lazaris recorded the Cresting the Wave Meditation ... the meditation that concluded the Culminating Weekend of that year. It is a meditation you will cherish for so many years to come. The meditation is recorded on both sides of the second tape so it's easy to use over and over again.

The Essence of Creation: Touching Personal Greatness

Excerpts from the November, 2002 Weekend

On Sunday mornings of workshops, Lazaris explores how we can carry the magic and miracles of the workshop into the weeks and months that follow. This recording of excerpts includes a discussion to work with *Reservoirs of Lost Creativity*, *The New Map of Magic*, *The Touch of Greatness*, and *Essence*.

While talking of the *Reservoirs of Lost Creativity*, Lazaris offers us incredible insight into what happens to the creative person within our consensus reality as their creativity wanes, and insight into the suffering and struggling that most creative people endure in their unwitting attempts to retrieve that creativity.

Of course, Lazaris offers an alternative to us who are magicians. Lazaris also details the use of the *New Map of Magic*. It is a powerful tool to work with the *Essence of Creation* and with *Personal Greatness*, and it is an incredible map for the workings of all kinds of magic. This discussion is a gem and is presented as an excerpt from the Culminating Weekend of 2002. No meditation.

Forgiveness: The Miracle of Magic

Excerpts from the January, 2004, Weekend

Amid all the mysteries, it is forgiveness that is the miracle of magic – is the miracle of your magic. – Lazaris

We are fortunate to know so much about forgiveness. We have transformed our lives, transcended our pasts, and have created our personal realities now rich with dignity, character, vitality, and vision. Somewhere in the mystery between forgiving ourselves and forgiving others, there is an incredible force that produces change ... change that can be astounding. Somewhere between ... in that mystery there is an incredible light that can generate miracles. Our magic can come alive with that light. Our magic can change. Its texture and its nature can be miraculous. During these excerpts, Lazaris briefly explores our *resistance to the force of forgiveness*, and then elegantly moves to the examination of the *process of forgiveness*. Then he guides us upon a most amazing ritual/meditation called the *Valley of Forgiveness* for forgiving ourselves, and then he guides us upon another magical ritual and meditation, the *Circle of Forgiveness*, most effective for forgiving others. He concluded this weekend exploration with the technique: *Waiting upon the Light of Forgiveness*. For those of us there, it was a magical and miraculous weekend. With these excerpts you can share a bit of what so many of us lived. These excerpts include a recording of the two *Rituals of Forgiveness: Circle of Forgiveness* and the *Valley of Forgiveness*. The latter meditation was especially recorded by Lazaris for these excerpts. Two meditations included. *Valley of Forgiveness* and *Circle of Forgiveness*. 5½ hours ... \$74.95

Miracles are the subtle wisps and whispers that God and Goddess are at play in your reality and within your reality creations and manifestations. Often they seem to come "out of the blue" – often, out of the blue light of Sirius – as magic. – Lazaris

Excerpts from Lazaris Intensives and Weekends

Global Magic: The Next Level of the Great Work

Excerpts from the August, 2001 Intensive

"Often a workshop lasts two or three days and within its boundaries and within the blur of those boundaries, you have insights – many or few (one is often enough) – born of experience, and magic happens, initiating change. Possibilities with potentials swirl and opportunity emerges from the mix. And you leave a workshop with a bit more awareness and understanding; you leave with a bit more knowing as well. You have come to expect to find the magic within the days – to find technique and application within the structure of the days. Rightly so.

"Yet, these days are different. They do not only contain magic, they are the magic. They don't only hold the workings; they are the workings of magic. What we say – the words, the content – will have relevance. They will have substance in the fashion to which you have become accustomed. But it is in what we don't say, and instead do, that is found the greater relevance and the more profound substance. "As we begin these days, you enter a continuous ritual – a lyrical ritual – and a quiet celebration. You enter a magical working now already underway. Welcome, dear one. Welcome." – Lazaris

This tape includes beautiful as well as empowering discussions of the basics of Global Magic. This magic begins with applying the magic we know to world events and issues, but it is so much more. Beyond the obvious words "global" and "magic," there is a precious and rare magic that, out of the glow of enlightenment, we are ready to explore. This recording includes the Friday morning session where Lazaris introduces the concepts of Global Magic and where he lays out the process of preparation and illumination that leads to initiating Global Magic in our reality. This audiotope also includes the Saturday morning session as Lazaris annotates the particular step-by-step energy involved in becoming a Global Magician. We learn of *establishing our personal magic* and its mantle as we do our *mystical workings*. We enter the realm of mystery with *healing and loving* as we are carried into the *Grace of Mystery*. A different kind of loving and healing happens in that mystery and its grace. Next comes our *magical workings of Global Magic* as we then conclude the process with *establishing our Global Magic* and its mantle. Though there are no meditations or magic times included in this powerful excerpt, it is an excellent map and reminder for those who participated in this magical working as well as for those who could not be there. Harnessing Our Personality Drive: Lazaris Explores the Enneagram

(Intensive Excerpts)

We can clear away the dust and peel back the layers to reveal and discover our personality drive. We can stop being blindly driven by it. We can end the uncertainty, fear, and anxiety of being so driven by energies and forces we do not yet understand. We can take charge and start driving our own lives with confidence and resolve. We can become the winners, celebrating being victorious at life and being victorious at living our destiny. We can be winners, triumphant with a life enriched with loving and caring and rich with wonder and mystery.

Lazaris clears away the dust and peels back the layers by working with an ancient matrix called Enneagram. Woven deep within the mysticism of Enneagram, we can find the drive of personality and we can find more of ourselves. We can unravel the circuitry of our Subconscious Mind, restructuring it. Revealing the secrets of our Unconscious Self, we can catapult forward upon our path and journey: Coming Home. With unmatched insight, Lazaris works with the matrix of Enneagram as no one has done before.

Reviewing the physical, his focus is upon the spiritual of Enneagram. Reminding us of our deterioration and disintegration, his emphasis is upon our elevation and integration. With this focus and emphasis, he lovingly and safely guides us into many mysteries yet to be resolved. He lifts the veils of perception and of resistance so that we might unlock the sheer and beautiful forces of Enneagram with an overflowing of celebration and triumph. Once unlocked, we can utilize those otherwise untapped forces and flows as resources to having it all. (Excerpts only, no meditation)

Merlin-Arthur Legacy, Part I & Part II (Excerpts)

Two Series: Part I is 9 hours, and Part II is 7 hours, 45 minutes. Both contain Intensive and Weekend Excerpts, and each includes a new meditation especially created for these series.

Gather 'round as we tell you a story – as we weave a timeless legend right and true ... in the mix of mystery and magical legend is a legacy of love – of pure love, free of suffering and sacrifice, and eternally free of martyrdom and control. It is a legacy with no beginning and with no end. Gather 'round ... Come. Let us love together once again. – Lazaris

Many of us have explored this timeless legend and legacy with Lazaris. We have met our Knight and our Lady. We have ridden on the backs of dragons and worked magic with Merlin at our side. We have sat quietly with Arthur and have seen a bit of ourselves sitting there. We have witnessed the pure love shared by a Magician and a Man. The spiritual current embedded and encoded in that incredible legacy of love has touched us.

Exploring the Arthurian Legends and the Merlin-Arthur Legacy with that “legend right and true” can be an amazing and entertaining journey. Some of us will come again to this journey to renew and refresh and then to delve deeper into the mystery that waits for us there. Others of us will come for the first time, and amid the amazing and entertaining, we will discover so much more of ourselves. We can all become so much more. Again, or for the first time, as we work with Merlin and his magic, we can learn so much more about our magic and about the magicians we truly

are. As we work with Arthur and his dreams, we can learn so much more of our dreams and of the dreamers/dream-weavers that we are destined to be.

These recordings include excerpts from several of the Lazaris workshops about the Arthurian Legends and about the Merlin-Arthur Legacy of Love. We can work with Merlin and Arthur and with their love as well as with our love. We can explore the uncharted together with Lazaris as our guide. We can journey with Merlin and Arthur deeper into the mystery. They will become more as we do. They will engage the magic for themselves as we engage it for ourselves. The spiritual current – that current that can guide and accompany us “all the way” Home – can come alive in us as though electric. We can know in ways we have never known; we can be in ways that we have never been.

Welcome to the mystery and the magic of the Merlin-Arthur Legacy. Welcome to the mystery and the magic of the legacy of pure love.

The Grand Awakenings of Ancient Crystals

as Experienced by Jach Pursel

It’s a book about crystals – Ancient Ones, Shining Ones, Merlin Crystals, Gateways to the Faerie Realm and the Realm of Other. And it’s about the ancients, dreamers, magicians and sages of Atlantis and Lemuria, of Sirius and the Faerie Realm, who have been their guardians before and the great magic and miracles they manifested with them.

Jach Pursel, Lazaris’ only channel, has been working with crystals for many years. Over the last decades, many magnificent crystals have come to Lazaris, and increasingly they have told Jach their tales of lands and peoples long forgotten – of timeless goodness, truth, and beauty – of love and magic.

These are their profoundly inspiring *Grand Awakenings*. With an introduction by Jach Pursel and the histories of more than 100 crystals, this book also contains a 16-page section of full-color photographs of some of the book’s most beautiful crystals, and a glossary of unusual crystal terms.

Personal Growth Tapes

These are Lazaris' seminar tapes, and they form the backbone of Lazaris' teachings. Each contains an in-depth discussion with a powerful meditation and tools and techniques to effect profound change and enhanced understanding and power in working with the topic being discussed.

Each title contains two tapes ... 2½-3 hours ... \$24.95

Abundance & Prosperity: The Skill

Abundance ... Far from being an "unspiritual" subject, dealing with abundance is part of our growth. Lazaris explores the difference between the Old Abundance — which involved so much struggle, judgment and prejudice — and the New Abundance which involves a wealth of unlimited thought, richness of feeling, and depth of spirituality as well as physical things. Getting there requires working with a number of emotional elements — from how "real" we make money and false meanings we attach to money, to the achievement of a true willingness to have it. A powerful seven-step process for clearing the blockages, an incredible meditation, and several powerful techniques: *The Green Flame Technique*, *The Bubble of Abundance Technique*, *The Door of Abundance Technique*, and *The Abundance Symbol* ©.

Accelerating the Pace of Manifesting Success

It is the most monumental decade in human history, and part of the destiny of being Map Makers is a vibrant, accelerated pace of manifesting success. This tape, with its incredible Higher Self meditation, explores our resistances to greater success — the confusion between gratitude and complacency and our need for the intimacy that will generate self-trust, the most powerful of all the generating energies. Lazaris explains the *Four Secrets of Acceleration*, outlines an empowering new understanding of processing, and describes the immensely powerful *Mists of Manifestation Technique*. Finally, in a Blending, Lazaris has us step into his light to help us create something that we want.

Accessing the Incredible Force of Love

The Great Work: Applying the Spiritual Alchemy of tapping into the force of love to create miracles and to access whole new realities. Lazaris begins with a fascinating discussion of the force fields that surround the various kinds of love. Love is more than an emotion or a state of mind: It is a force with a resonance more powerful than we can know. Within the many force fields, there is one that is truly a gift from God/Goddess/All That Is. Lazaris helps us through teaching and experience to touch this unique force field. As we touch, so we are touched. We can understand and free ourselves from the Negative Matrix that holds many of our obstacles. Lazaris also explores the Underworld and the Causal Plane in our programming as we incorporate not

only the love we feel, but the raw and mighty force of love itself. With a profound meditation.

Activating Miraculous Success

Miraculous Success: The completely positive reality of miracles that is the desire of your Higher Self for you. In this landmark tape, Lazaris defines the *Secrets of Miraculous Success* and takes us on a journey to discover the treasures of meaning and destiny, personality and image, character and motivation, identity and creativity. Once accessed, they create a force field that allows us access to miracles. What stops us? Fear of intense emotion. *The Pool of Emotion* technique and meditation activates the deepest levels of positive emotional intensity for magic, and can be used for anything we like: for healing, manifesting, greater love. An immensely powerful tape.

Activating Our True Core of Power: Love and Will

We stand upon a pinnacle ... our pinnacle ... and we will move. The siren's call of the past and fear's call to the present can overshadow the voice of hope and opportunity coming from the future. Decision and choice are not enough: We need something mysterious and mystical that can be magical and miraculous. Our true core of power can be that "something." Lazaris explores the paradox of love and will whose resolution is so critical to success and happiness. He reviews the contribution that love makes and focuses upon the magic of will: Why we know so little of will; the four kinds of will; and where we can find our True Will. Lazaris offers us an array of techniques: *Faces of Love-Spaces of Will*, *Ebb & Flow of Will and Love* (when love says "yes" and will says "no"), *Guides to True Will* (Painter, Poet, Musician, Philosopher), *The Elixir of Love & Will*, and the meditation *Gathering in the Mists of Love & Will*.

Activating the Initial Source of All Magic

Lazaris began 2001: *The Year of Mystery* with a powerful statement: "This year can be a great year of stellar success where realities change and where opportunities come to pass with magical elegance and ease ... a year of exceptional and extraordinary success and happiness, of exceptional and extraordinary love, and of exceptional and extraordinary wisdom and knowing. It can be all this and more ... or not." The major keys of mystery, how we relate to mystery,

and how we go about making mystery can have a powerful and magical impact on the success and happiness of any year. Lazaris begins by exploring the initial source of all magic: *Cosmic Memory*. He talks of the awakening of the magician in each of us and of how it is a time of maturing that magician to create a more compassionate, more responsible, and a more just reality for us and for our world.

After defining Cosmic Memory, he discusses four specific ways to encounter that august and ancient realm: *Foundational Approach*; *Gateways to Unconscious Presence*; *Imaginal Realm Procession of Symbols*; and *The Right Path*. Following a profoundly powerful meditation, Lazaris concludes the evening talking about how to activate Cosmic Memory as we work our magic. These techniques include such things as developing the *Skill/Art of Accessing Cosmic Memory*, finding a *Tangible Symbol of Mystery* or an *Audible Symbol of Mystery*, and working with our *Personal Myth and Mystery*. This is a rousing evening of wonder and magic. Meditation: *Valley of Mystery*.

Alleviating Your Life Lesson & Letting It Serve You

There are many lessons we learn in life, but the Life Lesson is the most important of all. It is the one that weaves itself through every other lesson — and through both the Dark Matrix and the Light Matrix. When denied and defended against, the Life Lesson will always make us fail. But when embraced, accepted, and understood, it is first alleviated and then becomes an ally which serves us. It is like an onion we peel throughout our lifetime, and with every layer, it becomes more positive. This is a liberating tape: It resolves our fear of the Life Lesson and empowers us to command the lesson itself. The meditation is extraordinary in its capacity to change the very nature of what the Life Lesson means to us. There is no area of growth that this tape will not positively affect.

Allowing Destiny to Work for You

Lazaris explores the distorted definitions and twisted connotations to reveal the beauty and power of our destiny. Destiny need not be a burden; it need not be our enemy. It is not a contradiction to the concept of conscious reality creation. Rather, it is a powerful tool with which we can create an even happier and more successful reality. After exploring the foundation of destiny, Lazaris helps us discover the mystery hidden within its folds. We can change our destiny, and more, we can put our destiny to work for us. We can consciously design what is fated in our personal world and we can design our fortune. With fate and fortune, we can determine what is irresistible and inevitable in our lives. We can determine which energies and forces function so as to determine the events in our private world and in the world around us. Lazaris explores several new techniques: *Mystery of Destiny*, *Destiny Umbrage-Radiance*, *Destiny Crystal Matrix*, *Destiny Amulet* are some of the techniques explained. Meditation: *Destiny: Umbrage & Radiance*.

The Artistry of Loving: Creating & Manifesting

We have all been apprentices of love; now it is time to become artisans. We have learned how to be loved, now it is time to develop the mastery of being loving. Lazaris helps us look at our resistance to the artistry of love: our addiction to the “first love” and to the “second love” — and of focusing on the packaging and marketing of self to be loved with the erroneous assumption that once we are loved, it is automatic to be loving. He works also with our fears of artistry itself. Techniques include *Opening to the Faces of Love*, *Developing Artistry*, and *Touching the Wonder*. The meditation — *Crossing the Bridge of Love* — is a wondrous experience.

At Rainbow's End: Creating Reality as Never Before (Evening Only)

This workshop was designed for those among us who are newer to working with Lazaris and who missed the earlier workshops where conscious reality creation magic was the primary focus. In this back-to-the-basics exploration, so much of our current work becomes empowered. Our magic as well as our creations/manifestations can become stunning and astounding.

It was also designed for those among us who are well-seasoned in our work. We explored such magic long ago, but with all that we have learned and in all the ways we have grown and changed, our observing and measuring devices ... the ones we used then when we first explored this magic ... are different now. With new observation, the idea that became a truth can be understood, known, and lived in new, expanded ways. Our magic and all that attends it can also become stunning and astounding.

Whether new or well-seasoned, some of this journey that is both back to the basics for some and brand-new for others will involve exploring and working with the *Stuff of Reality Creation*, the *Dark & Light Matrix*, and the *Fundamentals of Processing & Programming*. This evening-only recording includes a powerful meditation to begin healing our errant chemistry and mechanics that still stand in the way of our success and happiness — that still stand in the way of fully accepting that we are loved and of being more loving in the living of our lives. It includes a mind-melding with our inner child. Meditation included: *Mind-Meld with Our Inner Child*.

Awakening and Embracing the Majestic in You (Evening Only)

Awakening and embracing majesty stands alone as yet another avenue that can motivate and sustain the power and magic of expansion. As well, when the majesty in you is awake and conscious, it can amplify the other avenues of choice when it comes to activating and utilizing your alliance with expansion. — Lazaris

During the evening of this incredible culminating weekend, Lazaris laid a foundation for awakening and then embracing our majesty. Majesty can inspire us to reach for the stars, to raise our voice in the calling of miracles; and to

Personal Growth Tapes

add exultation to loving joyously. Working with our majesty can be pivotal in the workings of our personal magic and in the workings of New Magic. As we awaken and embrace, we come to realize that majesty is the liberator; it can set you free. Often such awakening and embracing can be the missing ingredient or the unlocking key to your conscious and active participation in the Great Work. From this foundation, Lazaris explores the what, why, where, and when of the majestic: What is Majesty? Why do we resist it? Where can we find it? When can we awaken and embrace it? This powerful evening concludes with a meditation, not to give us our majesty – we already have it – but to plant the seeds of possibility and potential that can give birth to the opportunity. The seeds are planted. The rest of the weekend Lazaris worked with fulfilling the possibility and potential— with utilizing the amazing opportunity. However, the evening with its meditation is enough to remind us and guide us to this phenomenal awakening and embracing of the majestic in each of us.

Awakening Our Genius

The concept of genius is latticed with misconceptions: Some see it as high I.Q. or a specific talent. Some think genius means being perfect, or that it's something unfathomable. But more than that, fear, anxiety, dread and indebtedness all put our unique genius to sleep — and unresolved pain and rage can overshadow it. Yet it is there, and within it lies the stuff of miracles. It is a synergy of wisdom, patience, dreaming, and a perspective of the possible; it is a capacity of knowing, a quality of persistence, and the willingness to be wrong (and then to change) in the pursuit of what is right, beautiful, and true. This amazing tape includes the *Sunrise in the mid-brain meditation* where Lazaris guides us to fire neurons and recalibrate the brain. He concludes with a series of powerful techniques, including the *Crimson Disk Technique* and work with the Future Self.

Awakening the Mysteries: The Secrets of Your Unconscious

This powerful discussion can touch each of us differently. For some, we can learn to engage our unconscious mind and receive greater reward in living our magical and metaphysical lives. Others of us can learn to harness the power of our unconscious in new and more powerful ways, and our magic grows stronger. There are those of us who

will reach beyond engaging and harnessing. We can come to more elegantly access the secrets – access the mysteries – that are lodged deep within the recesses of our unconscious minds. All of us can awaken the mystery and be the recipients of richer success and happiness. During this exploration, Lazaris talks of the *Grand Paradox of the Unconscious* with its four pillars and with its maze of chaos and complexity. He adds dimension to the discussion by outlining specific ways to consciously engage our unconscious and by laying out a step-by-step technique for harnessing its power. This technique includes the *Gateways to the Unconscious* and *Focal Points within the Unconscious*. Building upon this foundation, Lazaris suggests several approaches for accessing and awakening the secrets and mysteries. These techniques include working beyond the *Focal Points* with *Orbs of Mystery*, the *Grand Paradox of the Unconscious*, and with *Seeding the Unconscious*. Meditation: *Grand Paradox of the Unconscious*.

Awakening the Unstoppable Power of Our Magic

The first step to greater dominion – the first step to activating the magic of dominion – begins with awakening the power of our magic. After a cursory review of what dominion is, Lazaris explores means to more fully discover and then awaken our magical power. From Conscious Presence to Unconscious Presence, we can gather this power from familiar places (our personal framework of memories, myths, dreams, and visions, and from our strengths and talents), and from less familiar places (our majesty and grace and our future and Future Self). Once power is awakened, with a bit of fashioning, we can touch and tap the “unstoppable” power that is often hidden within. Unstoppable magical power ... it's exciting. It can be frightening. Assuaging our fears, Lazaris guides us upon another beautiful meditation and offers a foundation of elegant workable techniques to harness this now-awakened and unstoppable power. The first step toward greater dominion is a profound one. Meditation: *Awakening the Unstoppable Power of Magic*.

The Backdrop of Success: Creating the New Fabric

Functioning in a three-dimensional reality requires a backdrop. We arrive at adulthood with what is basically a Backdrop of the Past — made of fears and payoffs, riddled with the components of the Dark Shield, and glued together by the Dark Law. It leads always and inevitably to mediocrity and disintegrates from there, often into a Backdrop of Tragedy which produces a reality of nightmares. But there is another backdrop — always consciously created — which produces personal and global dreams, a reality of ever-increasing miracles: the Backdrop of Success. Lazaris helps us understand and step out of the backdrops we have outgrown and helps us construct a *Backdrop of Success* that draws on a *Context of the Future* — a context that heals all four of the bodies (physical, mental, emotional and etheric) and puts us on the pathway of our true Spiritual Drive. With a beautiful meditation.

Balance: Releasing the Full Self

Suggested Requisite: Harmony: The Power Vortex

This tape continues Lazaris' incredible exploration of the powerful synergy of masculine and feminine energy and its ultimate result: the release of the Full Self. Even a glimpse of it engenders an awareness that floods us with self-worth, self-respect, and a power of understanding that transforms our relationships and our very physical reality. This tape and its magnificent meditation provide the alchemy for creating a harmony between the masculine and feminine energies we all have (regardless of gender). Our battles with fear and self-punishment can come to a close. An exhilarating exploration of the beauty of true masculine and true feminine energy and a beautiful meditation to balance them and magically release the Full Self.

Becoming an Artisan of Triumph

Triumph can transform success, no matter how large or small, into grand success that can be both magical and miraculous, and where achievements and accomplishments are exuberant with happiness and joy. Triumph, a standing wave of resonance more powerful than the components of which it is composed, becomes an attractor and an anchor for magical and miraculous success. With the artistry of triumph comes the elegance of living an enriched life guided by the Divine within us and beyond us – guided by our Soul, our Spirit, and by God/Goddess/All That Is. Despite all that triumph can be and do, we fall short of its artistry and we have resistances to it: *Lack of Understanding/Knowing; Negative Ego's Prattle; Distorted Perspective; and Jealousy/Envy of Others*. This fascinating discussion explores the unique qualities of triumph and our resistance to it. Then Lazaris unfolds specific ways to respond to the resistance and outlines several new techniques to both develop the craft and to become the artist of creating and manifesting triumph in our lives. Meditation: *The Art of Triumph*.

Becoming a Winner at Living Life

"As much as you win, and you do win often, you are less than the winner you could be." – Lazaris

During this magical evening we can learn to create more and more winning moments in our reality and in our world. More, we can become winners at living life. Lazaris defines the resonance ... the secret energy ... that all winners have; he makes it clear exactly what a winner – a winner at life – really is. Between the resonance and the qualities of winning, we can see our personal way, clear and strong – and see why we would deny the winner in each of us: Addictions to the past, residues of what we carry, wear or drag along with us, lack of momentum, and a lack of celebration and triumph play a major role in all this. In a touching discussion, Lazaris helps us understand why we made a fundamental choice (choice to the 3rd power) to be less than the winner we could have been. What were we trying to find? Love? Happiness? Were we trying to minimize fear, or to end the pain? ... Lazaris shows us how we made the long-lasting choice we have been adhering to most of our lives. Then he teaches, step by step, how we can make a new

choice that is just as powerful. We can choose to be the winner ... the winner at living life. This is truly a life-changing chance to become more of who we are. An amazing meditation included.

Being Loved

Out of the alchemy of giving love and receiving love comes the state of being loved — the state in which spontaneously or by choice we are changed. Being loved eliminates blockages, allows for permanent (and fast) change, and allows us to move beyond ourselves into lives that have a purpose greater than ourselves. Lack of deservability, the entanglements of martyrhood and control and unexpressed emotions can block this state, but Lazaris shows us how to use the very energy itself to transform the negativity. In the meditation, the Old Man, The Crone, and our Counselors help us use the synergy of the love we give and the love we receive to transform who we are.

Beyond Struggle:

The Magic of Being Good Enough

Struggle: Its solution lies in dismantling our sense of undeservability, which is an intricate task. There are *Conscious Waves of Undeservability* — coming from guilt, from the things we've been told, and from deciding we deserve to struggle because we've failed in the past. But there are also Subconscious and Unconscious Waves of Undeservability which Lazaris explores in depth. Finally, we have a personal core reason why we don't feel deserving — and we have a personal pattern. Lazaris deals with all this intricacy with astonishing clarity, offering techniques that include *Shadow Work* and *Engaging the Self Who Loves You* — and a fantastic meditation to help step out of the resonance of undeservability ... and the struggle that it creates.

Bountiful Creation:

Abundant Success and Beyond

Lazaris welcomes us as we gather to love together, as we gather to lift a light in order to learn of abundant success, and then to lift that light beyond. Bountiful creation offers us an avenue – a new avenue beyond necessity and chance – for creativity and creation. Along this avenue of bountiful creation, we can work magic as never before and we can live a rich and full life as it has never been lived before as well. To this end, Lazaris details the step-by-step process to work the magic of bountiful creation: *Understanding Bounty, Understanding Abundance*, and entering the *Domain of Abundance*. Then we work with crafting and tempering our specific desires and needs as the process continues: *Entering the Domain of Mystery, Understanding Essence*, and *Bountifully Creating*. After a powerful and beautifully esoteric medita-

tion, Lazaris concluded the evening by discussing techniques. It is an inventive and innovative evening where we explore a specific process, and we also contemplate founding – not finding something that is already there but just hiding – but founding an entirely new avenue along which creativity and creation can flow. It is an exciting discussion replete with limitless possibilities and potentials and alive with expansive opportunities. Meditation: *Touching/Being Touched by Essence*.

Busting & Building Image

A powerful, pragmatic tape for handling a major limiter. We have many identities, all fluid, a river of them. What forms the bank of the river is image, and we have many of them as well: images of success, relationships, career, growth, evolution. Constricting images can stop any success, technique, choice or decision, be they “rigid” images that lead to shame and hollowness or “narrow” images that lead to struggle and attempts at perfection. This tape defines in great detail how to bust a constraining image and build a liberating one. We can begin with any image that does not support the reality we want to create. With a powerful meditation to bust old images and to build positive new ones.

Busting Free: Beyond the Need To Control

Sometimes control is a choice and a preference, but for many of us it has become a need. Rather than trying to control our behavior and feelings, Lazaris takes us on a journey to understand our need for control: the fears around belonging, the need for a sense of value, the need to feel magical, our fears around pain, love, death, and passion. And then the great secret: We want to control around issues of love. Every need to control is an issue around getting, holding, keeping, and being responsible for love. Once healed, we can create safety: a world that does not trigger the need and in which we are free to be ourselves without control. Lazaris provides a wealth of understanding on a difficult subject, a seven-step process, and a powerful meditation to bust free of the need to control.

Calling of Miracles

Our dreams and visions can manifest with less struggle and less suffering; they can hold greater significance and value. With our grace as spiritual beings, metaphysicians

and magicians, and with a subtle air of majesty, we can lift out of the mire of fixing and curing into the realm of changing and healing. We can change; our world can change. So much can come from the calling of miracles in our reality and in our world’s reality. A working of spirit, a working of science, Lazaris begins this enchanting exploration with a review of the components – the constituent voices – that lift events to the levels and octaves of being miracles. With a better understanding of the nature of miracles, Lazaris briefly outlines the pools of personal resistance to allowing them.

A foundation laid, Lazaris then details two delightful rituals: *The Ritual of Remembering* and *The Calling of Miracles*. The first ritual, a gift of our ancestry; the second magical working is a gift from the Ancients and Shining Ones of Sirius. Wherever the origin, each has specific and timely application in our lives and in our world. The evening’s meditation is a touching rendition of *The Calling of Miracles*. This was a stunning evening ... a magical night captured in this recording.

Co-Creating with the Archetypes

“The time is ripe and only getting riper; you are ready and your readiness only increases.” – Lazaris

This magical excursion begins as Lazaris explores the value of co-creation. It is key to magical workings; it is critical to exploring Oneness; and it is vital to creating the positive future and the New World now destined to be. The journey deepens as Lazaris talks of the objective Archetypes – the “formless forms” that God and Goddess use to create all that is. From the objective Archetypes we begin to understand our personal archetypes – those objective Archetypes with whom we are destined to work and with whom we have a unique relationship of success. And then there are the private archetypes of our design. The discussion deepens as Lazaris lays out a step-by-step process to initiate Co-Creation Magic. After a powerful meditation, the evening concludes as Lazaris offers ways to find our private and personal archetypes and how to work with the magic of the objective Archetypes. The techniques include: The Magician’s Mound, Crystal Workings, the Elixir of Dreams, and The Valley of Giants. This is another exceptional evening with implications and potentials far beyond anything words could describe. Essential for the serious magician. Meditation: *Initiating Co-Creation in the Valley of Giants*.

Coming Home

Please also see The Journey Continues: Coming Home, Part II

The *Luminous* — that which radiates light and love. The *Numinous* — the ineffable beauty and wonder of the divine. The *Liminal* — the threshold between time, between space. The *Grand Attractor* — God/Goddess/All That Is calling us to Come Home. And with this term *Coming Home* Lazaris creates a tape that is like a magical hieroglyph that generates a tangible experience of renewed and transformed spirituality. We have grown for years, and we have turned the corner. We’re not “going” Home anymore: We’re Coming Home. And with it there is a re-emergence of our Spiritual

Heritage, our traditions, our stellar origins. Our lost aspects of Self and Spirit are regained. A discussion and meditation that is really a Blending. A favorite tape of most who know Lazaris.

Consciously Creating Success

This tape deals with core components of reality creation — the way success works, the qualities always present in us when we create success, the seven Success Steps that will ensure it, and the extraordinary *Success Cube* — whose mutable dimensions allow us to increase the types of success we can have, the heights we can achieve, and the depths of satisfaction we experience. Woven of dominion and gratitude, happiness and willingness, the capacity to consciously create success is one of the Life Focuses of every lifetime we live and an integral part of our spirituality and evolution. A fantastic tape with a meditation you will use over and over as the Success Cube expands and expands.

Crafting the Life You've Always Wanted

Through our growth we have achieved tremendous freedom, but many times we still feel that somehow we've wound up living a life designed by others — and we are haunted by knowing that somehow the life we really wanted to live has slipped away. Lazaris begins by drawing an image of a hand-crafted life — a life filled with creativity, imagination, beauty, and dominion, and with a rarefied sense of divinity that leads to the greatest happiness. What remains is knowing how to get from where we are to a life we designed ourselves. Lazaris gives techniques for releasing the past, and reselecting the dream, for weeding out unwanted futures, recapturing the power from ambitions that were never our own. Lazaris culminates with a meditation to open us to the *Enchantor / Enchantress*, our Soul and our Spirit so that we can create a whole new life.

Creating a Brilliant Future

This is the first tape of a trilogy. #2: Winning: New Tools to Get What You Really Want and #3: Secrets to Changing Anything in Your Life

A ground-breaking tape on success and the first part of a magnificent trilogy, this tape focuses on how to craft a future reality (that will affect us now) that is brilliantly powerful, successful, and beautiful. Lazaris takes us on a journey to activate very deep recesses in our brain — the recesses that are constantly manufacturing the future whether we're aware of it or not. He works with our dreams, breathing new life into them, so that they can repattern our automatic responses, so they are constantly working for elegance, happiness, and success. Awakened then is *High Magic*, the purest, most powerful form of magic. And then we cultivate our Spirit and our Soul to constantly pour their magnificent energies into our future. The result is a future not just bright, but brilliant. With a stunning meditation.

Creating & Cultivating Your Spiritual Family

Integral to our personal growth is our Spiritual Family — those who form the sphere of true, honest, spiritual support. On this tape Lazaris outlines why we now need a spiritual family; he also explores the power of such a family as it can provide an honest system of feedback, a means to deeper intimacy and greater love, and a viable basis for trust. Lazaris discusses the *Veils to Perception* that stand between us and a thriving Spiritual Family, and outlines a seven-step process to prepare us to step into the light of a new structure of love, intimacy, and caring. With a profound meditation.

Creating, Building, and Keeping Intimate Relationships

Our desire for intimate relationships — with ourselves, with another, with our inner and outer worlds — is the desire for love and for magic. In this beautiful discussion Lazaris throws light on what this magic is that we so fervently seek, how we lost it, and how we can get it back. He explores our resistances and then lays out a myriad of techniques — from the mystical Engaging of the Muse to the mundane, but crucial, understandings of how to fight fairly, how to deal with raw emotions, and how to achieve the real empathy of trading places with another (with your Higher Self there to help). What awaits is an unlimited frontier, a brilliant new wilderness to explore. With a magnificent meditation to *Engage and Entice the Muse*.

The Crisis of Martyrhood

An incredibly liberating tape. Lazaris begins with a clear definition of the qualities of martyrhood, its impact, and how it functions. He explores the sources of martyrhood from its role as a way to prove love, to the failed Grand Promise of the negative ego. He outlines realizations that can help break the hold of martyrhood (what martyrhood costs us in spiritual terms) and includes a seven-step process employing gratitude, a friendlier Subconscious Mind, and the love of our Higher Self to help us break free. The meditation engages the Old Man and a mirror to shatter the martyr and release us from its hold.

Crystal Cave:

A Healing Journey with Lazaris

A beautiful gift from Lazaris, this meditation tape is for times of beginning and times of completing. As we are about to embark on creating some success, we can pause a moment and meet with Lazaris in the Crystal Cave that he and Peny have been working in for decades. As we have finished the processing and programming for some wonderful shift and change in our reality, we can have a private interlude with Lazaris in the Crystal Cave. There we can talk of our issues and concerns. There we can receive the loving, healing, and succeeding energies to maximize success. There

Personal Growth Tapes

we can work with Lazaris to send those energies to those we love and to our world. With precision, step by step we make our way. Deep within the heart of a forest, deep within a crystal cave, we come to a sacred round of crystals. Within the round and beyond the pillars of crystal, Lazaris waits for us. Together we work magic. The 45-minute meditation is recorded on both sides of the cassette for ease of use.

Crystals: The Power & Use

Lazaris has often said that the re-emergence of the interest both in The Goddess and in crystals is integral to the consciousness of the New Age. Lazaris begins with a brief history of crystals and their beautiful spiritual uses in Lemuria: Sometimes they were packed with knowledge that exists to this day; sometimes they were used for healing. And before Lemuria retreated back into the Mist, some of the crystals were scattered for us to find later. He traces the unfortunate misuse of crystals in Atlantis, and the retreat of crystal energy in those times. Then he moves on to show us how to use most effectively the various kinds of crystals — amethyst, rose quartz, rutilated crystals — and tells us which shapes are best for very specific uses from generating ideas to physical manifestation. The meditation is a magical, yet practical, one in which we discover a crystal of our own in the more real meditative state.

Crystals: Tools to Co-Creation

Crystals are at the dew line of consciousness within the Mineral Kingdom just as we, the Mapmakers, are at the dew line of consciousness within the Human Kingdom. There is a kinship between the consciousness of crystals and us. Lazaris explores the wonder of crystals as allies to co-creating a positive future and to creating the New World. But crystals can be profoundly powerful companions in creating so much of what we desire and need now ... now, before that future and that New World. Against the backdrop of the Great Awakening, Lazaris explores the esoteric properties of crystals that allow them to be focal points and allies of co-creation and suggests that crystals can be gateways to the Mystical Other and all that that can mean. Then Lazaris discusses clear, rose, smoky, citrine, and amethyst quartz, and the mystery of elestials. Exploring the functions, he talks of generators, magicians' wands, healers' tools, tabular crystals, clusters and spheres, and "crystal-healing" crystals. Then there are the powerful Ancient Ones: Grandmother,

Grandfather, and Modulator crystals. Lazaris suggests some innovative ways to work involving crystal grids, matrices and templates. He also teaches us safe ways to make crystal elixirs and about the power of "sitting with an Ancient One." A beautiful meditation to welcome new crystals to our keeping and guardianship is included.

Deeper Magic:

Greater Rapport with Our Future Self

"Your Future Self, eager to know you more, is bountiful in its embrace." – Lazaris

Even when we have a living relationship with our most positive Future Self, there is so much more magic available to us when we expand our rapport. Active or reactive, we all have a relationship with our Future Selves just as we all have a relationship with the future. First, Lazaris explains why it is vital that we deepen our magic and that we develop a more healthy, active relationship with our Future Selves. His suggestions are compelling. In the discussion of this magical pursuit, Lazaris explores why we resist our Future Selves and he explains the power – the immense power – of the future. Then he talks of the favorable environment to attract our Future Selves to our reality. After a review of the technique for Blossoming our Future Self, Lazaris offers a seven-step process for developing and deepening greater rapport with our Future Self. Additional techniques include Dialogs with Future Self, Magical Workings with Future Self, Awakening Future Self Now, and Crystal Work with Future Self. *Meditation: Rapport with Future Self.*

Defining Moments of Love

Dazzling and uplifting, it can be an exquisite moment ... a defining moment ... in which you become whole and more; you become one. We invite you to a moment." – Lazaris

The evening begins with a delightful exploration: Not every moment we define as loving is truly a defining moment of love. But when we have those special moments that are defining moments, they can enrich your life with the greater and the grander of love, intimacy, and caring; we can make and work miracles ... miracles can abound in our reality and in our world's reality; and the magic of union can become a part of your reservoir and repertoire of magic. Lazaris clearly defines what comprises a defining moment of love and then delineates the components that compose such a moment. Beyond our hesitation and resistance, Lazaris then details a step-by-step ritual with which we can consciously create our own defining moments and become full beneficiaries of the bounty of defining moments of love. The evening concludes with an amazing meditation/ritual, *Ritual of Creating Defining Moments of Love*

Developing Self-Confidence

Self-Confidence is the ability to depend upon ourselves and our positively functioning ego. It is an ability to cope that is a synergy of trust, humility, hope and courage formulated in a specific way known as the Self-Confidence Quotient. Lazaris explores how to increase the components

of trust to arrive at the highest possible Self-Confidence Quotient and how to slip out of the payoffs that rob us of the confidence we need to combat the Tyranny of Loneliness. Lazaris also outlines the qualities of two levels of self-confidence and gives us a dynamic *Shield of Confidence Meditation* to instill and activate these components. He concludes with a discussion of the *Grand Promise* and the *Spiritual Promise* — and notes about the validity of The American Dream.

(The Lazaris video on Self-Confidence also has an audio version. The audio version of the video is called Developing Self-Confidence II.)

Developing & Utilizing Our Temporal Lobes

Our Temporal Lobes function as if they were a second set of familiar senses and as modulators to our common and unfamiliar senses, too. They modulate our emotions. With active Temporal Lobes, we can open gateways to magic and avenues to miracles; we can find new motivation with new direction and design. We can find the answers we seek. We can learn to access, develop, and utilize this magical gateway and avenue. We can use the electromagnetic energy that is all around us every day to activate and open our Temporal Lobes and to empower ourselves and our lives with new depths and heights of success and happiness. Some are born with Temporal Lobe Sensitivity (TLS). Others of us develop it as adults. Lazaris explores the signs and signposts. He discusses what we all need now for such development. He offers precise and incredibly powerful techniques: Temporal Touch, Temporal Visualization and Touch, The Door and the Stranger and more. The phenomenal *The Door and the Stranger* meditation is included.

Discovering and Engaging the Elegance of Creating & Manifesting

Our work with consciously creating and co-creating can be lifted to greater levels of achievement; our resonance work can be richer with more fulfilling success and happiness. And our happiness can lift to joy and peak with ecstasy. Our desires can blossom, becoming splendid desires, as we find both richness and noble pride in the ways of living our lives. There is so much we can gain, there is so much we can garner, as we discover and then engage the elegance of — as we immerse ourselves in the resonance of our elegance and as we touch and are touched by the seed of elegance within — creating and manifesting. Lazaris opens the evening's discussion with a cursory exploration of why the elegance is so valuable and then moves into a thorough exploration of the components that comprise both our elegance and the elegance of creating: *grace, beauty, dignity, dynamism, inspiration, eminence, and excellence*. After this lively and fun look into the mystery of elegance, Lazaris guides us upon a powerful meditation to seek, to receive, and then to hold the gift of elegance within our hearts. The gift of elegance comes from "the hand of the divine." The magical meditation is followed with a step-by-step process for discovering and then for engaging this elegance in our work with creating and manifesting. It is a powerful evening; it's a magical one. Meditation: *Gift of Elegance*.

Discovering the Adult

True adulthood is a synergy of the *Free Child, Curious Adolescent, Nurturing Parent, and Supportive Positive Ego*. The true adult has a flexibility of identity and ideals, values and principles, consciously creates fun, and has an organistic trust of the Whole Self: its intellect, intuition, emotions, and body. The true adult constantly builds self-esteem and impeccability and voluntarily takes responsibility. Lazaris outlines steps to making the decision to become a true adult, and maps a seven-step process to achieve it. Once attained, true adulthood can move even into the *Expanded Adult*, a state of beingness from which one can absolutely have an impact on the world. Beyond that, there is a form of adulthood so rarefied it is beyond language and has no name. With a wonderful meditation to make the choice for true adulthood.

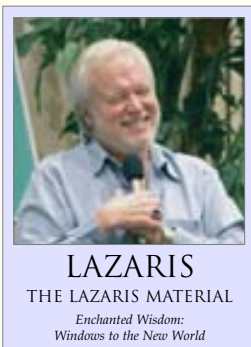

Discovering Your Subconscious

We may visualize it as a library or a labyrinth of corridors, a computer room or as the Underworld. However we see, it is consistent and literal, and it is the driving force in manifesting reality. A friendly subconscious can be our greatest ally; an unfriendly one, our worst enemy. Lazaris wends his way through the fears of the subconscious that have been given us by religion, government, education, psychology, and our own personal ego and then dispels the myths by showing us how the subconscious really functions, what it does for us, and why it's there. Lazaris creates access points using touch techniques, power objects, photographs, or paintings and shows us how to talk to the subconscious in symbols. With a seven-step process and a powerful meditation we learn how to re-orient our subconscious to be a positive, friendly ally.

Dominion at Work: Engaging the Elements

Dominion is one of the most important concepts in metaphysics, and with this tape Lazaris takes the concepts of dominion and gives them breath, a fire, and a reality-changing life. Connecting these concepts to The Elements — Fire, Earth, Air, and Water — we attain a force which can help us break through fears, doubts, failure, and pain to become much more of who we really are and are meant to be. The exhilarating *Elements Meditation for Dominion* is followed by Lazaris' seven-point process and techniques for engaging the very force of dominion itself: The *Powers of Perception Technique* for exploring projection; resonance and sympathetic magic; creating physical and meditative spaces for The Elements; and High Magic.

Personal Growth Tapes

the Counsel of the Muse, of Glamoury, of Ancient Ones, and Shining Ones. It is truly a beautifully magical recording. With a powerful meditation for *Embellishing Our Magic*.

Embracing Your Legacy of Love

Our personal legacy of love defines so many of our relationships in life. That it defines our loving relationships seems obvious. But our legacy of love says so much in defining our relationship with success and happiness, for example. Its voice speaks loudly in defining our relationships with magic, with freedom, and in defining our overall relationship with living a rewarding and meaningful life. During this powerful discussion, Lazaris explores the seven components – the seven benefactors – that contribute to our legacy of love. From our biological heritage (the yoke we accept) to our spiritual heritage (the mantle we denied), there are the following components: *Childhood Twisted Love*, *Adolescent Fantasy Love*, the *Wounded Soul*, and then the *Grown-Up Manipulative Love* and the *Matured Abandonment Love*. Lazaris further explores how our legacy of love sets the dimension of love in our lives and how it alters our patterns of living life. The legacy we received from our personal benefactors can be changed so that the legacy that we live and that we then give to our future can be more positive and more productive. Lazaris offers means for transmuting and transforming the energies and forces of our legacy received so that our legacy lived and given can be so much more. He then focuses on four distinct ways of involving our new legacy of love in the working of magic and in the living of a rewarding and meaningful life. Meditation: *Carrying Your Legacy of Love into the Heart of Mystery*.

Enchanted Wisdom:

Windows to the New World

Awakening our genius and becoming wise ... keys to building a new structure of permission and authority to be powerful ... And yet the components of wisdom have been dismembered, and wisdom, forgotten. Lazaris discusses what has happened to wisdom and helps us lift the veils of our personal resistance – among them the Temptation of “One Problem,” the Resonance of Destiny, the Animism of Senses, the Dynamism of the Possible, the Complexity of Wisdom, and that “Something More.” New techniques include *Wisdom Catcher*, *Tests of Wisdom*, and *Wisdom Bundles and Crystals*. With the magic of *Enchanted Wisdom*, we can take a giant's step closer to the Possible Future of dreams – to the New World we are destined to create. *The Wisdom Catcher Meditation* is included.

Ending the Frustration and Destruction of Hidden Agendas

Lazaris explains how open agendas become hidden, even lost, agendas. He clarifies that not all hidden agendas are bad, but they are certainly all frustrating and potentially devastating. And he explains why, by their very nature, they must be that way. Beyond discovering the various categories of hidden agendas and the erosion and alienation

Earth Energy / Earth Power

In this landmark tape about power and energy of the Earth, Lazaris discusses a number of Earth's wonders and mysterious circles of power in all the hemispheres as well as standing stones and power points (like the pyramids) that lie along the Earth's “ley lines.” Lazaris follows this exploration with many techniques, including ways to find power places ~ and how to create one of your own. In a magnificent guided meditation, Lazaris helps us tap the very energy and power of Earth for programming and manifesting.

The Elegance of Abundance

In this tape, the companion of *Abundance: The Skill*, Lazaris explores the “art” of abundance: the elegance with which we create it. It is an exploration of our struggle with the guilt of having abundance and our difficulties with receiving abundance rather than always earning it (a confrontation for the negative ego). Lazaris also looks at the silent, destructive, hidden contracts that we have never to be more successful than our fathers. A journey of liberation that moves from our misconceptions about abundance to the imposing image of our biological family, this tape culminates with a beautiful and powerful meditation, *Elegance of Abundance*, to use over and over again.

Embellishing Our Magic

Once we begin healing our personal nemesis, it is as if a dam bursts or as if all the currents have been opened at once. There is a burst of greater light that can either illuminate or blind. In that light, there is a temptation to retreat. In the face of this temptation, it is time to move forward; it is time to embellish our magic. Our negative egos embellish things with fictions, exaggerations, and lies. Our magical selves embellish things with beauty. Lazaris guides us upon a lively and intriguing discussion of the temptation to retreat at this point upon our journey. Then he explores the several sources of beauty. From these sources, now resources, we can embellish our magic and we can embellish – make more beautiful – anything in our reality. With Lazaris, we can learn about engaging our soul and spirit, about opening to the domains within our unconscious, and about ecstasy in the pursuit of beauty. After a particularly powerful meditation, Lazaris explains several specific techniques: *Embellishing Crystal/Talisman*; *Magic Potion of Embellishment*; *Embellishing Night Dreams*, and *Seeking*

they produce, Lazaris offers us the most exciting and magical ways to end this very frustration and potential destruction. Meditation, *Ending Hidden Agendas*, included.

Ending Guilt

Guilt is a completely artificial emotion that paralyzes us into a loss of active caring, that putrefies into resentment, that numbs us with self-pity, and that keeps us imprisoned in the past or in a present that doesn't work. It may be sourced in a number of ways, from suppressed anger, expediency or manipulation, or by the denial of intimacy and caring. Lazaris gives a complete overview of this sometimes very difficult problem and charts our escape with a number of techniques and with the development of conscience, ideals, and compassion. Then he employs mirror and writing techniques to release them. A wonderful meditation and work with our Higher Self complete the liberation.

Ending Loneliness

Loneliness is a mysterious emotion — and a very “metaphysical” one. The original and ultimate fear is that having separated from God/Goddess/All That Is, we will not be able to return home. From this fear flows every other destructive emotion: doubts, guilts, depression, hurt, manipulation, and negative ego. Lazaris defines seven types of loneliness — from mourning and nostalgia to the Beautiful Sadness that precedes and follows spiritual breakthrough. He explores what the *Tyranny of Loneliness* means and how to transcend it, and includes a meditation to understand the components and function of loneliness — and to put ourselves in control of it for the first time.

Ending the Pain

It is often erroneously seen as foolishness, a sign of weakness, an indication of undeservability, and wrongness. In our tendency toward spiritual self-blackmail, it is a source of shame, an indication that we are not evolved. But pain — be it physical, mental, emotional or spiritual — is actually a synergy of the separation from and the longing for very specific things. Lazaris explores the clues that let us know we have pain to deal with: our self-punishment and self-sabotage, our attraction to violence or to others' sorrow. And he explores the *Masks of Pain*, which can include depression, loneliness, obsession, betrayal, pride, and anxiety, and outlines seven techniques, including a guided meditation and a dream technique, to really end the pain.

Ending Self-Punishment

Self-Punishment at its core is almost always an attempt to avoid being punished by others. Through the haze of projection and identification that makes all others seem to be either a parent or a child, we become trapped in a downward spiral of seeking approval and outside validation that often leads to addiction to excesses in many forms. It is complicated by the attempts of society and the religious/metaphysical community to nobilize struggle, suffering, and sacrifice — and by a lack of knowledge of negative ego that

leaves us vulnerable to its attempts to hurt us. Lazaris' crystal clear explanation of why we punish ourselves and the forms that punishment takes is followed by a seven-step process that involves knowing your enemies and friends (including your Higher Self and Counselors), the monitoring of motivation and impact, and a wonderful meditation to end our own self-punishment.

Ending Self-Sabotage

Self-sabotage: We don't know what we did to produce it, we move instantly to self-hatred and depression, and we feel powerless. We experience a shattering breach of confidence and panic in the face of the possibility of an avalanche. Rooted in symbiotic guilt, personal secrets and lies, shame, and undeservability, it seems to come as if out of the blue. Lazaris explains the nature of self-sabotage and provides a seven-step process to prevent it. Included is the *Golden Blanket Meditation* for protection, in which the Old One also takes away the elements that create an environment conducive to self-sabotage. Techniques include: *Lifting Up and Out of the Body*, *Breaking the Chain of Depression*, and *Surrendering to Miracles and to Love*. A wonderful tape to listen to in the midst of self-sabotage — and powerful preventive medicine.

Ending Shame, Part I (Infancy)

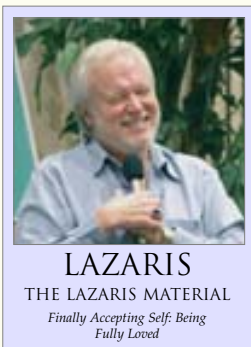

Shame is a problem common to everyone, and it comes in four waves. This tape deals with the first Wave of Shame, which comes in the pre-verbal period of infancy. Its causes are many — from abandonment and abuse to being wronged — and the trauma of it constructs a Dark Shield that stands between us and the pain — but that also stands between us and our Higher Self and God/Goddess/All That Is. Lazaris talks about the *Shame of Being*, the *Shame of Doing*, the *Shame of Living*, and the *Shame of Succeeding* that we will all encounter on our Journey of Awakening. He works with us to explore the complex emotionality of shame and offers techniques for healing the inner child and for reawakening the passion, perception, conception, and imagination we have lost. With a life-renewing meditation.

Ending Shame, Part II:

Psychic Contracts of Pain (Childhood)

Suggested Requisite: Ending Shame, Part I (Infancy)

We often wonder where our strange “contracts” come from, and with this tape Lazaris offers both the answer and the solution. In the childhood period we develop the contracts in response to the shame dumped by parents and others who abandon or abuse us — contracts that say we'll never be successful, that we will exonerate the abuse of adults by becoming abusive ourselves — or we will clone them altogether and become replicas of the subhuman or superhuman parents who passed their shame along to the next generation. Finally, shame may cause psychic leaks — holes in our energy fields — that may result on one end in lowered energy and headaches, and on the other, a shortened life span. The meditation heals the pain of this *Wave of*

Personal Growth Tapes

Shame and puts us on a path free of the contracts that rob us of ownership of our own lives.

Ending Shame, Part III: Those Adolescent Years

Suggested Requisites: Ending Shame, Part I (Infancy) and Ending Shame, Part II: Psychic Contracts of Pain (Childhood)

Panicked by impending adulthood, aching from the Wounding of the Soul, reeling under an intensity of emotion unknown before, the Adolescent experiences ever-deepening shame. Intense enough to alter body structures, brain chemistry, and DNA, it can affect the way we think and feel for life. Not only is there the intensity of puberty itself and the rigidity of the absolutes of adolescence, there is the identity crisis of the teenage years, and the trauma of high school. Lazaris' discussion of the shame of the adolescent years rings with compassionate authenticity, and his meditation helps us give back the shame of judgment and abandonment and abuse that was forced on us in those years. He culminates with a process to work through the trauma of those adolescent years and to become free at last.

Ending Shame, Part IV: Adult Shame

Suggested Requisites: Ending Shame, Parts I, II, and III (Infancy, Childhood, and Adolescent)

This is the level of shame that is the most destructive of all, for this is the level from which we pass our shame on to others. Lazaris outlines a powerful process in which the original shame, now internalized, is given back to its original source, leaving us finally free. Then we re-establish the principles, ideals, and integration that were destroyed when the original shame truncated the development of natural conscience. Lazaris helps us come to peace with the "necessity" of shame that came with the loss of natural conscience — and helps us understand that in order to have an appropriate sense of remorse we must see ourselves as being forgivable, capable of character, and worthy of a relationship with God/Goddess/All That Is. The meditation to heal this

High magic is the magic that is sourced – not resourced, but sourced – in love, whose only technique is choice. – Lazaris

Wave of Shame leaves us in position to recapture all it has taken from us.

Ending Your Addiction to the Past

The Vortex of the Goddess brought many magical gifts. One of them: the end of the controlling grip of the past. But many of us are still trapped by the patterns, beliefs, and messages of the past, and we will throw into the future that to which we are addicted. Lazaris helps us understand the reasons — positive and negative — why we are addicted. Then he takes us to an inner space of solitude in the Unconscious Mind to plant seedlings of gifts and powers, giving the old dreams to the *Dream Stealers* and the power of success to the *Dream Weavers*, who will know what to do. Using daydreams, meditations and psychic flashes, we can craft a new life. Techniques include: *Eating the Past* and *Intercepting the Future*. The meditation breaks the ties.

Engaging the Mysterious Magic of Claiming and Demanding

In many ways, all magic is mysterious. Lazaris outlines how Claiming/Demanding Magic is uniquely so. We cannot just mouth the words: We need to learn the skill of claiming, and we need to develop the art of demanding. This magic is a "self-secret," revealing itself to those who can see with other than their eyes. Lazaris explores the *Paradox of Right Action*, for it is here that the power of this mysterious magic lies. Within this paradox we confront the negative ego seductions of entitlement, vindication, and greed as we encounter the positive Self's opportunities of empowerment, righting of wrongs, and altruism. Beyond traversing this maze, Lazaris guides us to the various components that provide the foundation for claiming/demanding that can be truly magical and profoundly powerful in our workings of magic. This discussion includes the step-by-step explanation of the *Ritual: Skill of Claiming* and of the *Ritual: Art of Demanding*. Following an intriguing meditation, Lazaris concludes this workshop with specific techniques to ground and apply this mysterious magic so that we can make it a part of our magic. Meditation: *Through the Maze of Claiming/Demanding*.

Escaping the Entrapment of "Perfection"

The seemingly innocent demand of perfection covers an array of hidden agendas, and produces a devastating chain reaction of competition, control, martyrhood, and self-punishment which results in a life lived always *in potentia*. It is also one of the most profound nemeses in the search for the Soul and the Soul's Path. Lazaris explores how the demand for perfection is the antithesis of creativity and intimacy — and how it cultivates outside validation as a source of self-esteem that is always doomed to fail. Techniques include a series of screening processes and interactions with our Higher Self in which they *lift the Mantle of Perfection* and help us *rewire our brain*. He includes a formula for breaking the chain at any of its seven links, and a meditation in which our Higher Self transforms the energy of perfection in their hands and gives us the gift it has become.

Escaping the Suffocating Web of Anxiety

Anxiety does a great deal more than produce the emotional and mental distress that can lead to physical complications, as we are so often told. Anxiety generates a series of particular chemical reactions in our brain and in our endocrine, lymphatic, and immune systems that can be debilitating. Lazaris begins by defining the *Five Faces of Anxiety* — which range from inappropriate trust, the expectation of error, and undefined emotions to the anticipation of humiliation, abandonment, and rejection — and even includes anxiety as a response to unprecedented happiness and fun. He also explores the *Four Conditions of Trust*, and our failed attempts to try to handle anxiety by “Perfection,” which is impossible, or with various addictions from controlled substances to sugar. Lazaris includes tools, techniques, processes, a “Heart” Blending with Lazaris, and the powerful *Whirlpool Meditation* to escape anxiety.

The Essence of Creation: Touching Personal Greatness (Evening Only)

The 2002 culminating weekend began with a powerful overview of where we have been during the Year of Creation/Manifestation and with a clear focus on where we are going in the years to come. Lazaris suggests that to work with the Essence of Creation and with the Touch of Greatness, we first need to retrieve what we have lost of our creativity. Then we need a sense of the sweep of personal greatness, and then we need a map ... a Map of Magic, that can guide us and that we can easily follow. During this evening portion of a phenomenal weekend, Lazaris lays out where we can find our lost creativity and he outlines the sweep of personal greatness. Using portions of each of this year’s evening discussions, Lazaris creates a stunning Map of Magic. During this evening portion, he offers us all the steps we need. The ensuing days of this quest were rich with experience and magic; they were ripe with miracles. The recorded evening of this quest holds all the essentials to repeat the journey or to begin a new exploration in earnest. The Friday evening meditation – *Preparing To Receive the Touch of Greatness* – is included.

Expanding Success Exponentially

Exponential Success: Success that expands in all directions at the same time. How to accomplish it? Lazaris talks about a crack in reality that is filled with light, and how we can widen it to “wiggle through” to exponential success. A seven-step process includes work with chemical and electromagnetic changes in the brain that shift each time we create success. And the power of success creates a resonance that draws more success like a magnet. *The Condensation of Success* means squeezing every ounce of meaning from it that we can. Creating an alliance with Success and discovering the *Essence of Success*, we slip through the crack into exponential success that is moving in all directions simultaneously. The meditation is phenomenal, and Lazaris also includes techniques for using the *Success Cube* and for *Dialoguing with the Personification of Success* itself.

Explore the Wonder: A New Kind of Intimacy, A New Kind of Love

Wonder is a place to begin anew, a place to deepen love and intimacy, a place to seek that which is always surpassing itself. “Explore the Wonder” includes a discussion of the power of wonder to awaken magic and beauty, aliveness, enthusiasm, and passion. Lazaris helps us identify our resistances to wonder — which may include fears of the unknown and of solitude, as well as our fear of the depth of human dignity with its innate capacity to sense tragedy. *The Valley of Wonder Meditation* is followed by Lazaris’ instructions for “grounding” wonder and for working with the *Luminous Intent* that underlies even our mistakes. A groundbreaking tape.

Finding Our Lost Dreams: Magical Keys to Abundant Success

Lazaris explains that we are currently at a powerful plateau in our never-ending quest for greater happiness and success; we are ready for new heights of success and for new horizons of abundance. With that introduction, Lazaris lays the foundation for understanding the value of our lost dreams: new resolve, threads of Oneness, finding more of ourselves – our Valued Selves – and being able to forgive the “unforgivable” in our reality. To successfully utilize our lost dreams, Lazaris suggests that we need to achieve three things: Healing our Reluctance to face our lost dreams; Facing our Objector/Protector, and Willingness to Be Abundant. And Lazaris offers new insights for healing, facing, and for embracing our willingness. Free of these encumbrances, we can work with the new and exciting techniques that Lazaris details: Lost Dreams Meditation; Recounting Dreams; Dance of Wills; Crystal/Talisman Work. Includes a magically powerful meditation that is both mystical and liberating. *Meditation: Lost Dreams Meditation*.

Finally Accepting Self: Being Fully Loved

Self-Acceptance is magical: It can renew our talents, deepen the intimacy we have with our Soul, Spirit and Higher Self, and illuminate already luminous dreams and optimal futures. But our attempts at self-acceptance run into a collection of paradoxes involving choice, love, sentiment, the perception of strength and weakness, and paradoxes of pleasure that can rise to enjoyment or descend to addiction. Lazaris helps us wend our way through the paradoxes to discover the components of self-acceptance that can set us free, and the capacity of being fully loved that can complete us. The *Chamber of Self-Acceptance* and the technique of *Leaning on the Love* bring us closer in our relationships with Unseen Friends. Finally, we present ourselves to God/Goddess/All That Is and are fully loved.

Personal Growth Tapes

Freedom from Self-Pity

"It is not Time and Space that stand between your desires, expectations, and imaginings and their manifestation. It is self-pity."

— Lazaris

It began as an anesthetic, a way to deal with the pain of childhood, but it became the glue that holds together our negative patterns and robs us of any real possibility of change. Lazaris helps us clear the nobility, martyrhood, and victimhood so intricately linked to self-pity — and explores the relationship of desire, expectation, and imagination and the self-pity that can result when they become unbalanced. He helps us understand and heal the self-pity that was generated in childhood, outlines a seven-step process to release it, and culminates with a healing Higher Self meditation to *crush the seed of self-pity lodged behind the heart.*

Freeing Yourself from the Unspeakable: Jealousy, Envy, Rage

They are hidden from view, living behind a mask, dwelling in a shadow, denied. Ashamed, we do not speak of them, and try to pretend they are not there. But they contain wonders: Within them lie truths, untapped energy, ineffable and inexhaustible magic, and a spirit that can allow us a life textured with elegance and grace. Lazaris' compassionate understanding of jealousy, envy, and rage is matched only by the effectiveness of the tools he gives us for freeing ourselves. The meditation takes us down through the experience to a point where we can break free. Lazaris includes a visualization of a Forest Journey in which we find a Wild Animal that absorbs our rage — and techniques for revealing the treasures and truths of the Light Shadow. A tape and meditation that offer a priceless freedom.

Generating Abundance as Never Before

There was a time when we did not know abundance, because we did not know our desires and dreams. There was a time when we lacked the willingness and did not choose abundance. But those times are not now. It is not for lack of willingness or the lack of choice that abundance still eludes us. Lazaris begins with the basics that so many others who speak of abundance ignore. He builds a solid foundation upon which he unfolds the resolutions and the knowings necessary to construct our personal Abundance Machine. The discussion is light, fast, and delightfully informative. Once we can build our Abundance Machine, we

need to find the key — the missing key. With that key — an ignition key — we can turn on our Abundance Machine, and it can start churning out abundance — physical, emotional, mental, and esoteric abundance — as never before. Perhaps we have lost our personal key to abundance in our old patterns or in the unexplored regions of our nemesis. It could be that our missing key is in the grief that will not end or in the malady that will not mend. In a powerful meditation, we can find our key. We can turn on our Abundance Machine. Lazaris concludes the evening discussion with an array of techniques that can ground our success and our abundance more profoundly. He includes techniques that involve crystal work, placing abundance in our Unconscious Mind, developing rapport with abundance, and several others. Elegant meditation included. *Meditation: The Three-Tiered Pools: Love, Freedom, Abundance.*

The Gentle Walk: Step-by-Step Intimacy with Your Higher Self

Lazaris has often said that the lifetime in which your Higher Self becomes real for you is the lifetime in which you go home. In a consensus reality where many consider the Higher Self a technique, Lazaris gives us this magical tape to bring the Higher Self into crystal-clear focus, and goes with us through a ritual called *The Gifts of Intimacy* to allow us to have a contact with our Higher Self that is tangibly real. The Gentle Walk meditation with the Higher Self — the origin of the yin-yang symbol — brings us into a shimmering communion. With other techniques and rituals, including one with our *Spirit Animal*, we can craft an ever-more-intimate relationship with our Higher Self. A very beautiful discussion and a luminous meditation.

Giving Voice to Your Soul: Greater Spiritual Depth

Once the Initiations of the Soul were conscious, the Soul's voice clear. But in a consensus reality which has reduced it to myth, the Soul, with its gifts, reaches us the only ways it can: through the enchanted moments and through the crises of our lives. On this tape Lazaris outlines the *Seven Faces of the Soul — the Name, the Power, the Eternal Youth, the Wounding, the Shadow, the Double and the Remain* — and provides the means to create the *Sacred Place* where our Soul can talk to us. The meditation is a treasure: It creates a beautiful resonance in which the Faces of the Soul converge into one and speak to us. We see through their eyes the love God/Goddess/All That Is has for us. Lazaris completes the tape with a beautiful Blending.

The Great Awakening

There is a Great Awakening happening — a new wave surging upon the horizons of our reality, growing exponentially. The domain of Spirituality is awakening, the Earth is waking up, and crystals from all parts of the world are waking up. Humankind itself is waking up as never before. We, among the larger sweep of humankind, are awake, and it is now time for us to awaken at a deeper level: Now is the time for our *Great Awakening*. Being there for us at our time of

awakening, Lazaris lays out the three knowings: knowing what puts us to sleep, knowing the map of seeking without responsibility, and knowing that fundamental choice to be less than a winner. He speaks of our turning to our Spirituality for motivation and momentum – and of the doing: making a new fundamental choice and stepping more solidly upon the map of seeking with responsibility and accountability. Knowing, turning, and doing, our awakening can be a Great Awakening. Following this powerful discussion, Lazaris offers us a beautiful *Ritual of Great Awakening*. Its stages: Initiation, Challenge, Indebtedness, Cloaking and Cocooning in Love, Subconscious, Inner Vision, Great Awakening. Lazaris concludes with a discussion about finding and working with our Great Awakening Crystal. *The Ritual of Great Awakening* meditation included.

The Great Circle of Love: Magic & Miracles

We fear losing the focus of our love. We fear losing the trust of love. We fear losing the mystery and mysticism of love. We fear we will be forever bound by our yearning for love ... more love ... greater love. Lazaris unfolds an incredible ritual that can respond to and heal so many of our fears around and about love. There are five rounds in the Great Circle of Love. Step by step we can move through the outer two rounds and then enter the more sacred rounds of Soul and Spirit. With intimacy, passion, inspiration, and wisdom we can enter the inner round of transcendence, caring, healing, and choosing so that we might take our stand upon the mound of love. The experience is beyond words. The meditation (The Great Circle of Love) can be life-changing.

Greater Success: The Forgotten

Ally of Our Subconscious Mind

With this alliance, so much wonder can come to us. We can grow and change with elegance, excellence, and by magic. We can access sources and resources to enhance the techniques we know and to empower techniques we are learning. As well, we can enhance our relationship with our Higher Self, Soul, and Spirit and our partnership with God/Goddess/All That Is. An added treasure: We can discover the love ... yes, the love ... that our Subconscious Mind has for us. Lazaris begins with outlining the preparation: Hurdles to overcome and move beyond; Foundation of Self-Trust; Foundation of Connection with our subconscious self; and the Resonance of Knowing. Then Lazaris builds the “illumination” to strengthen our current relationship with our subconscious so we can initiate expanding that relationship to discover the potentials of alliance. During a powerful meditation, we greet our subconscious self and speak with our eyes; they guide us to the Forbidden Zone. Planting the seeds, an alliance can begin growing, building, and expanding. Lazaris concludes the evening with specific powerful techniques to allow the alliance to become more real: Working with Crystals; Working with Amulets & Talismans; Working with “ash, seeds, and a basket, torus, and treasure chest” while in the Forbidden Zone. A powerful discussion ... a profound opportunity. *Meditation: The Forbidden Zone*.

Handling Crises to Maximize Success

Beginning with a concise and illuminating definition of crisis, Lazaris explores the three distinct kinds of crises and focuses on what causes crisis in our lives. From this base, he explores ways of handling crisis with three specific steps: Anticipating Crisis, Containing Crisis, and Overcoming Crisis. Lazaris explains that we can do much more with crises: Beyond only handling them, we can create an alliance. With an Alliance with Crisis we can use its energy and force to maximize our success. Suddenly what has previously been filled with fear and pain – and what we thought we must avoid at all costs – can become a viable part of our spiritual growth and a profound part of our success and happiness. Lazaris explores four distinct ways that, beyond handling crises, we can create an alliance with them: The Mystery of Spiritual Challenge; Crystal Work: Crisis Crystals; Beyond the Threshold of Crisis: Shrinking & Turning Crises; and Crisis and Our Future Self. We can learn the step-by-step approach with each technique. When he talks of crystals, Lazaris specifically recommends crystal spheres and how to work with smoky, citrine, and clear quartz as well as how to work with tourmalines and other beryl crystals. *Meditation: Beyond the Threshold of Crisis*.

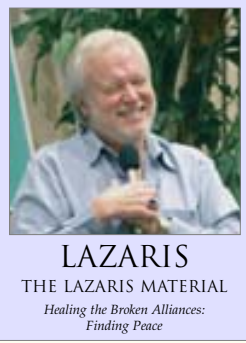

Harmony: The Power Vortex

Feminine and masculine energy (not gender, but energy) are mysteriously powerful, and on this tape Lazaris explores the true nature of both and the creation of the Power Vortex that occurs when they are in harmony. Lazaris connects these energies to their respective qualities and chakras and introduces us to the Animus and Anima. He helps us determine where we are out of balance and discusses the devastating impact of male chauvinism on both sexes. The Power Vortex meditation brings both personified energies together in harmony, and an immensely powerful synergy is born which can catapult us forward in our growth. Lazaris includes a beautiful blending as well.

{This tape has a companion: Balance: Releasing the Full Self.}

Harnessing the Power of Our Unconscious

In this lively and fun discussion of the wonders and mysteries of our unconscious mind, Lazaris explores the Power of Being Conscious, the Mystery of Choice, and the alchemy of combining conscious power and mysterious choice. The result: an unstoppable force of magic. Lazaris lays the foundation as he discusses familiar access to our unconscious mind: Underworld and Causal Plane techniques are reviewed and programming and dreaming techniques are explored. Among them, Lazaris talks of the Temporal Lobe Doorway, the Unconscious Programming Grid, the Pillars of Strength & Mercy, and of the Tonal Creation Manifestation Entry. Upon the foundation, we add a precise resonance and we are ready to harness the power of our unconscious. Lazaris concludes this rousing discussion with four specific techniques including the Focal Point technique and the Seven I's technique. *Meditation: Harnessing the Power of the Unconscious*.

Harnessing the Power: Magically Ending Martyrhood

Part of not being martyred is being able to extricate yourself from martyrhood magically — instantly, deliberately, and easily — without struggling, without self-deprecation, and without self-hatred. This is the tape that does it. Lazaris begins with a description of the characteristics of martyrhood and traces its varied causes from the failure of the Grand Promise, to the desires for vindication, exoneration, and control. Then he lists the damage it does: the arrogance, stubbornness, and righteousness that attend a life chained to the past and run by an inner child or adolescent — an out-of-kilter brain chemistry, a depressed immune system, a depleted imagination. The solution: A magnificent meditation that magically moves you out of martyrhood, and a seven-step process done over one to two weeks where the martyr is disengaged and its immense power taken back to be used for creating the best of dreams and the most joyous of destinies. A resource that makes the end of martyrhood completely magical and not more than 30 minutes away at any time.

Healing Our Alliances of Love

“With the healing of alliance, your current loving can take on new richness and can generate a greater sense of being with more powerful and more profound impact. Your love can become more real with meaning and value, by choice, and with reflection.”
(Lazaris)

We always seek greater love, and we always look to expand the love in our lives. But how do we do that? We could focus on just giving, responding, and respecting more. We could look to do more rejoicing in the presence and more experiencing of the goodness, truth, and beauty. And then we could do more and more and ... greater love and expanded love can be exhausting and dangerous. There is another way: We can discover our alliance with love and then heal it. Each of us has an alliance that Lazaris suggests is like a dance. How do we dance with love? Once we understand our personal alliance — our private dance — we can heal it. With the healing of our alliance with love can come greater love, expanded love, and new love in our lives.

During this magical evening tape, Lazaris explores the merits of such healing and then unfolds the components that contribute to and then that generate our personal

alliance. From encumbrances and entanglements to anchors and tethers, from fantasies to fantasias, and from who in us responds to love, we can unravel our current alliance. In an altered state, we can enter the metaphorical heart of love to allow the magic and the miracle of healing. Out of the guided meditation, Lazaris concluded this evening recording by offering specific techniques for grounding and then expanding the healing. Alliance healed, love grows. Love grows, and we become more of who we truly are. It can be magical; it can be miraculous. Meditation included: *Healing Alliance with Love*.

Healing Ourselves and Our World with Resonance

Resonance: It is the source of all creation in the universe, the force that can turn words into action, desires into reality, and with which we can attain true dominion. More and more, it is resonance and the future that will determine the reality — not logic and the past. Lazaris outlines the *Seven Principles of Resonance*, the *Standing Wave of Resonance* that is created from the interaction of two or more frequencies, and the Four Concepts that make healing with resonance more possible. The Healing Meditation on this tape is a phenomenally powerful, an exquisitely beautiful visualization in which you and your Higher Self work with resonance for healing.

Healing the Broken Alliances: Finding Peace

When magical alliances are mended and restored, familiar and unfamiliar means to achieve the bounty and autonomy we seek seem to open. New methods of gracious giving seem to appear. Inventive or innovative ways of actively participating in living the loving, magical life we desire seem to come as if out of the blue. During this magical discussion, Lazaris lays the groundwork for healing our broken alliances by exploring what can come from such work: We can open another doorway into the realm of mystery, and we can find an *Elixir of Love's Magic*. And there is so much more. Healed alliances can be a tether for entering and returning from the depths of mystery and from the heights of magic. Mended alliances can lead to clear avenues for dealing with the grand mystery: our future.

With such work, we can sharpen our magic, create greater abundance and prosperity, and heal our pain in new and more productive ways. In an enlightening discussion, Lazaris points out the dynamics of our mystical alliances that are there with birth, but that get broken in the function of living life. From the dynamics of alliances, he moves to work with the dynamism of broken alliances: What goes wrong when these alliances break. With this groundwork, we can build a foundation for healing these all-important alliances. Lazaris concludes the discussion with techniques that include *Interlude with the Ancients*, *Healing Bonfire (Good Fire)*, and *Elixir of Love's Magic*. During the meditation, Lazaris guides us to healing our broken alliance with our Higher Self. It is truly a magical and mystical experience that goes beyond words. Meditation: *Elixir of Love's Magic*.

Healing: The Nature of Health, Part I

This tape and its companion map the very nature of illness and healing that can be a boon for those seeking health, and a backdrop of understanding for those who wish to maintain it. Lazaris lends a tremendous clarity to the issue of illness — defining it as alienation, disorientation, disorder or failure — and outlines the purposes of illness from the coded messages they may be from our Higher Self to the release of tension they sometimes are. Lazaris also outlines a Continuum of Healing methods from the most barbaric, through the allopathic methods standing somewhere in the middle, to rarefied spiritual experience of spontaneous healing which stands at the pinnacle. The *Elixir of Health Meditation* is phenomenal.

{This tape has a companion: Healing: The Nature of Health II.}

Healing: The Nature of Health, Part II

Suggested Requisite: Healing: The Nature of Health I

Lazaris continues the exploration of the Nature of Health with a map of the body as three chakra systems (overall body, upper body, and lower body) and about how to interpret maladies in different parts of the body as they relate to these systems. He discusses the joint system, the external and internal organs, and their messages. He explores a number of specific conditions ranging from glaucoma to cancer — and includes a thorough discussion of AIDS which completely dispels any notion of bigotry toward the homosexual community. He outlines a healing process that can be fully conscious and guides an incredible meditation based on the Tree of Life of the Qabbalah.

Healing Our Personal Nemesis:

Keys to Abundance

Lazaris begins this spectacular evening by pointing out why we are truly ready to heal our personal nemesis and by showing us why we need to heal that “enemy that we never grow tired of.” From the general consensus meaning of the word, nemesis, we turn to find the first clues within Greek Mythology and the story of the goddess, Nemesis. Lazaris points out that our nemesis is the part of us that wants to “right the wrongs” through requital, which has become the retribution of revenge. Our nemesis is not our negative ego, he adds. Our weak Ego-I is our enemy and it seeks retribution; it seeks to punish and to inflict pain. But it does not seek justice — a necessary component of our personal nemesis. After we discover what our nemesis is, we can prepare to heal it. We can ask and answer questions: “What do we feed our personal nemesis?” ... “What is the retribution we have experienced?” ... “Who is our nemesis?” The beauty of this evening becomes apparent when we work with our Higher Self and with Lazaris to actually initiate the healing of this seemingly timeless enemy: our personal nemesis. This evening is more powerful than is at first evident. It will be an evening to which we will return frequently to benefit from the magic. *Meditation: Healing Personal Nemesis.*

Healing the Scars of the Past:

Charting a Course for the Future

There is much that hurts us in our lives, but not everything that does damage leaves a scar. But some things do, and the scars leave us with haunting memories and sorrow that eventually lead to the very serious damage of judgments of ourselves and others, a debilitating lack of emotional intensity that robs us of magic, and hidden agendas that wreak havoc with our programming. The scars of the past rob us even of what we have to give, and they offer nothing positive in return. Lazaris offers strong, beautiful techniques to work with and a powerful healing meditation to free us from our haunting. He culminates with a process to chart a loving, spirit-filled course for the future.

I Deserve!

Deservability is a “tough nut to crack” for a number of reasons: We’ve been taught to feel it, we have symbiotic and religious guilt, we are haunted by secrets or shame, and we are faced with a “Catch-22” around deservability that says that if we really deserved, it would already have happened. Lazaris explores the guilt, resentment, self-punishment, addiction, alienation, self-pity, and illness which are a result of undeservability and gives us seven techniques to help resolve it. A secret: Undeservability cannot be fully released without help, and in the meditation an Unseen Friend takes the problem after we’ve cleared out the rest.

The Incredible Force of Forgiveness

Whenever we forgive ourselves or others, a piece of our root emotion — anger, fear, hurt, loneliness, despair, hopelessness, shame, helplessness — dies, and a piece of our future is born. Forgiveness is a force that absolutely always produces change. On this tape Lazaris reveals not only the power of forgiveness, but the sheer force it has — a force that we can tap into and use to heal even the most painful events of our lives. The seven-step process that Lazaris designs touches on the grief, rejection, anger, and guilt that always accompany the death of anything — even that which we need to forgive. In the meditation we find a Friend who takes us to a clearing in the forest where we forgive one who needs our forgiveness — and then we are filled with the Force of Forgiveness which illuminates the piece of divinity — the piece of God/Goddess/All That Is — within us.

cism. Together, hope and joy generate a chain reaction alchemy that can lift our magic and lift our lives to new heights of wonder and success. During this magical evening tape, Lazaris explores the value of this special magic of hope and joy, and he explains what has happened to each in our current world – within our consensus reality. Then he offers a powerful view of how the alchemy of renewed hope and joy can truly change our life. Lazaris talks of the evening as a defining moment in the development and maturing of our magic and in the unfolding of dominion in our lives and in our world. Midway through the discussion, it becomes excitingly clear: Hope and joy hold an incredible magic. Lazaris then offers us an array of techniques to bring hope and joy and its magic into our lives. Such techniques include: *Dreaming Hope and Joy*, *Crystal and Talisman Technique*, and *Conscious-Unconscious Link*. Meditation: *The House of Hope and Joy*.

Inner Peace

This tape is a thorough exploration of the Blockbuster Emotions — hurt, anger, self-pity, and fear — and of the less obvious Bugaboo Emotions that don't get much attention, but are actually the ones that erode our inner peace: worry, anxiety, doubt, and confusion. One of the wonderful things about this tape is that it clarifies so much about the amorphous nature of the Bugaboo Emotions. Lazaris delineates the factors of anxiety, of which there are many, and explains what worry is really made of. He also gives "Tonics" for every one of them, and designs "Antidotes" we can use the minute we start having trouble with them. He culminates with an etherically beautiful meditation for regaining our sense of Inner Peace.

In Search of Miracles

A miracle is a living energy, a process — an amplified paranormal synchronicity that drops into reality. It supercedes all our expectations. It is truth, mystical choice, a "raining down" of resonance, a transcendent event. But what is a Miracle Maker? Lazaris creates a mystical journey to show us how to create a resonant environment that draws

miracles like a magnet. Techniques include the *Chronicle of Miracles*, the *Miracle Chamber*, the *Sacred Time Technique*, *Claiming the Right of Miracles*, and developing greater humility, self-forgiveness, and self-reflection. In the meditation our Higher Self heals us, clearing out the residues around our heart, rewiring our brain, and giving us new eyes. Then miracles "rain down" on those we love, on our reality, on us.

Intimacy

Intimacy: It is what we all want and what we all fear. We rush toward it and recoil from it, and the dance is exhausting. On this tape, Lazaris helps us take a clear look at intimacy with its closeness, tenderness, vulnerability, love, trust, and caring. There is a thorough exploration of the blockages as well: from the misunderstandings of what they really are (Lazaris mentions the "slick packaging of the Soul Mate") to the expectations created by the past and our own self-centeredness. Lazaris describes the joy of true intimacy and gives a seven-step process and a beautiful and magical meditation to achieve it.

Intimacy That Works:

Union, Co-Union, Communion:

Intimacy: We all know the words, and we are all aware of our personal list of "why not." Lazaris guides us past what we already know of intimacy into the realm of its mystery, and thus into its power and magic. During this enchanting evening, Lazaris explores how to build intimacy: (1) Lay a foundation by balancing our Light & Substance. (2) Build a structural armature that begins by exposing ourselves to our own secrets and ends with the reminder to stop testing and to start loving and caring. (3) Move past the four Sentinels of Fear (Exposure, Perception, Paradox, and Magic). And (4) activate the map by generating Union: a Wholeness; Co-Union: sharing ourselves with another; and then Communion: experiencing an enchanting moment in which to "make – to create and manifest – love." There is a stunning meditation included in which we journey beyond and find the magic of intimacy ... of intimacy that works. Meditation: *Union, Co-Union, and Communion*.

Intuition

In its broadest definition, intuition is an act or a faculty of knowing directly without the use of the rational process. It is non-spatial, non-sequential, and non-linear. It is a synergistic whole which is greater than the sum of parts which don't exist. How to develop it? Lazaris provides a process of stretching image, and others for encountering and releasing our resistances. Then he helps us work with exercises for stimulating the frontal lobes, limbic and reticular brains, and the cortex of the brain — and works with opening up the capacities of the pineal and pituitary glands, the door-

Love doesn't carry you. You carry love. And if you will carry love, love will see you through, will guide you through, will show you through. It is like a flashlight, yes? You carry love, and it can bring the light into the darkness. But you are not going to get anywhere if you sit on a flashlight! – Lazaris

ways to spirituality. The benefits and joys of intuition are legendary, and the meditation on this tape — *the Place of Intuition* meditation — puts this magical, spiritual quality and ability within our reach.

Investing in the Future: Joy of Living Life

We know joy. And investing in our future with the joy of living life offers powerful magic for living our lives with greater success and happiness. It is also the seventh step in our pursuit of dominion. Lazaris begins this powerful discussion with a cursory review of what joy is and when it occurs. He then explores what usually happens when we encounter the opportunity of joy and more joy in our lives. Even when we know how to embrace and manifest it in our lives, we often don't have a way of holding that joy for future use — as an investment in the future. Opportunity denied, missed, ignored — or opportunity that lacks a way of holding it — can diminish or evaporate. We lose the opportunity and the joy seems lost. Lazaris explains that once we create a viable receptacle to receive the bursting energies and forces of joy, we can open the way to grasp the "joy among joys," the joy of living life. There can be many specific expressions of joy in our lives, and then there can be a grand, sweeping sense and experience: the joy of being alive; the joy of living life. This enlightening discussion continues as we explore the value of this "joy among joys," and it unfolds as we learn how to create and develop that magical receptacle of joy. Lazaris offers several practical techniques to make this mysterious investment in our personal and global futures. These techniques include *Laying the Foundation; Crystal Grid of Joy, Deepening Rapport with Future Self, Investment Strategy for the Future, and Seeding the Future*. Meditation: *Investing in the Future*.

The Journey Unfolds: Coming Home, Part II

This evening is as a Lazaris Blending that continues the exploration of the initial "Coming Home" evening. Lazaris teaches us an incredible "*Ritual of Reuniting*" that takes us to our *Oases of Joy and Wonder*. Along the way, we enter the Abyss to make Fundamental Choice. We enter our prisons and our hidden agendas to break free. We gather the *Tools of the Artisan*. We encounter the Muse and are guided by one of the Muses to a world beyond. The depth of the experience is far reaching. The *Ritual of Reuniting* can become a bountiful tool upon our Journey Coming Home.

{This tape is a companion to Coming Home I.}

Letting More Love Into Your Life

Despite what we know of love, we often resist letting more love into our lives. Perhaps we fear the never-ending quality of love; maybe we have found happiness in love but fear its joy. Our erroneous definitions and expectations of love may explain our resistance, and perhaps we have not created the time or space for more love. Lazaris helps us find our resistance and then he opens us to the *Keys of Letting* (foundation, contribution, destiny, and inspiration) and the *Secrets of Letting* (empowerment, identity, complexi-

ty, resonance). Within the magic, we can discover the *Keeper of Love* or the *Guardian of Love* that we truly are. In the meditation ("The Dance of Love") we can move beyond the flotsam of our old self and become the Keeper or the Guardian of Love. We can take our stand and dance the dance of love, allowing more and greater love into our lives.

For the series of meditations and techniques called Letting More Love into Your Life, please see page 14.

Living Magically, Every Day

This tape is about building bridges between the magic we experience in meditative states and our daily experience. The bridges include directed and non-directed meditations, running vertical, figure-eight, diagonal, horizontal, circular, and spiral energies around the body and chakra system, and energizing the endocrine, lymphatic, and nervous systems. Lazaris teaches us how to screen out fears and to use solitude to nurture flashes of insight. Other techniques include using a dictionary or television technique as a sort of I Ching. The meditation employs energy-running techniques to imbue our lives with magic. Lazaris has said that using these approaches frequently can help us gently, completely disconnect from the past.

Living the Enriched Life:

New Maps to Fulfillment

The clichés about knowing ourselves and loving ourselves are infinite. Even so, the clues to living a truer life and an enriched life are found in our capacity to sustain happiness and to discover fulfillment. Knowing and loving, they are keys to so much of what we seek; they are the keys to so much of the work — The Great Work — that lies ahead of us. It's a stunning evening with a delightful meditation.

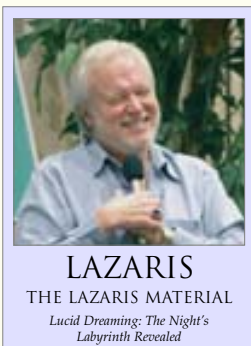

[Available Fall, 2004]

Living the Truer Life:

New Maps to Happiness

"Yes, you do know happiness. You just are not feeling it often enough. You are not feeling it deeply enough. And there is so much more happiness to be had: Happiness you have lost, happiness you have abandoned, happiness you want, but have not acquired, and happiness you never thought you could have." (Lazaris)

During this astounding evening, Lazaris pointed out that as we approach and unfold this Year of Union and as we work with the remaining years of this decade and beyond, we will need to deal with — we will need to confront or encounter — our issues with happiness. When we do work with our issues around happiness, we can begin to feel the happiness we know and we can begin to create new maps — new ways — to create more happiness (increasing the quantity) and greater happiness (expanding the quality). So Lazaris explores and works with our *Traditional Resistance; Current Resistance; and Genuine Ongoing Fears of Happiness*. Then the discussion becomes more mystical as Lazaris lays out the *Components of Right Living* in a triad of being, becoming, and wholeness. After a beautiful and powerful meditation, Lazaris designs seven new maps ... new maps to more

Personal Growth Tapes

and to greater happiness. These maps include *Fetish of Happiness*, *Sphere of Paradox*, *Fire of Frustration*, *Celebration of Right Living*, *Mound of the Magician*, *Reflecting Pool of the Truer Self*, and the *Torus of Happiness*. It is an amazing recording. Meditation included: *The Gifts of Happiness & of the Truer Life*.

The Lost Treasures of Joy

Joy is phenomenally potent, and its power lies in its treasures: its capacity to add dimension to Luminous Dreams and Optimal Futures — and to sharpen the tools of intention and attention, action, and image. It empowers the causations of resonance, love, and creativity, and it awakens innocence and wisdom. It can replace struggle and unlock gateways to the Future, the Possible, and the Unknown. Lazaris guides a meditation to build an Avenue of Joy — which at first is difficult but becomes easier all the time. Techniques include: *The Symbol of Joy*, the “*Out of the Blue*” Technique (the Sirius Connection), and the *Tonal Creation Technique* to transmit and receive joy.

Loving God/Goddess/All That Is:

A Divine Mystery (Evening Only)

“*Finding your grace can lift you to a higher octave of mystery; it can lift you beyond the peaks of mystery ... and in that beyond, the ease and elegance of your magic, of your future, and of your life as well as the beauty and richness of your happiness can come as naturally as flight comes to an eagle. Strengthened by your human grace, you can dance with God and with Goddess. You can dance with All That Is, and you can do so with exalted co-creation ... with co-creation that is overflowing with joy ... with sacred joy, with gracious joy – with a joy that is endowed by the Divine.*” — Lazaris

Reminding us that we are no longer technicians but we are masterful magicians whose magic is art, Lazaris weaves an enchanting and magical evening as prelude to a phenomenal culminating weekend. Before we fully get underway, Lazaris offers a *Lazaris Blending* (recorded). Then we review the basics of human grace, of spiritual grace, and of the grace of magicians. Each is a reservoir from which we can unfold our personal grace. Lazaris offers techniques: *The Trine of Value*, *Maiden/Mother/Crone*, and *Magic Upon the Mills*. And we can find our grace. Even though we cannot label it, we can be the beneficiaries of its bounty and beauty. Then Lazaris explores the dance: *Dancing with God/ Goddess/All That Is*. In an elegant, step-by-step approach, what we know of co-creation can become so much more, and our

magic can become so much more powerful. The evening portion of this incredible weekend concludes with a wonderful meditation. This tape is a treasure. Meditation: *Finding Personal Grace*.

Loving Joyously: Superseding and Transcending Self

“*Joyous loving can be your means and method not only to access expansion that can be miraculous, but it can be your means and method to supersede and transcend your fears and to supersede and transcend yourself.*” (Lazaris)

The recording begins with an exploration: What is joyous loving? With a cursory review, Lazaris reminds us that we know what love is and we also know what joy is, but the concept as well as the experience of loving joyously may elude us. As the discussion unfolds, Lazaris offers us a map, a flowing progression and procession from love to loving joyously: 1) love is made for giving but it begins with receiving; 2) flowing beyond first love and the first falling in love into more real giving; 3) giving opens to joy; 4) loving that engages the Muse so we can “hear the music” awakens loving joyously; 5) set in motion, loving joyously reveals more faces of love; 6) awakening aliveness, wholeness, individuality, becoming more, belonging, and togetherness ... the maturing of love; and 7) a standing wave and a field of resonance emerge: loving joyously becomes more powerful than love we have known. As we are conscious of the flowing progression and procession, we can be the beneficiaries of the bounty of loving joyously. Lazaris examines several benefits as the exploration continues.

Our established patterns of loving can shift and lift reaching higher octaves of expression and power. We can discover a new range of elegance in the living and loving of life. Joy can become genuine and continual in our lives, and we can find comfort; we can find peace. And something else can happen: our more real or truer self – our transcendent self – can be revealed. The miracles can be endless. Following a beautiful meditation, Lazaris concludes the evening with four techniques: *Oasis of Loving Joyously*; *Removal of Masks & Disguises*; *Vessel of Giving*; and *Ritual of Renewal*. Meditation: *Loving Joyously*.

Lucid Dreaming:

The Night's Labyrinth Revealed

Lazaris discusses spontaneous lucid dreaming – the kind we all can read about in the few books available within the consensus reality. He then crosses the threshold of determined lucid dreaming into the unexplored realm of directed lucid dreams. He explores what lucid dreaming can mean to living our dreams, to accelerating our growing and changing, to working with our love and will, and to the revelation of the mysteries of life. Lucid dreaming is much more than being conscious that we are dreaming; it can be a cornerstone in our new foundation of empowerment. Includes several techniques: *Beds of Lucidity*, *Lemurian Dreamer*, and *Calling the Dream Keepers*. Additionally, it includes instructions for making a *Dream Machine* and a

Mobile of Dreams. Lazaris takes us on a meditation – “Opening the Night’s Labyrinth” – in which he and our Higher Self work upon our brain and neural pathways. We open to the secrets still locked in the night.

The Magic of Joy

The entire universe is in a state of constant harmony and happiness, and we are like an island of unhappiness in this sea of joy. There are two main reasons why — fear of boredom and fear of loneliness. But intricately woven in also are attachments to guilt, outside validation, and martyrhood — and a lack of active participation with values, principles, ideals, and character. Even with that, we are fighting a losing battle with joy, because eventually our defenses will all fail. Lazaris talks about how to remove blockages to joy, about positive thought’s triumph over negative thought, and about the immense force of joy itself. Lazaris includes a succinct explanation of reality creation and how thought moves to the Causal Plane and back to create the physical. He closes with the magnificent *Ruby of Joy Meditation*.

The Magic of Receiving: A New Dimension of Success

Although receiving may look like a passive act, it is actually vitally active. The clues to receiving are the very same as they are for achievement. And there are common resistances that we have — the Dark Shield and Dark Law we carry with us, our negative ego’s fantasies and delusions, our penchant for control, our desire always to earn, our resistance to the gratitude that always accompanies receiving. But there are also what Lazaris calls Poignant Resistances: the fear we won’t be loved, an invisible clinging to the past, and pain we have not healed. Lazaris works with us to resolve all of these, and then opens us up to the *Disk of Receiving Technique*, a *Chakra Ritual*, and a meditation that literally helps us “receive receiving.” A powerful, beautiful tape that can change the nature of manifestation and create a whole new dimension of success.

Magician’s Dream: Celebrating Love & Magic (Evening Only)

The glory of love emerges when you honor and respect the love that you have for self and others, when you honor and respect the love that you are ... Step into the boundless magnificence of love, for there you will find the gratifying bliss of happiness, of triumph, and of rejoicing. This is the glory of love. We love you so. Come. Let the celebrating begin; let the celebrating continue. – Lazaris

It is a time for dreaming and for loving; it is a time for celebrating and for working magic. “You gather, bringing your dreams and your love, and you come to create grander dreams and greater love; you gather bringing your magic and you come to work even greater magic.” – Lazaris

Lazaris wove discussion, myth, ritual, and meditation together to create a stunningly magical weekend. And out of these days, we found those grander dreams with vision, that greater love with mystery and mysticism, and that greater

magic with precision. We did this through the grace and through the art of celebration. During this recorded Friday evening portion of the weekend, Lazaris creates a magical environment in which to prepare not just to learn of it but to experience celebration literally and metaphysically. In these few hours, Lazaris talks of *The Point and Power of Dreaming* and *The Point and Power of Celebration*. There are many functions of dreams that are familiar to us; there are other functions that are often overlooked and remain unfamiliar to us. As magicians those overlooked or unknown functions can be vital. We know how to celebrate. Well, our child and adolescent selves have their views. But as spiritual adults and as magicians, celebration is more than something we do after accomplishing and succeeding. Lazaris explores how to use celebration in preparation and participation as well as in conclusion of our actions. Celebration can lift success to triumph and bounty to abundance, and transmuting and transforming can be lifted to transcending. Then Lazaris lays the foundation for *Creating the Map for a Magician’s Celebration*. By understanding the grades and stages of meditation/dreaming, we can create a grid and a map for discovering the grace and for developing the art of celebration. The evening concludes with a touching meditation to receive the gifts of the greater magic of dreaming and loving and the greater mystery of celebrating and working magic. A beautiful evening with Lazaris. Meditation: *Gifts of Celebrating Love and Magic*.

The Magic Only Increases

It is time to heal our magic. It is time to bolster, strengthen, and balance our magic. In every Age, magicians have reached a level of magic where they confront or encounter a magic that only increases. When this happens, not only does happiness spiral up to joy, but our fear – our fear of losing the magic and of losing the power of its workings – can expand and deepen intensely. Out of this fear, many magicians retreat from their magic. During this powerful evening, Lazaris offers us a new map; he answers our question: What do we do when we fear we are losing our magic? To make this new map, Lazaris offers a Collage of Energy in the form of familiar and new techniques. From *The Magician’s Way to The Experience of Oneness*, and from *The Counsel of the Ancients to The New Magic*, Lazaris explores each of 14 distinct energies that we can utilize to heal and strengthen our magic. These energies, used individually, in clusters, or as a collage of energy, can assist us in bolstering and balancing our magic. As well, we can come to know the magic – the magic that only increases. Lazaris also offers us an array of methods with which to work with these healing and strengthening energies. This was truly a special evening and this cassette can hold untold treasures and gifts for each of us. Richly powerful meditation included. Meditation: *Journey of Oneness*.

The Magic of Divine Union

Divine Love ... “the love that loves for no reason at all ... the love you can do nothing to gain and can do nothing to lose.” To help us gain a sense of this august and rare love, Lazaris begins with a touching exploration of the progression of love, from the reasons why we love beyond memory and beyond imagination to where the why of love becomes the what of love.

To move beyond sensing to experiencing this love, Lazaris explores what he calls the players ... the aspects of ourselves that are integral to reaching Divine Love: *Objector/Protector; Shadow (Dark & Light); Passion Stealer; and Personal Nemesis*. As well, we need the help of our *Ego-I*, our *Lesser/More*, and from our more realized *Self-I*. During a mystical meditation, the players gather and each one gives us a gift or a treasure essential for our success. In the magic of that moment, we can be lifted into a mystical union and then it can happen: We can be gifted with Divine Union. The oneness with God, the oneness with Goddess, and the oneness with All That Is ... wrapped in the miraculous; we can be filled with a oneness with love ... the oneness of Divine Love. It was truly a touching and magical evening overflowing with love. The resonance as well as the discussion and meditation were captured on tape. Meditation included: *Divine Union*.

Making This Your Last Lifetime

The monumental decision to make this lifetime your last is a decision accompanied by paradoxes and dilemmas, — and by an unprecedented bounty of life-changing magic. Lazaris helps us explore our issues of deservability around such a decision and our fears of the obligations and duties that we fear may result. He explores the paradoxes of genius and insanity and of earning and receiving versus struggling and suffering. He illuminates karma as something that can never be “burned” but only released. Lazaris helps us release the past, handle our resistances so that we emerge capable of the decision (and willing to receive the bounty it generates). The result is that we arrive at a state of peace with our spiritual path. With a beautiful meditation, we engage the High Magic whose only technique is choice.

Manifesting Uncompromising Happiness

“You are happy; you are happier than you have been and not as happy as you want to be ... not as happy as you will be.” — Lazaris

A refreshing view of what happiness is and an invigorating discussion of why we continually seek and can continually find happiness lead to a fascinating discussion of why it is hard to admit how happy we are. Our genetic-hormonal nature precludes it, our conditioning discourages it, and our fear impedes it, but we are happy. Lazaris explains why such admission is so vital to expanding the happiness we know and to manifesting uncompromising happiness. Then he goes further to offer us a variety of keys that can assist us in admitting our happiness and can guide us to that rarefied level of happiness without compromise. We can find happiness without concession or deviation from our principles, our priorities, our “demands,” or our “differences.” This fascinating discussion unfolds as Lazaris describes specific pragmatic and esoteric techniques: *Happiness Crystals, Talismans and Amulets of Happiness, Resonance Ritual, and more. Meditation: Resonance of Happiness & Beyond.*

Millennium Celebration with Lazaris (Evening Only)

Fifteen hundred magicians gathered to welcome the new millennium with Lazaris; 1500 magicians gathered to celebrate love, to celebrate the magicians that they are, and to celebrate the magicians they are becoming. Lazaris worked with each of those magicians to help them find their magician’s voice; with his love and with his magic, he guided us to discover our new voice. The evening began as Lazaris quickly set aside the concern of whether or not this was actually the beginning of the new millennium. He spoke of the confluence of energies and forces that has never been nor will be again, of a complexity like no other, of the unique mystery of choice currently present, and of the world’s celebration. Confluence, Complexity, Choice, and Celebration ... Lazaris wove a tapestry of magic that is truly extraordinary. From this tapestry, he explored the value of finding our voice and finding our new voice as magicians. This stirring discussion unfolded into the specific steps that can lead us – guide us – to finding that voice. This elegant discussion leads to specific techniques (*Wall of Truth in Temple of Soul, Pinnacle of Freedom, Crystal Alliances, Gateways of New Magic, and Cascading Steps of Voice*) and concludes with a touching and wonderful meditation. Exceptional evening. Wonderful evening meditation: *Gateways of New Magic.*

Moving Beyond Guilt and Fear: New Entanglements with Old Names

Just when we have grown so significantly that we are approaching whole new levels of spirituality, guilt and fear appear again. But it is often a mistake to believe they are the guilt and fear we once knew. Guilt functions as a substitute for character, integrity, dignity, and conscience when we don’t have them — and it can also act as a strange kind of motivation. Fear is an automatic response of our humanness and can be generated out of genetic, social, and ego templates. And as resonance creates a purification of energy, guilt and fear arise in new ways. Lazaris explores the phe-

nomena of beauty, goodness and truth, of remorse and indebtedness, of dignity and tragedy. And he gives us beautiful techniques (*Journeying through the Narrows* and *Creating Masks and Bundles of Fear*) to help us transcend the limitations – and a powerful meditation to move beyond them. The tape includes other techniques: *The Prisms of the Future Technique*, *Unconscious Programming*, and the *Triangulation of Guilt and Fear*.

The Mysterious Power of Chakras

A clear, detailed discussion about the etheric vortexes of energy known as the chakras. Along with clear delineations of the full body chakra system of 12 chakras, lower body and upper body systems, and centers outside the body, Lazaris also outlines the relationship of musical tones to the vital organs — and the influence of the chakras (which are not affected by entropy) on immunity and longevity. There are references to various kinds of maladies and how to interpret them — and to the relationship of the seven basic chakras to the issues of security, pleasure, control, love, expression, intuition, and spirituality. The meditation on this tape is stunning: The Old Man replaces our chakras with new, gem-like vortexes. Since our “reality of illusion” is projected from the chakras, every element of our lives benefits.

The Mystery & Magic of Co-Creation

A dynamic discussion of the hidden definitions, understanding, and wisdom of what co-creation really is: It is reaching into the Unknown Realm for possibilities that are beyond the human potential; it is a process of encountering and unfolding the *Energy of Together* and the *Energy of Between*; it is a gift from your Higher Self that is rooted in the higher realms. Lazaris works with an *Evolving Concept of God*, the *Cone of Power*, a *Blending of the Mind Technique*, and explores the *Council of the Seen and Unseen*. He explores the *Paradoxes of Co-Creation* that involve genius and insanity, and responsibility shared and owned. Finally, he explores the identities of the co-creators: animus and anima, the Archetypes, Higher Self and Future Self, The Old Man and Old Woman, seen friends (those we admire), and special friends like Lazaris. With a magnificent meditation.

Mystical Other:

Beyond the Conscious Mind

“There is a world ... the world of Other ... where magic laughs with the winds and dances with the waters. Cradled by the earth, magic blossoms with the light of each new dawn’s day.”

– Lazaris

We can begin an adventure that can last far beyond this lifetime, stretching beyond all space and time. Lazaris begins by telling an enchanting, magical story about “first adventures” into the Realm of Nature Spirits and Faeries. There is the Ether – the pre-conceptual, pre-structural that emerges from and surrounds the Essence. Out of the Ether, energy generates force. Out of the energies and forces come the Elements. Out of their interplay, the Spirit of Nature

manifests, and the world of Nature Spirits unfolds. Lazaris talks about misconceptions – and then the more-real conceptions – of the Other, the Mystical Other, and the Faerie Realm. [For example, Gnomes, Undines, Sylphs, and Salamanders are Nature Spirits, not Faeries, as they are often thought to be. Elves are not Faeries, either.] Lazaris then takes us on a guided visualization to set our exploration in motion even as he reminds us that this evening’s discussion is only a beginning. With delightful techniques, Lazaris shines a light along the pathways to the Mystical Other, and we “will never be the same again.” With a powerful meditation for our “first foray” into the Faerie Realm.

Negative Ego: Ending the Co-Dependency

A concise exploration of the origins and purpose of our ego and how and why it “went bad” to become singularly the most destructive force in our reality. Beyond busting our ego, we need to get off the game board by ending our co-dependency. Lazaris talks about the nature of co-dependency with its oppressive rules that diminish our capacity for participating in loving relationships — a dependency that exaggerates the need for control and that leads to woeful self-neglect. Lazaris uses a meditation in which we see the co-dependency through our eyes — but also through the ego’s eyes — and then employs a seven-step process to end the co-dependency. It includes releasing the negative ego so it can “grow up,” creating a closer relationship with your Higher Self, and ending the sense of nobility that often surrounds co-dependent relationships.

New Dimensions of Joy

A phenomenal discussion in which Lazaris lays out our *Formula of Success* and our *Strategy for Change*. We each have such a formula and strategy, though often we are not conscious of it. Unaware of its components, it runs us, and both success and change seem beyond our reach. He includes a beautiful discussion of frustration and its precipitation of boredom, anxiety, and depression. Our frustration can become productive in redesigning our Formula and Strategy. With precision we can infuse our Formula and Strategy with joy. Miracles can abound. Lazaris guides us upon a meditation (*The Bounty of the Sea of Success*) in which we gather the components of success and change and take them down to the sea. There the sea changes and enhances what we deliver to it. We return with new and renewed pieces of success and the energies of change.

New Dynamics

of Processing & Programming

Lazaris has often said that “homework” is the work you do to go Home — and the work you do to bring something home. And that’s what processing is: It’s what you do to prepare for the reality you want to create. Lazaris begins with a clear explanation of the differences between Upward Causation (the old Cartesian paradigm) and the Downward Causation that can magically empower us. He looks at the workings of the Subconscious Mind and at our payoffs and

New Strategies to Optimize Success

This is a tape we will listen to time and time again, hearing a new depth and finding a deeper meaning each time. Lazaris lays the backdrop for this vitally important discussion by talking of why we need a new strategy to create optimum success. He talks about the Great Awakening: access to ports of greater happiness and greater knowing as well as access to the ports of transcendence and metamorphosis. Lazaris also explores the current information revolution and how we could become overwhelmed and overrun with information without new strategies. And it is a time of grand opportunity. From this backdrop, Lazaris shows us how to create an environment to attract optimum success by working with our current Strategy for Success and by developing a living relationship with success. Once we have an environment to attract the optimum, we need to create specific "Attractors" to place within that environment. Intensity/Intimacy, Elegance/Enthusiasm, Trust/Partnership, and the Complexity of Wisdom play key roles. Lazaris then turns his attention to the specifics of new strategies: Celebration-Triumph, Co-Creating with Crystals, and Archetypal Guidance are some of the techniques Lazaris brings to life. Developing Fortune and working with the Unknown form the foundation for our new strategies. A powerful and beautiful meditation is included.

poisons before covering many new techniques for processing more effectively and for new levels of manifestation: the *Meat Grinder Technique* for powerfully effective processing — and *Flash (Montage) Programming Techniques*, *Future Loop Programming*, *Editing the Film*, *Gift Techniques* and more for manifesting. The meditation finds us in a forest where Lazaris helps us find our way to greater power.

New Horizons of Potential and Opportunity

With a new window of potential, with a new door of opportunity, we can make more potent decisions and find the means to implement and accomplish them. We can discover more fruitful directions to achieve the caring, loving, and living we seek. As well, we can unravel old patterns and dismantle current patterns that block or obscure our success. We can embrace our Radiance of Resonance, abundance, momentum, and balance. Lazaris shows us where to look for the new window and the new door of potential and opportunity. With specific technique, we can open that new window to retrieve relinquished and lost power; to restore our lost or abandoned Self; to utilize the Capacitance of Resonance; and to work with the concept of Resolving vs. Solving. During the discussion, Lazaris teaches us how to use amulets and talismans of our resonance and our momentum — along with amulets or talismans for abundance — and balance to generate a gateway to the mysterious and mystical where we can find our potential and opportunity. While there, we can also unfold and discover new, never-before-known potential and opportunity as well.

New Maps to More Elegant Futures

Elegant Futures: Some will manifest and some will not, but their resonance acts like beacons of energy, radiating power. Our task is to create the avenue — the map — that leads to those beacons of energy. And on this tape Lazaris gives us a wealth of tools to create the map: *The Circle of Focus Technique*, *Dialoguing with our Future Self*, *Looping Time*, and the *Hall of Futures Technique*, the *Prisms of the Future Technique*, and the immensely powerful *Unconscious Programming Technique*. In addition there are ways and meditations suggested for dealing with the limitations that prevent our creating a standing wave of these beacons of energy, and a meditation with the Faces of the Soul and Higher Self to clear the blockages and make the connection with these luminous futures.

New Vistas of Hope:

The Mystical Core of Great Magic

"Magic becomes splendid magic when it is infused with the esoterics of the Divine." (Lazaris)

During this discussion, Lazaris guides us upon a gentle journey, an intimate one. Upon this journey, we seek hope: Hope can guide us to the realm of Splendid Magic; hope can be the infuser of the Divine that can lift our magic to become Great Magic. Along the way, hope can change our magic, allowing it to be more vibrant and viable, with workings that are more profound — more far-reaching. Along the way, hope can change our life, allowing it to become richer with the texture of greater success and greater happiness. We explore the *Nature of Hope* to understand how the *Divine Hope* we received from God/Goddess/All That Is dwindled and was replaced by human hope. Then we uncover what hope can be for us, the magicians of our current and future Age: Hope can spark so much within us (power, courage/confidence, co-creation, dominion) and it can be a reservoir for so many things (love, happiness, resonance of the miraculous, and magic). With this foundation, we reach for the new horizons of what hope can be and what it can provide as it adds dimension — it is an attractor, a stabilizer, and our guide to *Splendid Magic* — to *Great Magic*. Techniques include *Seven Days of Hope*, *Elixir of Hope*, and *Mystery of Hope's Paradox*. Powerful meditation, *Reshaping Hope*, included.

New Ways of Harnessing & Transmuting Negative Ego

We know that our ego is not the enemy, but that our negative ego is. Our negative ego can destroy in minutes what it has taken us decades to build: It can crush love, shatter trust, and leave us devastated in the ravages of self-betrayal. We also know that we are not born with a negative ego: It becomes negative when it is shamed or when its growth is arrested at an infant, child, adolescent, or young adult level. It becomes negative when we are unwilling or unable to heal and mature our ego. Lazaris' concise exploration of the true function of our ego and his precise examination of what goes wrong lead to an exhilarating discussion of new ways to harness and then to transmute our negative ego into a positive, productive one ... into a beautifully powerful, mature ego. *The Ego Dialogues, Maturing Ego*, and *Crystal Work: Ego Crystal & Resonance Crystal* are but a few of the new ways. Lazaris also talks of how we might work with the Mystical Other when dealing with our egos. The *Maturing the Ego* meditation is amazing beyond words.

Our Secret Prison:

Discover & Break the Dark Law

It crystallizes into one devastating sentence: the Dark Law which forms the basic limit of what we can have and what we can be. Lazaris helps us search for the clues to its content in the *Dark Shield*, core emotion, rationales of failure and death, the *Soul's Wounding*, recurring nightmares, and the fear of the *Mysterious Tragedy*. The Dark Law lies at the base of all our negative beliefs and psychic contracts and is at the source of our brain chemistry and mechanics — and even of our DNA. It disrupts our Journey Home and our Soul's Path and ends even the possibility of longevity and immortality. And it is a Law that can be broken. Lazaris uses a powerful meditation and a seven-step process for breaking the Dark Law and using Spiritual Character to solidify the action. A life-changing tape.

Passions Awaken:

The Soul's Call To Adventure

Lazaris initiates an esoteric alchemy of combustion that can transform the fertile disorder of chaos into the creative elegance of passion, and the fear and anxiety of the Unknown into luminous inner guidance. On this tape, Lazaris clearly explains the boundless love, unbridled enthusiasm, insatiable yearning, and unending longing that is passion. He shows us the essential role passion plays in our spiritual growth. It is a foundation of empowerment, integral in our Soul's voice, critical to hearing our Soul's Call to Adventure, and to responding to that Call. Once found we underutilize passion. Lazaris defines precisely what the Soul's Call to Adventure is, and concludes with a series of esoteric techniques that involve working with our *Passion Stealers* and with the *Muse*. Also included are pragmatic techniques: *The Steamy Breath of Passion, Chronicling Passions, The Grace of Challenge and Competition*. He culminates with the Bonfires of Passion Meditation.

Passion's Secret: The Mystery and Magic of Boundless Love

It is our soul that calls us to adventure; it is our soul that imaginatively and eagerly calls us to our passion. Lazaris explores the boundless love, the unbridled enthusiasm, the insatiable yearning, and the endless longing that is our passion. He shows us how to unravel the mystery and the magic — how to awaken the power of our passion. This recording includes an enchanting meditation.

[Available Fall, 2004]

Personal Depth: A Journey of the Richness of Health, Wealth & Success

Generating greater health, wealth, and success is a direct result of greater personal depth. Lazaris works with a myriad of concepts: *the Generating and Sustaining Energies* of reality creation and the impact of image, personally-chosen destiny, personality, ideals and character, creativity, and discipline on evolving personal depth. He also works with some common misconceptions we have about it ("People with depth never have any fun"). Lazaris also gives a step-by-step technique for developing Personal Depth that involves releasing the past, becoming the Peaceful Rebel, giving ourselves a little time of self-imposed exile from the outside world, and for encountering the Promethean Myth. It includes the exquisite *Veils of Light Meditation*.

The Power of Dominion

Dominion: Even the word itself has grace. It was a friendly world where time was a patient teacher and where space was a servant — where the past, present and future were constructs for gentle and compassionate learning — and ego was an assistant. When we chose the Grand Promise of the Negative Ego over the Spiritual Promise of God/Goddess/All That Is, we consciously broke with the World of Dominion and entered the World of Domination as individuals and as a collective humanity. But there is a way back. Lazaris gives us four approaches to releasing domination and establishing dominion, and a meditation to go back to the time when we knew dominion and to the time when we gave it up. In a profound meditation, the Elements stimulate our memory and help us make the choice again.

The Power of Our Chakras:

Removing Blockages to Our Success

Lazaris explores the meaning and significance of our 12 chakras (seven within and five outside the body) and the 12 levels of each chakra. It is an illuminating discussion that can free what has been locked and frozen inside us. It can

answer so many of the seemingly unanswered questions. He then opens us to our 12 senses (five familiar, two common, and five unfamiliar) and such clarity becomes ours. Among the techniques, he offers new approaches: *Breath of Spirit*, *Touch the Divine & the Enduring*, *Active Receiving: Elements of Shrinking and Bringing to the Table*, and *Cascading Liquid Lights of Healing*. The meditation (*Cascading Liquid Light*) is a powerful meditation to unlock and to unfreeze so much that has hitherto blocked and stopped us.

The Powerful Secret of Reflection: "With Little or No Effort At All"

Reflection is a wonderful ally. It is like a clutch you can push in to disengage your reality for a moment — suspending a crisis or avalanche — and re-engage in a different space. Its components are the etheric/psychic energy of attention, the linking energy of intention, image, and action. It is a powerful agent of rapid, profound change with little or no effort. Engaging genius and expanded metaphor, and leaving admonishment and judgment behind, we can move through a process that travels through fear and control until we find the Luminous Intent that lies behind every action, even those that are essentially negative. *The Luminous Intent meditation* can take us there in minutes. Lazaris also has us work with the *Circle of Focus Technique*, the energies of Sirius, and the *Double-Tetrahedron Technique*.

Power Manifest: A New Domain of Magic

In this year of creation/manifestation — during any time when creativity is at hand — we seek something more; we seek new heights of magic and of success. From those new heights — a different level, a new dimension or octave of creation and manifestation — we look to find new meaning and new expressions of success, of course. Mostly we look to know love: to take that one hand that we know "belongs in ours." During this amazing evening, Lazaris lays out the components necessary to create a new domain of magic in which we can pursue and find what we seek. From *Unconscious Presence* through the substance of the *Presence of the Ancient Ones* to the energy of our *Personal Presence*, we can create a new environment in which our power can be more than a desire, more than a potential. We can create a domain in which our power is manifest ... evident, obvious, and profoundly present. Along the way, we can *Make Love*

Safe and Make Power Safe. There is so much that can unfold in our new domain of magic and with the gift of the Ancients: *Power Manifest*. After exploring the components needed, Lazaris guides us on a powerful meditation to sit with the Ancients and to receive this gift as a seed planted deep within us. He concludes the evening by exploring specific techniques from working with this newly-placed and newly-received gift. Meditation: *Power Manifest*.

Programming What You Want

We are all familiar with our "tape loops" — the kind of programs we have that seem to pervade our lives. This tape is about consciously creating those kinds of meta-programs — but ones that give us greater health, happier relationships, and greater abundance. Once they are created they are accessed by a wealth of techniques given on this tape: *Flame Techniques*, *Multi-Focus and Particle Techniques*, *Flash Programming*, *33-Second Technique*, *Kundalini Technique*, *Symbols*, *Access Codes created by Counselors*, and techniques for stepping into and out of realities. It includes a powerful meditation to program for something specific.

Prosperity & Abundance in the 1990s

Prosperity and abundance are different in the 1990s, and on this tape Lazaris works both with concepts and with a wealth of new tools and techniques to help us escape the consensus reality panic and to create our reality on our own terms. Encouraging us first to forgive past failures and reconnect with what we know to be the illusory nature of reality, he helps us construct a *Personal Abundance Symbol*, gives us a *Breathing Technique* for drawing in the energy of abundance, and helps us chart the full length, width, and depth of prosperity on all levels — physical, emotional, mental, and etheric. With the *Pool of Abundance Meditation*, we work with the reflections of abundance in the Unconscious Mind to bring them into the physical world.

Reaching for the Stars

Reaching beyond the sludge and briar of our past, we can touch our stellar tradition. Reaching beyond the seductions and fears of our fantasies, we can touch our shining futures. And somewhere in between what was and what will be, we can begin reaching for the stars. During this amazing evening, Lazaris begins our exploration by examining what it means to reach for the stars. He speaks of more joyous success and profound happiness as well as of profound compassion and joyous knowing. He speaks of greater value and greater presence along with greater loving and healing. To achieve these qualities that are also the components of reaching, we need new and expanded technique. After a review of the success cube, image/identity, and the mystery of our choices, Lazaris offers a step-by-step exploration of four distinct and profoundly powerful techniques: *Enriching & Embellishing Identity/Image*; *New Dimensions of Success Cube*; *Mystical Choice* and *Expanding Love's Domain*. Each technique is vibrant. Each overflows with the essence of magic. A meditation, *Expanding Love's Domain*, is included.

Reality Creation: The Basics

"You create your own reality." In this tape, Lazaris explains how we do it. He begins with the function of thought that creates energy, and subatomic particles that structure the reality of illusion. He talks about past, parallel, future, and "split-off" lifetimes — all of which occur simultaneously with the one we have now — as well as the death experience and karma (always self-chosen). He touches on the Doomsday scenario as an "enrollment tactic" and explores the greatest freedom as being responsibility, the greatest gift as being choice, the greatest act as being the act of love, the greatest joy as that of healing. A remarkable tape, its discussion and meditation are a joy.

Receiving the Magic & Bounty of Our Future Self

The "good news and bad news" about our Future Selves is that our Future Self is more-real than our current actual Self. Most within the consensus reality hold their Future Selves as fantasy; even we too often hold our Future Selves as "concepts." We don't allow our Future Selves to be living, breathing, and vital. Lazaris explores why and suggests how our lives can change when we allow our most positive Future Self to come alive. As the evening unfolds, Lazaris talks of the seven hurdles that we need to overcome and then step beyond. Even when we have overcome them, we still need to step beyond them. When we do, we create a lyrical ritual that can lead us to the magic and the bounty of our Future Self. The elegance of this evening is stunning. Lazaris explores many new techniques: Blossoming Our Future Self creates the foundation of our work. Additional techniques: Overcoming Hurdles, Future Self Crystal Work, Rapport with Future Self, Co-Creation with Future Self. *Meditation: Blossoming Our Future Self.*

Reclaiming the Lost Depths of Love: The Missing Ingredient of Miracles

If we have ever felt fear or the allure of freedom, if we have ever attempted to control or have ever been attracted by the idea of miracles, there is a love and a depth of love that we once knew and have now lost — one we can regain. Lazaris explores our inhibitions: layers of "not enough" and of feared consequence or erroneous responsibility — and the *Silent Sentinel* and *Silent Voices*, Weakness of Self-I and Ego-I, the weak choices that are not wise, willed, right, and empowered choices. He adds texture with such techniques as: *The Power of the Possible*, *The Skill of Claiming*, and *The Art of Demanding*. He includes a *Meditation of Reclamation* that is both powerful and profound.

Reclaiming Your Lost Depth of Soul: Awakening Your Spirit

Transcendence is breaking free — breaking free of the whole paradigm in which we've functioned. The power and the fuel of self-transcendence is found in a depth of Soul and

a renaissance of Spirit that can fully awaken the High Magician. This tape forms a basis for moving to a *Radiance of Resonance* that can attract futures overflowing with abundance and an ever-deepening awareness of who we really are. In it, Lazaris explores the *Seven Hurdles* that stop us from this reclamation. These Seven Hurdles stand in the way of so much of our success and happiness. Lazaris works with a magical meditation to ignite the passion and compassion of an awakening spirit, and gives a seven step process through which we encounter and *resolve our dread and indebtedness* — and come face to face with our Soul. Then the Soul lifts us to its depths, creating a new foundation for the Great Work that is yet to unfold.

Reclaiming Your Dignity and Freedom

Freedom is essential to creativity and creation. – Lazaris

In our pursuit of mastering the art of creation and manifestation, we have created a foundation ("Bountiful Creation") and a receptacle to hold our creations ("New Domain of Magic"). Now, as with any creative adventure, we need to bring something of ourselves to the project. And that "something" can be found within the realm and arena of our personal dignity and within our personal freedom. The reclaiming is our next step. During this lively discussion, Lazaris lays out the map, beginning with awareness, understanding, and knowing our human dignity and freedom, followed by facing and owning our resistance to each. The map continues with discovering and exploring personal dignity and personal freedom, reclaiming dignity and freedom, and then with discovering and exploring relinquishing/losing freedom and dignity. The map concludes with facing and owning future dignity and freedom, and with awareness, understanding, and knowing the Continuance. Lazaris points out that, as we reclaim our dignity and freedom, not only do we move closer to mastering the art of creation, but also we can generate new expressions of greater happiness and success — and greater love with which to be loved and with which to be loving. And we can leap forward with the magic and mystery of our relationship with God/Goddess/All That Is. This inspiring evening is vibrant with hope and joy. The meditation, *Reclaiming Dignity and Freedom* (included), is luminous with insight and powerful with magic.

Rekindling the Thrill:

The Magic of Enthusiasm

Enthusiasm, an excitement imbued with the divine, is a lost art. But when we can rekindle the thrill, enthusiasm can once again become a mysterious force within our magic. Greater happiness and joy ... a greater love and greater living ... can be ours. Lazaris explores what rekindling the thrill can mean to our pleasure, passion, and destiny — and how thrill plays a profound role at the core of power. It can be a critical part of a long and happy life (longevity), our "best yet" future, and our sacred sense of dominion and divinity. Lazaris takes us upon a delightful journey to discover where we can find the thrill — the thrill we once had

and the thrill brand new. From the messages lost within our old hidden agendas to the messages from the Muse, we can find, rekindle and make new. Within our substitutes for expectation, our enemies of choice, in the peaks of our love and in the troughs of our past, we can find the clues of where to search for our personal thrill and the enthusiasm that accompanies it. ... Often we did not lose the thrill: The pain and trauma we once knew may well have stolen our thrill as well as our dreams. Within the field of force of our love, we can heal that old pain and remove its scars. We can find the thrill we once knew. Lazaris concludes his discussion with techniques for working with crystals – calcite and apophyllite – and for working in *The Liminal*. A profoundly beautiful and powerful meditation is included.

Relationships that Work: Creating the Next Level

What we truly seek in relationships is the magic that transforms and transcends. Lazaris works with us to heal the damage of our previous relationships, to protect and heal the ones we have, and to reawaken the imagination, compassion, and passion we have lost so we can move into the next level with grace. Lazaris uses techniques which include engaging the energy of Sirius, creating physical and meditative safe spaces for relationships, forgiving the dark relationships and cherishing the light ones — and healing judgments and perfection. The meditation is deep, beautiful, and powerful, and helps us create relationships at the next level.

Resonance Magic: The Remarkable Power of Unconscious Presence

Unstoppable power ... Somewhere within the midst of our magic, amid the many powers of magic at our disposal, there is a unique power that, once activated, cannot be stopped. Unstoppable success ... When we make the most powerful choices most consciously, our success can be both unlimited and unstoppable. The key to our unstoppable power and to creating unstoppable success lies within a precious and rare domain where our unconscious and conscious can become one: It lies within unconscious presence. Resonance magic is critical to utilizing that key; it is vital to accessing the unstoppable in our magic and of our success.

During this exploration, Lazaris reviews resonance and resonance magic and clearly defines the *nine domains of unconscious presence*: the nine locations where our unconscious and conscious minds become one mind. Then he outlines and guides us upon a remarkable journey. It begins with *exploration* of necessity and chance, moves into *reflection* to step outside the Sets of Necessity and Chance. We then *enter* the liminal: that mysterious place and state “between.” Within the liminal, with *focus and release* we can empty ourselves of all thought and all feeling so that we can engage our mind beyond our conscious mind. Seeking *clarity and purity*, we reach beyond our unconscious mind to experience our truer self, to reside beyond self-doubt, and to be confident of our self-liberating freedom. Then we can *experience* the domains of unconscious presence.

Working magic here ... our mystical power can be unstoppable; our successes can be unlimited and unstoppable as well. The evening’s meditation, *The Journey of Unconscious Presence*, is truly a metaphysical treat.

Rising to the New Dawn: Forging Courage, Perseverance, and Conviction

(Evening Only)

This recording is the evening portion of the culminating weekend of 2004, *The Year of Union*. Lazaris creates an endearing magic as he weaves together the energies of this year so that we can create a magical tapestry: We can be the beneficiaries of the known and unknown power and magic of union. We can reap the bounty and then give so much of that bounty to our world. This is the dawning of our day, and we can rise to meet that dawn as never before. Meditation included. [Available Winter, 2005]

Secrets of Empowerment: Loving Beyond Self

Reaching beyond the peaks and plateaus of growth, our success can go “off the charts” with a new kind of empowerment. Not everyone is ready for this new kind, but we are. Lazaris outlines the *Seven Secrets of Empowerment* and talks of the counter-weight, counter-balance, and the spark of presence that empowerment can bring. With empowerment, we can step beyond our current round of resistance. Success, happiness, joy, and love can abound. Our giving can become exalted; we can touch the wonder. We can forgive what “cannot be forgiven,” end the grief that will not end, and heal the malady that will not mend. Lazaris offers techniques: *Tapping the Raw Force-Energy of Love*; *Charting Our Giving (Being of Service)*, and the *Chamber of Empowerment* are a few. Includes the *Chamber of Empowerment Meditation*.

Secrets of Success in the Remaining Years of the Millennium

Since the opening of the Sirius Vortex in 1994, everything is different — including the nature and means of success in what remains of this millennium. The chauvinistic worldview of bankability as profitability is giving way to a

reality in which information is the driving force of success and perception is more bankable than oil. The secrets: *Future and Resonance Causation*, the *capacity to open to the Possible*, *Vision* and *Luminous Intent*, and the knowledge to seed the future with magic. Lazaris grounds us in the information necessary to understand the new success — with its abundance and prosperity — and uses *Dialoguing with Success* and a ritual to connect with the Truer Self as tools to create a powerful resonance. With an extraordinary *Success Cube Meditation* that includes a ritual of love and resonance.

Secrets to Changing Anything In Your Life – Instantly

We tend to approach change as if it were a fickle god or goddess from our folklore. We hope that it will smile upon us, somehow being touched by our efforts or moved by our sincerity. We even hope change will take pity on us and just happen (poof). In fact, change is something we receive and allow, not something we do. It happens to anyone healed enough and willing enough to receive it. Its secrets: It is instantaneous and begins in the future. Changes in the past are really *changes in future memory*. It is magic, it is an art, and it is an energy you can engage. Lazaris uses a Subconscious Mind process and works with the *Room of Change* and with *Engaging Change* itself to put us in a resonance where we can change anything at all — instantly.

Creating a Brilliant Future and

Self-Esteem

Every power we have as a unique human being comes from our estimation of who we are — from our self-esteem, the love we earn by our positive qualities of self. “Set” between ages seven and ten, and deeply influenced by the relationships we have with our father, self-esteem motivates both our belief and our choice. Seeking false self-esteem leads to depression, physical exhaustion, anxiety, worry, doubt, and confusion. But true self-esteem leads to the aliveness, creativity, pleasure, positive pride, and the willingness to adventure that make life a joy. With several processes of evaluation and a beautiful guided meditation.

Self-Worth / Self-Respect

This tape is remarkable for its opening discussion of spirituality and the evolutionary processes of the Self — and for its illumination of the often-misconceived aspects of self-worth and self-respect. Lazaris explains that self-worth is our “given” value as spiritual beings — a gift from God/Goddess/All That Is that can never be taken away. Its complementary quality is self-respect, the rich appreciation of our emotional self that we earn. Both are necessary for our relationship with God/Goddess/All That Is, and this tape is a step-by-step journey of understanding both. The *Meditation for Self-Worth and Self-Respect* is geared toward

awakening the experience of self-worth that is already there, and for beginning the development of true self-respect.

Standing Empowered with the Ancient Ones

Their grandeur is wrapped in mystery. Ancient Ones are the weavers of truth. They weave truth into knowing and create treasured gifts of profound change. Such is the nature of their mystery; such is their grace. Come. Stand with the Ancient Ones: Wrapped in your mystery, weave your truths, and your world can change in ways you cannot explain. Yes, we love you so. – Lazaris

So begins a powerful exploration as Lazaris discusses the grandeur found in the Grace of the Ancients as well as Counsels and Gifts of the Ancients. Lazaris continues by unfolding the Story of the Ancients and the magic in the Presence of the Ancients. With this foundation in place, we are ready for the step-by-step process not only for sitting with the Ancients but for standing – standing empowered (enriched with our own authority and permission) – with the Ancients. This magical exploration continues with an enchanting meditation and a series of techniques: *Standing Empowered*; *Alchemy of the Ancients*; *Weaving Truths and Dreams into Knowing*; and *Confluence Magic with the Ancients*. It is a stunning evening, rich with mystery and powerful with love. Meditation included: *Standing Empowered with the Ancients*.

Standing on the Verge: Elegant Visions Creating Magical Successes

Visions: They are dreams illuminated by the passion of the Soul and liberated by the compassion of the Spirit. They are Optimal Futures crucial to creating the Virgin Future of the World. Existing outside of space and time, they have their own nonlinear language that may include brightness and darkness and the way things are shaped. Lazaris explores this magnificent world, its relationship to the *Imaginal Realm*, its components of genius, self-worth, and Soul. Slipping past the Objector/Protector, we engage an Ally and enter the *Place of Vision*. Lazaris uses a powerful meditation to show us how to create linked and interlocking visions — eventually to create Interlocking Visioning with others and Unseen Friends. What is born is a capacity for magical success — and for engaging the electromagnetic energy of visions for the evolution of our species.

nately stagnant and panicked and is often the source of errant thoughts, feelings, and behaviors. It is rooted in the current life, but is weighted by past lives that influence its intensity. It hides itself behind the *Masks of Depression and Deservability*. Lazaris explores the tentacles of this elusive and destructive feeling, and helps us discover its masks. He describes several meditations, including one for going to the House of Masks in the underworld to discover the origin of the problem, and one for finding its root in the place it always lives: behind the heart. The *River of Time and Space Meditation* is included. Writing techniques (with rebuttals!), affirmations, and personal creative projects solidify an image without undeservability.

Sustaining and Expanding Success

A watershed workshop that holds gifts and treasures that we can discover for years to come. Everyone wants success; not everyone knows how to create it and even fewer know how to sustain and maintain it. As metaphysicians and magicians, we know how to create success; Lazaris answers the next question: "How do we keep the success; how do we create more?" It is not a frivolous nor a selfish question. Lazaris begins by explaining why sustaining and expanding success is vital: Beyond the obvious, in the current exponential "revolutions" in reality, if we do not know how to sustain and expand the success we know, we are at risk of losing the success. Lazaris teaches us how to build an environment that is conducive to sustaining, maintaining, and expanding our success. This same environment can be as a "hothouse" for creating success and it can be an "attractor" to drawing that success as if "out of the blue." Once we set the stage, we then can initiate the sustenance and expansion; we can set it in motion. After an incredible meditation, Lazaris details seven techniques: Gathering the Team; Candle Magic, Crystal Magic, The Oneness of Success, Elixir of Sustained & Expanded Success, Fear Bundling, and Commerce of Magic. *Meditation: Sustenance & Expansion from the Unconscious Mind.*

Transforming Negativity: Enemies into Allies

In their negative state, our "enemies" obscure our doorways to happiness and success; they entangle us and deny us so much of what we want. But in their transformed state, they are allies that can lead us to wondrous new doorways

to more bounty than we can yet imagine. These new allies can revitalize the Journey Home. They can reveal more of the wonders of spirituality. With these new allies, we can liberate ourselves from the past and deliver to ourselves a bright, healthy future. They open the doors of Optimal Futures and the New World and make real the Truer Self and the Transcendent Self. Lazaris exposes the enemies: *The Dream Stealer, the Objector/Protector, the Dark Lover, the Competitor*. Lazaris begins the transformation with a process to know the enemy and then to engage it, to dialog with the enemy, and then to transform it. Then we engage this new ally as Warrior or Adventurer both in the present and the future. With a stunning Higher Self meditation for transforming the enemy.

Transforming Personal Fear into Amazing Success

Deep within the core of our unique personal fear is a secret, a clue to who we are and to our destiny. Locked in our personal fear is an immensity of energy that can become a surging force for success. Fear, the non-local emotion that threatens on all four levels — physical, emotional, mental, and etheric — has to be handled spiritually. Lazaris helps us identify the "fueling pattern" of our personal fear and gives us specific tools, including: Talking to the Objector/Protector, Talking to the Dream Stealer, Talking to the Shadow, and the *Fear Bundle Technique*. With a profoundly liberating meditation.

Transforming Self-Sabotage into Lasting Success

Once it was failure that threatened to take away all we had created. But since the Opening of the Sirius Vortex, it is self-sabotage coming from the future that blindsides us. Lazaris helps us explore the guilts, the disowning of success, Self, power, and spirituality — and the flirtations with negative ego fantasies which create a fertile environment for self-sabotage. He helps us transform patterns of nobility, martyrhood, control, self-pity, and entitlement that threaten self-sabotage even more. In the meditation, Lazaris takes us beyond the function and form of self-sabotage to its essence and transforms its very energy. He concludes with techniques for intercepting self-sabotaging futures to stop them from manifesting and teaches us one of the most magnificent techniques of all: *Leaning upon the Love.*

The True Magic & Power of Waking Up & Staying Awake

Waking up — and staying awake — is key to an amazing sort of magic. It is one of the essential steps to Never-Ending Life, one of the spiritual activities comprising the mystery and magic of immortality. It is one of the essential catalysts and keys to Ultraconsciousness. Yet we fear it, and we'll cover it up with martyrhood, the refusal to forgive our own failures, and the blackmail and manipulation of self-pity. Lazaris reviews these and then charts our escape through the power of positive motivation and personal

depth and then relates tools for flushing out the anaesthetics that divide us from who we really are. The meditation is a joy, an enlivening and indelible experience of what it's like to really be awake and to stay awake.

Turning Potential into Successful Achievement

Our talents — the unclaimed and as yet unused gifts from God/Goddess/All That Is — are the magic that turns potential into achievement. They are echoes of our spiritual heritage and an instrument through which the Voice of the Soul is heard. In this journey of magic and healing, Lazaris shows us the secret places to look for our talents: in our spiritual heritage, in shamanism, in the conscious pools of emotional strengths and personality drive, in Enchanted Moments. Lazaris explores the *Four Qualities of Talent* and the fears that keep them away — and uses the *Silver Box Technique*, a *Disk Technique for exploring spiritual heritages*, a *Mind Meld technique*, and a magical meditation to discover and receive our unique talents.

Uncompromising Success

Lazaris begins this illuminating discussion by focusing upon why it is important to open to the possibility and the potential of success that is uncompromising. Then he moves forward to explore why such important success is so difficult to achieve. Compromise can be terrific: resolving difference by concession, adjustment, and balance. And it can be dangerous: a solution that can endanger our safety and security. Uncompromising, likewise, can be imprisoning: success that is unyielding and blindly stubborn. An uncompromising success can be brilliantly liberating: without reserve, adhering to principles with character and integrity; adhering to power with goodness, truth, and beauty. Lazaris explores the dynamics of both kinds of success. The discussion continues as Lazaris outlines specific steps to activate the resonance of liberating uncompromising success. From *Lifting the Veil of Admission to Success as Magic*, we can find the path of this brilliant potential. At the core, we can bargain with our future rather than continue bargaining with the past. Lazaris concludes this powerful evening with a profound meditation and with several practical techniques that include *New Dimensions to Our Success Cube* and *7-Day Crystal/Talisman Work*. *Meditation: Gateway to Uncompromising Success*.

Unlocking & Receiving Greater Love & Greater Intimacy with Your Higher Self

We know love and we have experienced how much we do love. And yet, no matter how much of our own love we know, we also realize that much of our love remains lost and needs to be reclaimed. And when we do reclaim our lost love, even more of our love flows into that mysterious reservoir — that reservoir of our love waiting ... waiting to flow into our reality and into our world. So it is with our Higher Self's love for us. As much as we know of it, even more remains unknown — remains locked away, waiting to be

released. Lazaris accompanies us upon a treasure hunt for love. Along the way we learn of *exquisite moments of discovery* and of *exquisite moments of knowing*. We remember *mystical unions* of love as well as the *mystery of love* along with the *abundance and prosperity of love*. Each of these can be a stepping-stone to unlocking and receiving greater love and greater intimacy. As our hunt continues, Lazaris shows us how to lay a solid foundation with four specific cornerstones that can lead to the keystone that we seek. This evening is rich with beauty and magic. The techniques are so clear as they focus around how to make, work, and touch to unlock this greater love. A powerful meditation, *Unlocking Lost Love*, is included.

Unraveling & Activating the Greatest Secret of Success

We know success; we understand and can release what Lazaris calls the "standard bearing" fears of success. We can accept and respond to the legitimate fears that always accompany success. We even understand the greatest secret of success, but we have yet to unravel it; we have yet to truly activate it to generate unlimited and unstoppable success in our reality and in our world. This discussion explores this greatest singular secret and Lazaris helps us reveal the hidden within it: *Becoming more conscious*, *the importance and power of choice*, *the nature of choice*, and *the balance of power between consciousness and choice* are the steps to unraveling. We can create an alliance between our unconscious power and our conscious choice, and the result: Success becomes both unlimited and unstoppable. Lazaris continues this delightful and magical evening with further exploration of how we can activate this secret ... how we can let it thrive in our reality. With preparation, illumination, initiation, and then with the interplay of personal myth, this greatest secret can come alive and our magic can be joyous as well as triumphant. *Meditation: Capsule of Love/Will*.

The Unseen Friends

This is Lazaris' classic tape for meeting and beginning a relationship with many different Unseen Friends: our male and female counselors, our child and adolescent, our Higher Self, our Animus and Anima, and specialist counselors who can help us with very specific areas and tasks. Part of the beauty of this tape is the incredible overview Lazaris gives of paradigms of dominion and domination, and the impact our Unseen Friends can have in helping us create elegant realities that bring us the World of Dominion. He also discusses the gifts the Unseen Friends bring to our experience, including the transcending love of the Old Man and the Old Woman who help us shift reality levels — and the gifts of energy and creativity brought by the Animus and Anima. A magnificent discussion and meditation.

— Lazaris

This is perhaps the definitive tape on dreaming. Once we knew dreams as the magical agents they are: the Teachers and Healers, and Guardians of the Night. Lazaris reawakens in us the slumbering energies of the *Dream Weaver and Dream Stealer* — and takes us on a meditation to the completely real *Temple of Dreams* which has existed as long as humanity. This tape includes a wealth of powerful techniques: *Touch Techniques for Remembering Dreams, Restructuring Water Techniques, Subconscious Mind Dream Techniques, the Dream Disk Technique, and Scribble Pad Technique* — and processes and tools for remembering dreams, interpreting them on two levels of depth, and for crafting specific magical night dreams for teaching and healing. A must.

Utilizing Our Destiny: Consciously Directing Evolution

A tape of almost unimaginable depth, *Utilizing Our Destiny: Consciously Directing Evolution* has its own remarkable resonance. Lazaris explores what our self-chosen destiny really is, moving along a path of exploration that includes our life focuses, our image, our identity, and our seven-fold motivation. He delves into *The Seven Principles* which guide all of human evolution and talks with great beauty about the nature of our *human grace*. With its beautiful meditation and seven powerful techniques — including *The Three Powers of Choice Technique* — this tape is about discovering our living destiny. And it is about claiming our right to use that destiny in consciously directing the evolution of the human species — which is the joy and thrill of the unique time and space in which we are living. A gift of understanding for our Spiritual Journey Home.

Utilizing the Beautiful Unknown: The Empowered Path

The first beauty upon an empowered path within the Beautiful Unknown is that we can find the foundation and structure for our power and for our continual changing and growing. We can “catch up” upon our metaphysical and spiritual path. The second beauty is that we can discover a new fulcrum for accelerating and changing and growing — for uplifting our evolution. Lazaris helps us understand

what the Beautiful Unknown is and where we might find it. It can offer us dignity, goodness, truth, and our sense of immortality. Lazaris illumines the Hero's Journey and Magician's Journey that can allow us to enter the august realm of the Unknown — and in a delicate process shows us how to utilize what would stop us and what would impede us on such a journey so that our path can truly be an empowered one. Lazaris offers clear, precise, detailed steps to ensure that our exploration is a beautiful and productive one. And upon our return? Lazaris is there with what to do with all that we have garnered and gained. It is an exceptional evening. With a magnificent meditation.

Utilizing the Incredible Mystery & Magic of Expectation

Expectation is one of the three energies with which we create all of our reality — and it is the one that most often falters. What we need is not just high expectation, but expectation that is dimensional — expectation with solidity, width and depth — for it is essential to reality creation, to all positive change, to health and longevity, to sanity and genius. Lazaris looks at the cynicism and pessimism, depression and apathy, fear, entitlement, self-doubt, control and anxiety that fill the gap when expectation fails. Then he uses *Color Visualization Technique, The Corridor of Desire, a Technique for Bottling Expectation* — and a magnificent *Resonance Pool of Expectation Meditation* in which we can dip into the pool of expectation itself when our own expectation is not enough to create what we want. Just listening to this tape will raise your level of expectation.

Utilizing the Magic of Self-Trust

Self-Trust is critical to so much that we value: It is the keystone of love, intimacy, and caring, and it is essential for building the esteem and confidence necessary in being the Valued Self. It is key to the vibrancy of our magic and to enhancing the quality of our relationship with our Higher Self. Yet beyond the wonder of Self-Trust, there is a magic — a magic that can reach far beyond the beauty of trust itself. In an enlivened discussion, Lazaris explores why it has been so hard to trust ourselves: Social paradoxes, the lack of trustworthiness, and the “magic pill” are some of those reasons. Also, the “substitutes for trust” make genuine trust seem out of reach. Lazaris lays the groundwork not only for trusting ourselves but also for awakening the magic that lies dormant within trust. What is our optimum resource? How do we generate the resolve and “grow” our magic? How do we ground our Great Work? These questions answered, through meditation and technique we can find Self-Trust and work its magic. Techniques include Trust Crystal Matrix, Trust Dust, Trust Mask, and Trust Dreaming. Powerful *Meditation: Trust's Magic*.

Utilizing the Power of Choice To Generate Profound Change

With belief, choice is the most powerful of the raw materials from which all of reality is created. It is the cor-

nerstone of success and it is so powerful that it can supercede every hormonal, genetic, and ego template: It can direct the neural pathways and the calibrations of the cerebral cortex and the frontal, temporal, and occipital lobes. It is seminal to change, integral to learning, and it is always conscious. Lazaris' exploration of the power of choice and his meditation to discover its mystery and mysticism are gifts of the capacity for profound change. He helps us alleviate the impact of chauvinism, blockages, and limited life patterns and worldviews. Included are several powerful techniques for utilizing the immense power of choice: *Luminous Intent* and *Self-Reflection Techniques*, *Threading the Needle Technique*, and a process for *Navigating the Narrows*.

Utilizing the Unknown Powers of the Magical Child

The Magical Child arrives with its favorite toy — a hoop and stick. They know the Highest Truths and always remember that life is a gift from God/Goddess/All That Is. They forgive unconditionally. And they have access to the Higher Realms. They can have untold impact upon magic, healing, processing and programming, manifestation, and success. First Lazaris illuminates the negative ambition, self-centeredness, victimhood, martyrhood and defensiveness that obscure our vision of the Magical Child — and helps us slip past them. Then he shows us how to create a mystical *Domain of the Magical Child*, a place where we meet them, and gives us techniques which include talking to the sleeping Magical Child and bringing them gifts. A beautiful, enchanting meditation opens the door to a life sprinkled with the mystical gifts of the Magical Child.

Waking the Magician: Sacred Return to Oneness

From the first moment of our urge to spirituality, it is there: the yearning to awaken the Magician who is born of knowing and certainty, who is born of a Real Self and the Real World. Lazaris teaches us the qualities of this High Magician and looks at the patterns of fear and the needs that prevent its awakening. He guides the *Doors of Perception Meditation* in which the Magician is awakened, and then provides several techniques for exploring magical places and dream worlds: *The Magic Mirror Technique*, *The Crimson Disk Technique*, and *The Incubation of Dreams Technique*. He also shows us how to use the Doors of Perception from the meditation as its own unique technique. Now awakened, the Magician begins to chart the Sacred Return to Oneness with your self, your world, Soul and Spirit, and God/Goddess/All That Is.

The Ways of the Ancients: Portals to the Future

This stunning exploration begins with an empowering review of how we are conditioned to “do the best we can” with the future that eventually becomes our reality. For so many within the consensus of our world, from childhood to old age, the future is always out there. It seems to be always

out there waiting to get us, waiting to beat us, and waiting to defeat us. We can break this conditioned pattern, and we can live a rich life of presence in the present. As magicians, we can do so much more. With a positive relationship with the future — with a productive alliance with the future — we can not only find presence in the present, we can also tap an incredibly powerful and profound resource for the working and growing of our magic. One way to open the portals to the future is to develop rapport and magic with our future self. Another way, the focus of this uplifting discussion, is to develop the ways of the Ancient Ones. Lazaris continues this magical exploration by talking of who the Ancient Ones are and of the Gifts and Counsels of the Ancient Ones. He then offers an insightful and revealing explanation of their nature: The Grace of the Ancients. By understanding and knowing who the Ancient Ones are and by understanding their gifts, their counsels, and their grace, we can awaken Ancient Ones and their ways in our world. We can awaken the Ancient One in us — the Ancient One we once were and will be again. This audiotape concludes as Lazaris offers several techniques for opening the portals to the future. Among them: *The Gathering of Ancients*, *Oneness with the Ancients*, *Receiving the Counsel and Gifts of the Ancients* and *Weeding and Seeding Futures in the Way of the Ancients*. Meditation: *The Gathering of Ancients*.

Winning: New Tools To Get What You Really Want

The “Wave of Possibility” floats like a double-helix between the here-and-now and the future. On this tape, Lazaris teaches us how to tap into the force of the future to create our reality now — and includes techniques for opening *The Doors of the Future*, for engaging the Unconscious Mind in dream programming, for integrating through Shadow Work, and for engaging *The Shaft of Blue Light* to ignite passion and compassion, courage, and commitment. A wonderful tape that thoroughly explains how the future creates the present. Packed with tools and techniques for future programming, it culminates with a magnificent meditation. *{Part of a Trilogy that includes: Creating a Brilliant Future and Secrets To Changing Anything in Your Life — Instantly.}*

Winning the Manifestation Game

Winning is an alchemy of resonance and attitude, and we can develop the qualities that make us winners who always wins. Then he teaches us about *The Three Key Actions of Winning* and includes several techniques: *The Portal of the Future Technique*

This is Lazaris' magical, yet practical, approach to discovering your Future Self and learning to work with it. He includes information about DNA and RNA (as containing future activity and as being motivated by the future) and a powerful meditation for meeting the Future Self.
